Mastering platform is the most effective and widely used online homework tutorial and assessment system for the sciences. It delivers self-paced tutorials that focus on your course objectives, provide individualized coaching, and respond to each student's progress. The Mastering system helps instructors maximize class time with easy-to-assign, customizable, and automatically graded assessments that motivate students to learn outside of class and arrive prepared for lecture or lab. New to MasteringChemistry, NEW 15 Pause and Predict Video Quizzes bring chemistry to life with lab demonstrations illustrating key topics in general chemistry. Students are asked to predict the outcome of experiments as they watch the videos; a set of multiple-choice questions challenges students to apply the concepts from the video to related scenarios. NEW Multiple-choice Reading Questions are provided for each chapter, making it easy to hold students accountable for doing assigned readings before lecture. NEW Approximately 500 end-of-chapter questions are new or revised and are supported by the tutorial questions in MasteringChemistry. The overall number of algorithmic and randomized problems has also been increased for the new edition. NEW A subset of end-of-chapter questions has been enhanced with hints and feedback to provide scaffolded support as students move from robust tutorials to doing end-of-chapter and test questions on their own. NEW All MasteringChemistry tutorials have been evaluated and, in many cases, edited, revised, or rewritten by an advisory board of expert chemists, all teaching with the atoms first approach to ensure the reinforcement of this approach. NEW 10 PhET tutorials have been developed around interactive applets that foster conceptual understanding and active learning. Topics include acid-base solutions, balancing chemical equations, and molecular polarity. *OWL with EBook 6-Months Printed Access Card for Zumdahl/Decoste's Introductory Chemistry*, Steven S. Zumdahl, Donald J. DeCoste, 2010. Packaged with the textbook, this printed access card allows you to log on to OWL Online Web Learning system and built-in e-book. Already used successfully by hundreds of thousands of students, OWL lets you work on chemistry problems as long as you need and provides you with instantaneous feedback to help you master each chemical concept and skill. OWL offers you virtually everything you need to master chemistry and improve your grade, including tutors, simulations, and animations.
