Preparing For The 21st Century:

Preparing for the Twenty-First Century Paul Kennedy, 2011-07-06 Kennedy's groundbreaking book *The Rise and Fall of the Great Powers* helped to reorder the current priorities of the United States. Now he synthesizes extensive research on fields ranging from demography to robotics to draw a detailed, persuasive and often sobering map of the very near future, a bold work that bridges the gap between history, prophecy and policy.

Preparing Students for the 21st Century Donna Uchida, Marvin J. Cetron, Floretta Dukes McKenzie, 1996 As the 21st century approaches, many educators are debating the role of education in meeting students and the economy's needs. This booklet describes the results of a modified Delphi study that asked a panel of 55 experts from education, business and government how to best prepare students for the 21st century. During the course of three survey rounds, participants agreed that students will need communication skills, increased support for education, ethics and values education, skills in marketplace technologies, clear accountability standards and social and cultural understanding. Five chapters address the following topics: 1. what students need to know to succeed in the next century; 2. what schools can do to prepare students; 3. parent activities to help prepare students; 4. strategies to promote citizen government cooperation; and 5. the role of business and professional leaders in preparing students. A list of panel members is included. Contains 35 references. LMI

Preparing for the 21st Century, 1997 *Preparing for the Twenty-first Century* Paul M. Kennedy, 1994 *Preparing for the 21st Century*, 1997 ***Preparing Teachers for the 21st Century*** Xudong Zhu, Kenneth Zeichner, 2013-12-16 This book addresses two main questions: namely, how to prepare high quality teachers in the 21st century and how the East and the West can learn from each other. It addresses the different challenges and dilemmas that eastern countries, especially China, and western countries are facing with regard to teacher education. We explore the question by examining teacher education research, practice and policy in different countries, identifying both common problems and country specific challenges. We then try to find valuable experiences, theories and practice which can solve specific problems in the process of teacher education, also addressing how local and global factors impact it. In this regard, our approach does not strictly separate pre-service teacher education from teachers in-service professional development, adopting an integrative perspective. Further, we believe the respective social and cultural contexts must also be taken into account. Lastly, we call for teachers' knowledge and individual character traits to be accounted for in the education of high quality teachers.
