Creating Connections in Teaching and Learning Lindy Abawi,Joan Conway,Robyn Henderson,2011-12-01 This book explores the wide range of contexts in which research into creating connections in learning and teaching may take place Creating connections can encompass making links crossing divides forming relationships building frameworks and generating new knowledge The cognitive cultural social emotional and or physical aspects of understanding meaning making motivating acting researching and evaluating are explored as constituent forms of creativity in relation to such connections From this exploration the authors identify varied connective contexts and means which include the learner the educator the organisation and the relevant community The crossing of divides forming learner educator relationships bringing together diverse groups of learners establishing networks and partnerships among educators and establishing links between

organisations and communities are all considered as connections which can be created by and within the learning and teaching dynamic. By examining the factors which help to facilitate and or restrict the possibilities for creating connections in educational contexts, implications for and outcomes of learning and or teaching arise from the connections created. The final chapter of this book will explicate the realisations that have emerged for educators and researchers working to create connections. These offer suggestions for future directions and enunciate what and how connections might contribute to both educational institutions and the broader society.

Lev Vygotsky Peter Lloyd, Charles Fernyhough, 1999 The School Library Manager Blanche Woolls, Sharon Coatney, 2017-11-27 This sixth edition of *Library Unlimited's* classic school library management text describes new approaches to management and addresses the realities that school librarians face in today's quickly evolving information based world. In recent years nearly all school libraries and school librarians have been targeted for having their funding or staffing cut as a result of reductions in school budgets. How does a newly graduated LIS professional prepare for a career in this volatile environment? How do established librarians and administrators prove their value and necessity to decision makers? This freshly updated edition of *The School Library Manager* is an invaluable textbook that leads readers through the many essential management tasks and skills required to administer the successful school library program and beyond. It promotes the leadership role of the school librarian in the school and addresses the need for school librarians to provide students with equal access to information. The information presented will not only enable librarians to keep their jobs but also supply specific guidance and inspiration that gives readers the ability to make their positions and libraries undeniably relevant and valuable and to ensure a path of upward mobility in their LIS careers.

Preschool Connections Sarah Felsteiner, Annalisa Suid, 1994-01-01 NULL *Between Teaching and Caring in the Preschool* John C. Pruitt, 2020-07-06 In *Between Teaching and Caring in the Preschool* John C. Pruitt argues that preschool teaching is more than a set of roles and duties tied to institutional expectations. Drawing on two years of ethnographic fieldwork, twenty-three interviews and countless conversations with preschool teachers and analysis of

preschool documents Pruitt opens the black box of the preschool to show the complexity of the preschool teacher identity as it unfolds in everyday practices of teaching and caring. His analysis of preschool teachers' talk and interaction addresses pertinent sociological and early childhood education themes including classroom management, social control, emotions, and identity construction. He demonstrates there is more going on in the preschool than teaching young children and caring for them. Through practices of classroom management and teaching language, preschool teachers socialize children into education contexts and exert social control in and through teaching practices. By managing emotions, preschool teachers also manage impressions of themselves and the preschool. He also shows how preschool teachers use resources like Montessori pedagogy and their lived experience to construct authenticity. Pruitt concludes that institutions such as ECE shape identities within and away from the institution.

The Perfect Parents Handbook Jennifer Conlin, 2013-09-24. With a classification system that has every parenting style down to a T, The Perfect Parents Handbook is unputdownable reading for anyone who's ever forked over major three figures for the must-have stroller or agonized over what their children's school says about them as parents. The real facts and details in this book gently skewer modern mothers and fathers and will at the same time delight them with dead-on accuracy in describing the habits and accouterments of nine types including The Neo Trad Dad, makes the cupcakes, and kids' artwork is everywhere, not just on the fridge; the family's taste always exceeds its wallet; The Martyr Parents; They've sacrificed so much for the kids that the kids have taken over the asylum; The Power Parents; The IV sessions that led to triplets were coordinated on mom and dad's Blackberries; and the real British nanny swabs the babies' Burberry button-downs on the way to their five-bedroom Park Avenue apartment. The Classic Parents: Everybody's in LL Bean and their 2-3 children all climb into a little red wagon to get to the SUV. Laced with titillating facts about our child-centric culture, unique baby announcements, nursery decorators, mandatory volunteering at preschool, The Perfect Parents Handbook decodes the complex and terrifying smothering, doula-led educational vacations to the rainforest world of raising kids. **Literacy**
