Corporate Social Responsibility in Rising Economies Nayan Mitra, René Schmidpeter, 2021-02-08 Emerging economies arguably have different socio fiscal dynamics compared to developed economies On one side they have the need for corporate interventions in national development on the other hand they do not have enough research to support the agenda In recent times there has been a conscious effort to legislate Corporate Social Responsibility CSR in some of these countries in order to bring about sustainable development Yet it is this legislation which is debated among many others This book provides its readers with a comprehensive interpretation of the various CSR perspectives in emerging economies through academic research and case studies from practice It not only points out the challenges the debates but also the dynamics of implementation and the impact of such CSR spent This book therefore is targeted both towards academics as well as practitioners in an attempt to bring about an active academic industry interface as CSR as a management function is part of dynamic social science
