educators     **A Vision for Universal Preschool Education** Edward Zigler, Walter S. Gilliam, Stephanie M.

Jones, 2006-07-10 Decades of research point to the need for a universal preschool education program in the U S to help give our nation's children a sound cognitive and social foundation on which to build future educational and life successes In addition to enhanced school readiness and improved academic performance participation in high quality preschool programs has been linked with reductions in grade retentions and school drop out rates and cost savings associated with a diminished need for remedial educational services and justice services This 2006 book brings together nationally renowned experts from the fields of psychology education economics and political science to present a compelling case for expanded access to preschool services They describe the social educational and economic benefits for the nation as a whole that may result from the implementation of a universal preschool program in America and provide guiding principles upon which such a system can best be founded

**A Mother's Job** Elizabeth R. Rose, 1999 This new book traces the transformation of day care from a charity for poor single mothers in the early twentieth century to a socially accepted need of ordinary families by the 1950s Using Philadelphia as a case study Elizabeth Rose explores the history of day care from the perspective of the families who used it as well as the philanthropists and social workers who administered it This study helps us understand the roots of our current dilemmas about day care in the context of debates on welfare women's work and family values     Early Start

Andrew Karch, 2013-04-09 In the United States preschool education is characterized by the dominance of a variegated private sector and patchy uncoordinated oversight of the public sector Tracing the history of the American debate over preschool education Andrew Karch argues that the current state of decentralization and fragmentation is the consequence of a chain of reactions and counterreactions to policy decisions dating from the late 1960s and early 1970s when preschool advocates did not achieve their vision for a comprehensive national program but did manage to foster initiatives at both the state and national levels Over time beneficiaries of these initiatives and officials with jurisdiction over preschool education have become ardent defenders of the status quo Today advocates of greater government involvement must take on a diverse and entrenched set of constituencies resistant to policy change In his close analysis of the politics of preschool education Karch demonstrates how to apply the concepts of policy feedback critical junctures and venue shopping to the study of social policy     *Preschool Education in America* Louise Joel Corwin, 1999     **The Family in America** Joseph M. Hawes, Elizabeth

F. Shores, 2002-05-22 An incisive multidisciplinary look at the American family over the past 200 years written by respected scholars and researchers Family in America offers two powerful antidotes to popular misconceptions about American family life historical perspective and scientific objectivity When we look back at our early history we discover that the idealized 1950s family characterized by a rising birthrate a stable divorce rate and a declining age of marriage was a historical aberration out of line with long term historical trends Working mothers we learn are not a 20th century invention most families throughout American history have needed more than one breadwinner In the exciting new scholarship described

here readers will learn precisely what is new in American family life and what is not and acquire the perspective they need to appreciate both the genuine improvements and the losses that come with change
