OBJECT-CHOICE (ALL YOU NEED IS LOVE . . .): ON MATING STRATEGIES & A FRAGMENT OF A FREUD BIOGRAPHY, BY KLAUS THEWELEIT, TRANS. MALCOLM GREEN, LONDON: VERSO, 1994. 112 PP. \$17.95.

THE MESSAGE AND TONE of Klaus Theweleit's engrossing new book can be gathered from a line concluding his second chapter, "Lexicon of Love": "The unalloyed love that any old male capitalist has for himself is one of the current capital crimes in the face of history." In *Object-choice* (*All you need is love . . .*), Theweleit suggests that male behavior in "love" is organized to protect and expand the domain of a fundamental masculine "self-love." He hardly needs to argue this point in detail, as it is so familiar; rather, he explores the implications of male "self-love" for people's choice of partners in specific sexual and social institutions, especially long-term "relationships" and marriage.

According to Theweleit, a man's object-choice consists largely in identifying, wooing, using, and abandoning female partners who serve his interests and technical needs as a male "producer" in a mostly male world of competition and creation. Women working in the male marketplace (for example, as craftswomen, intellectuals, or artists) will be drawn into the role of what he calls "medial women" for a male authority, or authority wannabe, by being asked to edit his movies, type his manuscripts, and so forth. Correlatively, female object-choice consists in large measure in identifying with and—by linking with the man who guarantees it—successfully occupying this role of subordinate coproducer or, in a slight permutation, "sister-daughter" assisting in the birth of a male institution or male creation. These are familiar constellations, and Theweleit's attention to them is not novel. Nonetheless, *Object-choice* offers a distinctive and sometimes fresh approach.

In general, it is a high-spirited book—fun to read, politically and artistically astute, topical, and richly expressive of the author's personality. Oddly enough, Theweleit reserves his own loving marriage, as he portrays it, from the destructive male narcissism he takes as his principal tar-

get. This kind of self-indulgence could have used an editor. Indeed, the book as a whole would have benefited from a more systematic and less religiously sensitive approach.

Theweleit proposes a number of riffs on a reading of Freud's 1914 essay "On Narcissism: An Introduction." This text suggests that a man will love, that is, intensely idealize and attach himself to, "(a) what he himself is, (b) what he himself was, (c) what he himself would like to be, [and] (d) someone who was once part of himself." Theweleit assumes that we have a good (not to say clichéd) idea of the relation between (a) and (c): a man is a "male"—to some degree anxious and frustrated—who would like to be a Male (a King). Theweleit is surely right, however, that the relations between positions (b) and (d) in Freud's scheme need redefining.

It is tempting to see object-choice simply as a repetition of the child's earliest relations with its parents; the latest love-partner is

someone who positions the lover as he was when he was a child and evokes the parent(s) who originally fashioned him this way. But Theweleit would like to move away somewhat from this simplified Freudianism. Drawing on the American psychoanalyst Lloyd de Mause's work on "psycho-classes," Theweleit urges that "the transmission networks and fish-hooks of the sibling level play a more significant role in love-choices and marital forms for the majority of people here (i.e., in contemporary Germany and the United States) than the constellations in the Oedipal triangle, namely the mother-father-child level" (my italics). Oldest children, he believes, will be attracted to and will tend to attach with oldest children, middle children with middle, and younger with younger. Precisely because parents treat their firstborn in ways quite different from the way they treat their lastborn, children of different "psycho-classes" will have different erotic chemistries and will tend to bond with their birth-order peers—they will "smell" them out. (Theweleit is not afraid to approach the "transmission networks" of erotic object-choice in the terms Freud also toyed with—as telepathy or chemical signaling.)

Moreover, the dynamics of sibling relations in the late-19th- and 20th-century Western family will set the pattern for adult object-choice. Theweleit suggests, for example, that male "brothers"—"best friends" or comrades-in-arms—will trade their "sisters," providing comparatively accessible women for one another. The "sister" is the girl constantly in the background of a boy's friendships with his male peers, and one whose chastity, competence, and obedience will be guaranteed by his friends, whose virtue, intelligence, etc., are, in themselves, never questioned. And when "boy friendships" disintegrate or a man moves on to new spheres of competition and creation in the male world, the first "sister-wife" (the sister of his best friend) will cease to interest him. He will create a sequence of such women as he advances through male institutions, hierarchies, and careers—a pattern in which Theweleit is especially interested.

In 20th-century cultural criticism, tremendous emphasis has been and probably will continue to be placed on Oedipal dynamics. More

Object Choice Klaus Theweleit, 1994-05-17 Whom do we choose when we fall in love How do we make the love object into what we want These are questions which only became important at the end of the nineteenth century as Freud began to formulate a new discipline which would be called psychoanalysis Freud argues Klaus Theweleit was the first theoretician of the new situation boy versus girl in the world series of love Theweleit looks at a number of relationships Alfred Hitchcock and Alma Reville the triangle of Hannah Arendt Martin Heidegger and Elfriede Heidegger Jung and Sabina Spielrein But the key figure is Freud himself Who would who could Freud choose As it happened Freud proposed to Martha Bernays The 1 500 letters of Freud's courtship became something like the first psychoanalysis without knowing it Martha Bernays became an analytic instance But Object Choice is not only a study of the founder of psychoanalysis it is also an illuminating lexicon of love in the twentieth century Freud is accompanied here by Jimi Hendrix the Kinks and the Velvet Underground Like Theweleit's *Male Fantasies* this is a collage book mixing auto biography theory and pop culture and always haunted by history above all the history of Nazism As an epilogue Theweleit brings Freud back to the scene of his courtship and the Beatles back to Hamburg in an exploration of that city's Wandsbek district once home to an important Jewish community His comments on the transformations and destruction that Wandsbek has endured form an elegiac tribute to German Jewry and a powerful conclusion to this remarkable book

The Wolf Man's Burden Lawrence Johnson, 2001 The Wolf Man was Sigmund Freud's most famous patient a man whose enigmatic childhood dream of being gazed at by wolves outside his bedroom window bedeviled the founding practitioners of psychoanalysis More than simply a rich source of imagery and meaning though the Wolf Man case might be interpreted as the primal scene of psychoanalysis itself Lawrence Johnson regards the creation of the psychoanalytic case study as the writing of two lives those of the analys and and the analyst so Freud's own biography and subjective viewpoint could hardly fail to bear a direct influence on the institution of psychoanalysis When Freud met the patient known as the Wolf Man Johnson maintains psychoanalysis was at an impasse because of Freud's inability to work through repressed material from his own childhood Freud overcame this impasse through a countertransference that cast his patient in the role of a rival for the control of psychoanalysis his means for vanquishing him set the terms for Freud's legacy to psychoanalysis Johnson offers a rigorous methodological framework for discussing the relationship between psychoanalytic writing and the lives of those who engage in it He fruitfully extends the work of Nicholas Abraham Maria Torok and Jacques Derrida into the realm of Freud's own life The result is both sophisticated psychobiography and psychoanalytic theory grounded firmly in historical lives
