The Eye Test Chris Jones, 2022-01-11 In a world increasingly ruled by numbers and algorithms award winning journalist Chris Jones makes a compelling case for a more personal approach to analytical thinking THE EYE TEST is a necessary course correction a call for a more balanced personal approach to problem solving Award winning journalist Chris Jones makes the case for the human element for what smart practiced devoted people can bring to situations that have proved resistant to analytics Jones shares what he s learned from an army of extraordinary talents including some of the best doctors executives athletes meteorologists magicians designers astrophysicists and detectives in the world There are lessons in their mastery Of course there is a place for numbers in decision making No baseball player should be judged by his jawline But the analytics revolution sparked by Michael Lewis s Moneyball now threatens to replace one kind of absurdity with another We have developed a blind faith in the machine the way a driver overly reliant on his GPS might be led off the edge of a cliff Not all statistical analysis is sound Algorithms aren t infallible and spreadsheets aren t testaments Trust in them too much and they risk becoming instruments of destruction rather than understanding Worse data s supremacy in our daily lives has led to a dangerous strain of anti expertise the belief that every problem is a math problem and anyone given access to the right information will find the right answer That taste doesn t matter experience doesn t matter creativity doesn t matter That we can t believe our eyes no matter how much they ve seen THE EYE TEST serves as a reminder that if beauty is less of a virtue in the age of analytics a good eye still is This book is a celebration of our greatest beholders and an absorbing inspiring guide for how you might become one too

Literature in the Making Nancy Glazener, 2016 In the eighteenth century literature meant learned writings by the twentieth century literature had come to be identified with imaginative aesthetically significant works and academic literary studies had developed special protocols for interpreting and valuing literary texts Literature in the Making examines what happened in between how literature came to be more precisely specified and valued how it was organized into genres canons and national traditions and how it became the basis for departments of modern languages and literatures in research universities Modern literature the version of literature familiar today was an international invention but it was forged when literary cultures traditions and publishing industries were mainly organized nationally Literature in the Making examines modern literature s coalescence and institutionalization in the United States considered as an instructive instance of a phenomenon that was going global Since modern literature initially offered a way to formulate the value of legacy texts by authors such as Homer Cervantes and Shakespeare however the development of literature and literary culture in the U S was fundamentally transnational Literature in the Making argues that Shakespeare studies one of the richest tracts of nineteenth century U S literary culture was a key domain in which literature came to be valued both for fuelling modern projects and for safeguarding values and practices that modernity put at risk a foundational paradox that continues to shape literary studies and literary culture

Bringing together the histories of literature's competing conceptualizations its print infrastructure its changing status in higher education and its life in public culture during the long nineteenth century *Literature in the Making* offers a robust account of how and why literature mattered then and matters now By highlighting the lively collaboration between academics and non academics that prevailed before the ascendancy of the research university starkly divided experts from amateurs *Literature in the Making* also opens new possibilities for envisioning how academics might partner with the reading public
