 Spalding Gray,2005 Brings together an original short story and a poignant love letter to New York City with selections from the monologue about a devastating accident that occurred while vacationing in Ireland and its painful aftermath that he left unfinished at the time of his tragic 2004 suicide 30 000 first printing *The Inside Story of Movement Theatre*
International's Mime and Clown Festivals Michael Pedretti,2022-12-23 This book tells the story of ground breaking movement theater performers of the late twentieth century It explores how the virtuoso stage clowns and mimes drew on all the performing arts to create and star in shows in order to reveal our deepest thoughts and feelings They ignored taboos and busted boundaries to redefine the relationship between performer and audience making a theater of kindness a theater of joy Complete with over two hundred photos the book tells how these performers came together at the International Movement Theatre Festivals and reached American audiences with their work It also details the author s story his devotion to and love of the art and the artists and his sometimes harrowing journey into non profit management It offers a peek behind the curtain to describe the process of engaging artists audiences funders and the international press in this mission [The New York Times Book Review](#) ,1986-07 Presents extended reviews of noteworthy books short reviews essays and articles on topics and trends in publishing literature culture and the arts Includes lists of best sellers hardcover and paperback *Tracer Patient* Tara Fields, LSCSW,2023-03-26 Through Tara s story and other service members and their families stories we can learn that everyone must balance the demands of the system with the art of caring for oneself Hyper focused on the failed systems Tara would soon learn that she was disregarding the fact that her own system was overwhelmed and overstimulated

She nearly became a casualty herself She would transition from the role of the mental health provider to the patient in a way she never saw coming As a trained psychotherapist and seasoned Army Officer she was motivated more than ever to expose the harsh realities plaguing our military today with respect to failed policies toxic command climates and a grossly negligent and a failing military mental health system She was motivated to bring about necessary and everlasting change to our Armed Forces even if it meant losing her career She takes a very clinical approach through self disclosure and through the stories and disclosures of other service members and their family members to capture the scope and magnitude of the problem She elevates solutions to the senior brass and policy makers within Tracer Patient Her determination is second to none and her motivations are only well intentioned She speaks hard truths to power and refuses to quit until suicide rates decrease and until we fix an epically broken mental health system She addresses the problem and provides impactful solutions as well as exposes those that have attempted at every turn to sweep the problem under the rug and pretend that it doesn't exist The book serves as the mirror to improve insights among the most senior leaders in the institution so that we can then begin our clean up efforts as an organization Tracer Patient aims to bring insight then spark action and to motivate the reader so that everyone regardless of what system you may find yourself to stand up to these things that are happening and to do your part to bring about systemic changes affecting us all Enjoy Tracer Patient
