Presenting Performances Thomas Wolf, 1981 **The Oxford Handbook of Music Performance, Volume 1** Gary McPherson, 2021-12-24 The two volume Oxford Handbook of Music Performance provides a resource that musicians scholars and educators will use as the most important and authoritative overview of work within the areas of music psychology and performance science The 80 experts from 13 countries who prepared the 53 chapters in this handbook are leaders in the fields of music psychology performance science musicology psychology education and music education Chapters in the Handbook provide a broad coverage of the area with considerable expansion of the topics that are normally covered in a resource of this type Designed around eight distinct sections Development and Learning Proficiencies Performance Practices Psychology Enhancements Health Wellbeing Science and Innovations the range and scope of The Oxford Handbook of Music Performance is much wider than other publications through the inclusion of chapters from related disciplines such as performance science e g optimizing performance mental techniques talent development in non music areas and education e g human development motivation learning and teaching styles as well as the attention given to emerging critical issues in the field e g wellbeing technology gender diversity inclusion identity resilience and buoyancy diseases and physical and mental disabilities Within each chapter authors have selected what they consider to be the most important scientific and artistic material relevant to their topic They begin their chapters by surveying theoretical views on each topic and then in the final part of the chapter highlight practical implications of the literature that performers will be able to apply within their daily musical lives [The Perilous Life of Symphony Orchestras](#) Robert J. Flanagan, 2012-01-24 This book analyzes the economic challenges facing symphony orchestras and contrasts the experience of orchestras in the United States where there is little direct government support and abroad where governments typically provide large direct subsidies Robert J Flanagan explains the tension between artistic excellence and financial jeopardy that confronts most symphony orchestras He analyzes three complementary strategies for addressing orchestras economic challenges raising performance revenues slowing the growth of performance expenses and increasing nonperformance income and demonstrates that none of the three strategies alone is likely to provide economic security for orchestras **Street Performance and Alternative Organisation** Marta Połec, 2025-08-15 The book presents a description of the phenomenon of organising street performances both informal and within formalised structures as well as its interpretation from the point of view of humanistic management The book is a result of ethnographic fieldwork conducted in Polish and European cities from 2014 to 2024 The central focus is the aspects of organisational aesthetics of the activities of street performers and street festival organisers The dynamics of street performances are structured and emerge as a type of alternative organisation The book aims at throwing light on these processes from the point of view of humanistic management which is a relatively new topic in organisational studies and overlooked in other academic fields The book also identifies and outlines some research implications for the combined area of

humanistic management and arts management It offers a model of the management of street performance embedded in a theoretical context of 1 humanistic management 2 arts management and 3 organisation informed by values such as community and social entrepreneurship Ultimately the organisation of art in the urban sphere can gain from lessons from the alternative organisational practices depicted in this book which in turn can inform broader humanistically oriented managerial visions

The city trip guide for Besançon (France) YouGuide Ltd, A Stage of Emancipation Marguerite Corporaal, Ruud van den Beuken, 2021-04-15 An Open Access edition of this book is available on the Liverpool University Press website and the OAPEN library As the prominence of the recent WakingTheFeminists movement illustrates the Irish theatre world is highly conscious of the ways in which theatre can foster social emancipation This volume of essays uncovers a wide range of marginalised histories by reflecting on the emancipatory role that the Dublin Gate Theatre est 1928 has played in Irish culture and society both historically and in more recent times The Gate's founders Hilton Edwards and Michael Mac Liammair

promoted the work of many female playwrights and created an explicitly cosmopolitan stage on which repressive ideas about gender sexuality class and language were questioned During Selina Cartmell s current tenure as director cultural diversity and social emancipation have also featured prominently on the Gate s agenda with various productions exploring issues of ethnicity in contemporary Ireland The Gate thus offers a unique model for studying the ways in which cosmopolitan theatres as cultural institutions give expression to and engage with the complexities of identity and diversity in changing globalised societies

Transcultural Jazz Noam Lemish,2023-12-22 Transcultural Jazz Israeli Musicians and Multi Local Music Making studies jazz performance and

composition through the examination of the transcultural practices of Israeli jazz musicians and their impact globally. An impressive number of Israeli jazz performers have received widespread exposure and worldwide acclaim, creating music that melds aspects of American jazz with an array of Israeli Jewish and Middle Eastern influences and other non-Western musical traditions. While each musician is developing their own approach to musical transculturation, common threads connect them all. Unraveling and analyzing these entangled sounds and related discourses lies at the center of this study. This book provides broad insight into the nature, role, and politics of transcultural music making in contemporary jazz practice. Focusing on a particular group of Israeli musicians to enhance knowledge of modern Israeli society, culture, discourses, and practices, the research and analyses presented in this book are based on extensive fieldwork in multiple sites in the United States and Israel and interviews with musicians, educators, journalists, producers, and scholars. *Transcultural Jazz* is an engaging read for students and scholars from diverse fields such as jazz studies, ethnomusicology, Jewish studies, Israel studies, and transnational studies.

The Routledge Companion to Performance Practitioners Franc Chamberlain, Bernadette Sweeney, 2020-08-16. The Routledge Companion to Performance Practitioners collects the outstanding biographical and production overviews of key theatre practitioners first featured in the popular Routledge Performance Practitioners series of guidebooks. Each of the chapters is written by an expert on a particular figure from Stanislavsky and Brecht to Laban and Decroux and places their work in its social and historical context. Summaries and analyses of their key productions indicate how each practitioner's theoretical approaches to performance and the performer were manifested in practice. All 22 practitioners from the original series are represented with this volume, covering those born after 1915. This is the definitive first step for students, scholars, and practitioners hoping to acquaint themselves with the leading names in performance or deepen their knowledge of these seminal figures.
