Presence Of The Past A History Of The Pr:

The Presence of the Past Roy Rosenzweig, David Thelen, 1998-11-05 Some people make photo albums collect antiques or visit historic battlefields Others keep diaries plan annual family gatherings or stitch together patchwork quilts in a tradition learned from grandparents Each of us has ways of communing with the past and our reasons for doing so are as varied as our memories In a sweeping survey Roy Rosenzweig and David Thelen asked 1 500 Americans about their connection to the past and how it influences their daily lives and hopes for the future The result is a surprisingly candid series of conversations and reflections on how the past infuses the present with meaning Rosenzweig and Thelen found that people assemble their experiences into narratives that allow them to make sense of their personal histories set priorities project what might happen next and try to shape the future By using these narratives to mark change and create continuity people chart the courses of their lives A young woman from Ohio speaks of giving birth to her first child which caused her to reflect upon her parents and the ways that their example would help her to become a good mother An African American man from Georgia tells how he and his wife were drawn to each other by their shared experiences and lessons learned from growing up in the South in the 1950s Others reveal how they personalize historical events as in the case of a Massachusetts woman who traces much of her guarded attitude toward life to witnessing the assassination of John F Kennedy on television when she was a child While the past is omnipresent to Americans history as it is usually defined in textbooks leaves many people cold Rosenzweig and Thelen found that history as taught in school does not inspire a strong connection to the past And they reveal how race and ethnicity affects how Americans perceive the past while most white Americans tend to think of it as something personal African Americans and American Indians are more likely to think in terms of broadly shared experiences like slavery the Civil Rights Movement and the violation of Indian treaties Rosenzweig and Thelen s conclusions about the ways people use their personal family and national stories have profound implications for anyone involved in researching or presenting history as well as for all those who struggle to engage with the past in a meaningful way *The Presence of the Past in Children's Literature* Ann Lucas, 2003-09-30 Time is one of the most prominent themes in the relatively young genre of children s literature for the young like adults want to know about the past This book explores how children s writers have treated the theme and concept of time The volume starts with the application of literary theory and additionally analyzes examples of the juvenile historical novel In doing so it also examines changing fashions in criticism and publishing and the pressure they exert on writers It then considers literary adaptations of myths and archetypes constructions of history in children s literature colonial and postcolonial children s fiction and the treatment of the past in the postmodern era The book looks at literature from around the world and the expert contributors are from diverse countries and backgrounds While the book looks primarily at literature of the 19th and 20th centuries it considers a broad range of historical material treated in works from that period Included are discussions of such topics as Joan of Arc in children s literature the legacy of Robinson Crusoe

The Presence of the Past Daniel Bishop, 2021 The Presence of the Past offers a new perspective on Hollywood's New Wave as engaged with the vitality of sensory experience and the affective imagination As author Daniel Bishop shows the soundtracks of several key films of the New Hollywood Cinema of the late 1960s and 70s cultivated an array of sensibilities regarding the American past This importance of the past exceeded the New Hollywood's acknowledged use of genre revisionism as a vehicle for timely ideological commentary There was also a vital tendency in this era to locate the past as an object of imagined phenomenal presence Although this concept of the past never solidified into a self-conscious discourse it was nevertheless woven into film culture readable between the lines of criticism cultural reception New Wave aesthetics and in the aesthetic and industrial transformations of sound design and film music *Bonnie and Clyde* 1967 *Butch Cassidy and the Sundance Kid* 1969 *McCabe and Mrs Miller* 1971 *The Last Picture Show* 1971 *American Graffiti* 1973 *Chinatown* 1974 and *Badlands* 1973 are not only key texts of an exciting era in American popular cinema They are also mediations upon the presence of the past an image central to the polarities of visceral energy and ambiguous ephemerality of utopian dreams and melancholy resignation that characterized this cinema These sensibilities of pastness engage in diverse ways with myth nostalgia paranoia and existential alienation They are however also united by a concern both with the experiential actuality of the past and with the distances that inevitably separate us from this actuality

of historical time Shoah Presence: Architectural Representations of the Holocaust Eran Neuman, 2016-04-01 Through the analysis of several commemorative acts in space matter and image namely museums and memorials this book reflects on the ways in which architecture as a discipline a practice and a discourse represents the Holocaust In doing so it problematises how one presents an extreme historical case in a contemporary context and integrates the historical into actuality By examining several cases the book defines the issues faced by various architects who dealt with this topic and discusses their separate and distinctive approaches In each case it analyses the ways in which the cultural and political contexts of commemoration led to a different interpretation of the condition Focusing on the Ghetto Fighters House the world's first Holocaust museum Yad Vashem Israel's national Holocaust memorial in Jerusalem the US Holocaust Memorial Museum in Washington and the Holocaust Memorial in Berlin the book discusses how the representation of history by architecture creates a dialectic process in which architecture mediates the past to the present while at the same time creating a present saturated with historical contexts It shows how together they are incorporated into one another and create a new reality past and present intertwined Art, Agency and Living Presence Caroline van Eck, 2015-03-10 Throughout history and all over the world viewers have treated works of art as if they are living beings speaking to them falling in love with them kissing or beating them Although over the past 20 years the catalogue of individual cases of such behavior towards art has increased immensely there are few attempts at formulating a theoretical account of them or writing the history of how such responses were considered defined or understood That is what this book sets out to do to reconstruct some crucial chapters in the history of thought about such reflections in Western Europe and to offer some building blocks towards a theoretical account of such responses drawing on the work of Aby Warburg and Alfred Gell **Presence and Prophecy**, 2002 How does theological education equip people to face the challenges of mission and ministry in a changing world How does Christian presence in society make a difference and how can the Churches speak prophetically of God's purposes today This book suggests how theological education can provide essential opportunities to find encouraging and helpful answers to these questions It explores the kind of world we live in and asks what kind of teaching and learning experiences help Christians to become people with hearts for mission It takes a fresh look at elements of the theological curriculum and suggests a new vision and hope for all the Churches It is also accompanied by a study guide **The Art of Authorial Presence** Gary Richard Thompson, 1993 The critical literary world has spent a wealth of thought and words on the question of Hawthorne himself Where does he stand in his works In history In literary tradition In this major new study G R Thompson recasts the Hawthorne question to show how authorial presence in the writer's works is as much a matter of art as the writing itself The Hawthorne who emerges from this masterful analysis is not as has been supposed identical to the provincial narrator of his early tales instead he is revealed to be the skillful manipulator of that narrative voice an author at an ironic distance from the tales he tells By focusing on the provincial tales as they were originally conceived as a narrative cycle Thompson is able to

recover intertextual references that reveal Hawthorne's preoccupation with framing strategies and variations on authorial presence. The author shows how Hawthorne deliberately constructs sentimental narratives only to deconstruct them. Thompson's analysis provides a new aesthetic context for understanding the whole shape of Hawthorne's career as well as the narrative ethical and historical issues within individual works. Revisionary in its view of one of America's greatest authors, *The Art of Authorial Presence* also offers invaluable insight into the problems of narratology and historiography, ethics and psychology, romanticism and idealism and the cultural myths of America. — *A Lover's Quarrel with the Past* Ranjan Ghosh, 2012

Although not a professional historian, the author raises several issues pertinent to the state of history today. Qualifying the non-historian as an able interventionist in historical studies, the author explores the relationship between history and theory within the current epistemological configurations and refigurations. He asks how history transcends the obsessive linguistic turn which has been hegemonizing literary discourse analysis and focuses greater attention on historical experience and where history stands in relation to our understanding of ethics, religion and the current state of global politics that underlines the manipulation and abuse of history. — **Derrida on Being as Presence** David A. White, 2017-04-24

Jacques Derrida's extensive early writings devoted considerable attention to being as presence, the reality underlying the history of metaphysics. In *Derrida on Being as Presence: Questions and Quests*, David A. White develops the intricate conceptual structure of this notion by close exegetical readings drawn from these writings. White discusses cardinal concepts in Derrida's revamping of theoretical considerations pertaining to language, signification, context, negation, iterability, as these considerations depend on the structure of being as presence and also as they ground deconstructive reading. White's appraisal raises questions invoking a range of problems. He deploys these questions in conjunction with thematically related quests that arise given Derrida's conviction that the history of metaphysics as variations on being as presence has concealed and skewed vital elements of reality. White inflects this critical apparatus concerning being as presence with texts drawn from that history, e.g. by Plato, Aristotle, Bacon, Hume, Kant, Whitehead. The essay concludes with a speculative ensemble of provisional categories or zones of specificity. Implementing these categories will ground the possibility that philosophy in general and metaphysics in particular can be pursued in ways which acknowledge the relevance of Derrida's thought when integrated with the philosophical enterprise as traditionally understood. — *SickKids Handbook of Pediatric Thrombosis and Hemostasis* V.S.
