Prescription For Disaster The Hidden Dangers In Your Medicine Cabinet:

Prescription for Disaster Thomas J. Moore,1998 This hard hitting expose does for prescription drugs what Silent Spring did for pesticides revealing the hidden dangers of the most commonly prescribed medications and what the consumer can do to minimize the risks of serious side effects

Our Daily Meds Melody Petersen,2025-06-25 In the last thirty years the big pharmaceutical companies have transformed themselves into marketing machines selling dangerous medicines as if they were Coca Cola or Cadillacs They pitch drugs with video games and soft cuddly toys for children promote them in churches and subways at NASCAR races and state fairs They ve become experts at promoting fear of disease just so they can sell us hope No question drugs can save lives But the relentless marketing that has enriched corporate executives and sent stock prices soaring has come with a dark side Prescription pills taken as directed by physicians are estimated to kill one American every five minutes And that figure doesn t reflect the damage done as the overmedicated take to the roads Our Daily Meds connects the dots for the first time to show how corporate salesmanship has triumphed over science inside the biggest pharmaceutical companies and in turn how this promotion driven industry has taken over the practice of medicine and is changing American life It is an ageless story of the battle between good and evil with potentially life changing consequences for everyone not just the 65 percent of Americans who unscrew a prescription cap every day An industry with the promise to help so many is now leaving a legacy of needless harm

The Risks of Prescription Drugs Donald Light,2010 To what extent does the FDA protect the public from serious side effects and disasters What is the effect of giving the private sector and markets a greater role and reducing public oversight This book considers whether current rules and incentives put patients health at greater risk the effect of the expansion of disease categories the industry s justification of high U S prices and the underlying shifts in the burden of risk borne by individuals in the world of pharmaceuticals Cover

Your Drug May Be Your Problem Peter Breggin,David Cohen,2007-09-07 When first published in 1999 Your Drug May Be Your Problem was ahead of its time The only book to provide an uncensored description of the dangers involved in taking every kind of psychiatric medication it was also the first and only book to explain how to safely stop taking them In the time elapsed there have been numerous studies suggesting or proving the dangers of some psychiatric medications and even the FDA now acknowledges the problems more studies are under way to determine their long term and withdrawal effects In the meantime this book continues to be ever relevant and helpful Fully updated to include study results and new medications that have come to market Your Drug May Be Your Problem will help countless readers exert control over their own psychiatric treatment

How Corporations Hurt Us All Dan Butts,2003 The recent accounting and corporate scandals of Enron WorldCom Tyco K Mart and McWane producer of cast iron water and sewer pipes which has killed 9 workers and injured 4600 more with impunity since 1995 and other greedy and lawless billion dollar behemoths are just the tip of the iceberg relative to the serious and pervasive harm that corporations and greed are doing to people communities the earth and to our children s and grandchildren s future How Corporations Hurt Us All examines many crises including how Big Oil billion dollar weapons contractors and unaccountable private firms like DynCorps are continuing dangerous and immoral Cold War policies by driving multiple wars and military operations our collapsing corporate health care system that restricts free speech stifles public debate and manipulates public opinion to serve narrow corporate and political goals Some of the world s largest multinational corporationsDExxonMobil 1 oil company Wal Mart 1 retailer HCA 1 hospital conglomerate Citigroup the world s 1 financial institution and other rogue operations are profiled in the book The good news is that there are effective approaches to all of these interrelated greed driven crises Even more hopeful are the corporate reform and global economic democracy movements representing thousands of dedicated citizens groups and millions fo individuals throughout the world Yet what is ultimately necessary to reverse global economic social and environmental deterioration and eventual collapse insure world peace and security strength our weakened civil liberties and fulfill our human potential as the book explains is forging a broad consensus on a new bottom line or organizing principle for business and society

Issues in Green Criminology Piers Beirne,Nigel South,2013-09-05 Explores the ways in which governments transnational corporations military apparatuses and ordinary people routinely harm environments other animals and humanity

BLIND SPOTS Henrik Isager MD, PhD,2014-03-14 In spite of increasing use of advanced technology the patient orientated field of medical science clinical medicine has by and large retained the mechanistic substantial perception of reality inherited from the scientific communities of the eighteenth and nineteenth centuries In contrast physics bade farewell to this view more than a century ago and now conceives the world primarily as a dynamic continuum of energy Biochemists now regard structural substantially orientated and dynamic energetically orientated

aspects of biochemistry as complementary and equally important As seen from the perspective of the history of ideas the anachronistic world view of clinical medicine a view that can be characterised as dogmatic substantialism places it in an outdated position compared with physics and biochemistry a position from which the existence of biologically relevant energetic phenomena cannot be recognised as such simply because they are not supposed to exist During the latest three decades the epidemic of energy loss which comprises the diagnostic entities ME CFS fibromyalgia multiple chemical sensitivity consequences of whiplash injury and several other conditions has affected Western societies increasingly and caused significant humanitarian social and economical problems It is no exaggeration to state that the confrontation between conventional clinical medicine and the epidemic of energy loss has created confusion and all too often absurdities Isager attempts a thorough analysis of this situation and its historical and ideological roots emphasising epistemological problems problems concerned with how we know and how or why we do not know Learning to Be Old Margaret

Cruikshank,2013-02-14 This work examines what it means to grow old in America today The book questions social myths and fears about aging sickness and the other social roles of the elderly the over medicalization of many older people and ageism Here the author proposes alternatives to the ways aging is usually understood in both popular culture and mainstream gerontology She does not propose the ideas of successful aging or productive aging but more the idea of learning how to age Featuring new research and analysis the third edition of this text demonstrates more thoroughly than the previous editions that aging is socially constructed The book focuses on the differences in aging for women and men as well as for people in different socioeconomic groups The author is able to put aging in a broad context that not only focuses on how aging affects women but men as well Key updates in the third edition include changes in the health care system changes in how long older Americans are working especially given the impact of the recession and new material on the brain and mind body interconnections The author challenges conventional ideas about aging and brings forth some new ideas surrounding aging in America today **Women and Depression** Iffat Hussain,2010-04-16

Women and Depression is a multidisciplinary book It is a collection of research papers and essays from authors in the fields of sociology public health psychology and psychiatry It presents further interdisciplinary views on women and depression The authors have communicated their professional experience information and knowledge integrating the latest information about women and depression The chapters explore different aspects of women and depression for example how the community social and religious aspects play their roles in developing or fighting depression among women In some chapters authors have shared their personal experiences and their friends experiences which caused depression Other chapters include medical points that lead to depression in women whereas some chapters explore the healing power of self help such as yoga and meditation This book offers a comprehensive understanding of depression which is so common among women It provides an insight from a wide variety of professionals and people outside the medical field The essays are not purely medically based the book is also intended to be accessible for

those outside the medical field including patients with depression their families and friends and all those who are interested in this condition

Our Children's Health Bonnie C. Minsky, Lisa E. Holk, 2002 Leading nutritionist Bonnie Minsky takes up the cause of the rapidly declining health of our nation's children. She provides much needed practical information to give back children their inherent state of good health, normal weight and boundless good energy

Becoming a Disciple-Making Church Neil T. Anderson, 2016-01-26 Proven Methods for Turning Believers into Disciples. What does it mean to grow a convert into a disciple? And how do we help our people get there? Neil Anderson's Freedom in Christ ministry has been walking individuals through these steps for over a quarter century. Now he turns his attention to pastors and church leaders, teaching them how to help their people resolve personal and spiritual conflicts, including everything from difficult marriages to unrepentant sin to church disputes. Before someone can mature spiritually, they must be established alive and free in Christ through genuine repentance and faith in God. This means churches must resolve their people's conflicts as the first step to discipleship rather than referring them to professional counselors. We as believers have the answers for mental and emotional problems, and through this ministry of reconciliation, true discipleship happens

The \$800 Million Pill Merrill Goozner, 2005-10-10 Goozner shows how drug innovation is driven by dedicated scientists intent on finding cures for diseases, not by pharmaceutical firms whose bottom line often takes precedence over the advance of medicine. Stories of a university biochemist who spent twenty years searching for a single blood protein that later became the best-selling biotech drug in the world; a government employee who discovered the causes for dozens of crippling genetic disorders; and the Department of Energy funded research that made the Human Genome Project possible—these accounts illustrate how medical breakthroughs actually take place
