Digital Formations

Robert Latham, Saskia Sassen, 2009-09-19 Computer centered networks and technologies are reshaping social relations and constituting new social domains on a global scale from virtually borderless electronic markets and Internet based large scale conversations to worldwide open source software development communities transnational corporate production systems and the global knowledge arenas associated with NGO networks This book explores how such digital formations emerge from the ever changing intersection of computer centered technologies and the broad range of social contexts that underlie much of what happens in cyberspace While viewing technologies fundamentally in social rather than technical terms Digital Formations nonetheless emphasizes the importance of recognizing the specific technical capacities of digital technologies Importantly it

identifies digital formations as a new area of study in the social sciences and in thinking about globalization The ten chapters by leading scholars examine key social political and economic developments associated with these new configurations of organization space and interaction They address the operation of digital formations and their implications for the development of longstanding institutions and for their wider contexts and fields and they consider the political economic and other forces shaping those formations and how the formations in turn are shaping such forces Following a conceptual introduction by the editors are chapters by Hayward Alker Jonathan Bach and David Stark Lars Erik Cederman and Peter A Kraus Dieter Ernst D Linda Garcia Doug Guthrie Robert Latham Warren Sack Saskia Sassen and Steven Weber

Techniques in Human Geography Jim Lindsay, 2006-05-05 The first concise guide to the purposeful use of techniques in human geography Examining key techniques in detail survey and qualitative numerical spatial and computer based the book draws on important case studies such as the decennial census to illustrate applications The importance of up to date IT based techniques is particularly stressed introducing widely recognised applications A final section explores the Internet which offers exciting new resources but also creates problems for researchers used to traditional academic fields Juniper and Cisco Routing Walter J. Goralski, 2002-10-02 Discusses how network traffic flow is complicated by the fact that each routing vendor has its own proprietary implementation or extension to the routing protocols Covers both Juniper and Cisco routing and touches on other vendor implementations Focuses on routing policy covering Border Gateway Protocol in depth Includes real world multivendor configuration examples
