Pathways With Purpose Sarah J. Royer, 2018-08-21 When I started thinking about building a Faith based curriculum for the early childhood classroom my goal was to create a curriculum that would catch the interest of children 0 Kindergarten See I have worked in the early childhood classroom for almost two decades and while the goal is at the heart of the curriculum I have used the interest it has sparked in our young ones is mild and dulled down at best How can we best instill an excitement to learn in our young ones By making the material and manipulatives hands on and exciting I don t mean by reading a story and pulling out paper puppets on craft sticks although this may be what some children like and want to explore What I mean is presenting values and morals in an explorative manner in conjunction with developmentally appropriate learning standards that help engage your students in learning experiences while getting them excited Including stories and sensory materials story buckets role playing with dress up materials including a variety of mixed media to spark your student s interests is absolutely necessary Create an environment that appeals to learners of various ages backgrounds and learning styles Make

your lesson times fun and interesting and your learners will gravitate back for more **International Index to Periodicals**
