Economic Actors, Economic Behaviors, and Presidential Leadership C. Damien Arthur, 2014-07-22 There is considerable disagreement about whether the U S president has a direct and measurable influence over the economy The analysis presented in Economic Actors Economic Behaviors and Presidential Leadership The Constrained Effects of Rhetoric suggests that while presidents have increased their rhetoric regarding the economy they have not had much success in shaping it Considering this research Arthur argues that the president's decision to address the economy so often must stem from a symbolic placation or institutional necessity that is intended to comfort constituencies or somehow garner electoral advocacy from the party's base No other viable explanation exists given the lack of results presidents obtain from discussing the economy and their persistent determination to do so This discrepancy suggests that presidential rhetoric on the economy is at best a tool used to appear concerned to everyone and toe the party line to their base Arthur presents an overview of economic rhetoric from the presidential office that will be of interest to scholars of the economy and political communication

office as the Anti Federalists claimed Or was the power externally created and added to the position by corrupt or misguided men There s never been a better guide to everything awful about American presidents No you won t get the civics text approach of see no evil Essay after essay details depredations that will shock you and wonder how American liberty could have ever survived in light of the rule of these people Contributors include George Bittlingmayer John V Denson Marshall L DeRosa Thomas J DiLorenzo Lowell Gallaway Richard M Gamble David Gordon Paul Gottfried Randall G Holcombe Hans Hermann Hoppe Jeffrey Rogers Hummel Michael Levin Yuri N Maltsev William Marina Ralph Raico Joseph Salerno Barry Simpson Joseph Stromberg H Arthur Scott Trask Richard Vedder and Clyde Wilson *Long-range Public Investment* Robert D.
