**The Letters of William Cullen Bryant: 1836-1849** William Cullen Bryant, 1975. The second volume of William Cullen Bryant's letters opens in 1836 as he has just returned to New York from an extended visit to Europe to resume charge of the New York Evening Post, brought near to failure during his absence by his partner William Leggett's mismanagement. At the period's close, Bryant has found in John Bigelow an able editorial associate and astute partner with whose help he has brought the paper close to its greatest financial prosperity and to national political and cultural influence. Bryant's letters of the years between show the versatility of his concern with the crucial political, social, artistic, and literary movements of his time and the varied friendships he enjoyed despite his preoccupation with a controversial daily paper and with the sustenance of a poetic reputation yet unequalled among Americans. As president of the New York Homeopathic Society in letters and editorials urging widespread public parks and in his presidency of the New York Society for the Abolition of the Punishment of Death, he gave attention to public health, recreation, and order. He urged the rights of labor, foreign, and religious minorities and free African Americans; his most powerful political effort of the period was in opposition to the spread of slavery through the conquest of Mexico. An early commitment to free trade in material goods was maintained in letters and editorials and to that in ideas by his presidency of the American Copyright Club and his support of the efforts of Charles Dickens and Harriet Martineau to secure from the United States Congress and international copyright agreement. Included here are letters to prominent Americans, many of them his close friends, such as the two Danas, Bancroft, Cole, Cooper, Dewey, Dix, Downing, Durand, Forrest, Greenough, Irving, Longfellow, Simms, Tilden, Van Buren, and Weir. His letters to the Evening Post recounting his observations and experiences during travels abroad and in the South West and Northeast of the United States, which were copied widely in other newspapers and praised highly by many of their subscribers, are here made available to the present-day reader.

**Rounded Up in Glory** Michael Grauer, 2016-08-15. Frank Reaugh, 1860-1945, pronounced Ray, was called the Dean of Texas artists for good reason. His pastels documented the wide open spaces of the West as they were vanishing in the late nineteenth century, and his plein air techniques influenced generations of artists. His students include a Who's Who of

twentieth century Texas painters Alexandre Hogue Reveau Bassett and Lucretia Coke among others He was an advocate of painting by observation and encouraged his students to do the same by organizing legendary sketch trips to West Texas Reaugh also earned the title of Renaissance man by inventing a portable easel that allowed him to paint in high winds and developing a formula for pastels which he marketed A founder of the Dallas Art Society which became the Dallas Museum of Art Reaugh was central to Dallas and Oak Cliff artistic circles for many years until infighting and politics drove him out of fashion He died isolated and poor in 1945 The last decade has seen a resurgence of interest in Reaugh through gallery shows exhibitions and a recent documentary Despite his importance and this growing public profile however Rounded Up in Glory is the first full length biography Michael Grauer argues for Reaugh s importance as more than just a longhorn painter Reaugh s works and far reaching imagination earned him a prominent place in the Texas art pantheon **The American Art-Union**

Kimberly A. Orcutt,2024-08-06 The first comprehensive treatment in seventy years of the American Art Union s remarkable rise and fall For over a decade the New York based American Art Union shaped art creation display and patronage nationwide Boasting as many as 19 000 members from almost every state its meteoric rise and its sudden and spectacular collapse still raise a crucial question Why did such a successful and influential institution fail The American Art Union reveals a sprawling and fascinating account of the country s first nationwide artistic phenomenon creating a shared experience of visual culture art news and criticism and a direct experience with original works For an annual fee of five dollars members of the American Art Union received an engraving after a painting by a notable US artist and the annual publication Transactions 1839 49 and later the monthly Bulletin 1848 53 Most importantly members names were entered in a drawing for hundreds of original paintings and sculptures by most of the era s best known artists Those artworks were displayed in its immensely popular Free Gallery Unfortunately the experiment was short lived Opposition grew and a cascade of events led to an 1852 court case that proved to be the Art Union s downfall Illuminating the workings of the American art market this study fills a gaping lacuna in the history of nineteenth century US art Kimberly A Orcutt draws from the American Art Union s records as well as in depth contextual research to track the organization s decisive impact that set the direction of the country s paintings sculpture and engravings for well over a decade Forged in cultural crosscurrents of utopianism and skepticism the American Art Union s demise can be traced to its nature as an attempt to create and control the complex system that the early nineteenth century art world represented This study breaks the organization s activities into their major components to offer a structural rather than chronological narrative that follows mounting tensions to their inevitable end The institution was undone not by dramatic outward events or the character of its leadership but by the character of its utopianist plan
