Presidents And Politics The Limits Of Power:

Presidents and Politics Charles Funderburk,1982 *The Politics of Presidential Term Limits* Alexander Batur,Robert Elgie,2019-06-20 Presidential term limits restrict the maximum length of time that presidents can serve in office They stipulate the length of term the presidents can serve between elections and the number of terms that presidents are permitted to serve While comparative scholarship has long studied important institutions such presidentialism vs parliamentarism and the effects of different electoral systems we lack a comprehensive understanding of the role and effects of presidential term limits Yet presidential term limits and term lengths are one of the most fundamental institutions of democracy By ensuring compulsory rotation in office they are at the heart of a democratic dilemma What is the appropriate trade off between allowing the unrestricted selection of candidates at presidential elections vs restricting selection procedures to prevent the possibility of dictatorial takeover by presidents who are unwilling to step down In the context of a long and on going history of changes to presidential term limits and the many and varied ways in which term limits have been both applied and avoided this book explains the factors behind the introduction stability abolition and avoidance of presidential term limits as well as the consequences of changes to presidential term limits and it does so in the context of non democracies third wave countries and consolidated democracies It includes comparative theoretical and practitioner oriented chapters as well as detailed country case studies of presidential term limits across the world and over time Newsletter United States. Department of State,1976 **Newsletter** ,1976 **News Letter** United States. Dept. of State,1976

Department of State News Letter United States. Department of State,1976 **Administrative Law in the Political Sys** Kenneth F Warren,2018-04-17 Emphasizing that administrative law must be understood within the context of the political system this core text combines a descriptive systems approach with a social science focus Author Kenneth F Warren explains the role of administrative law in shaping guiding and restricting the actions of administrative agencies Providing comprehensive coverage he examines the field not only from state and federal angles but also from the varying perspectives of legislators administrators and the public Substantially revised the fifth edition features approximately one hundred new and current cases that place administrative law in the context of the Obama administration Each chapter concludes with an edited exemplary case that highlights major themes and helps students understand important points made in the chapter Using straightforward prose and avoiding unnecessary legal jargon Administrative Law in the Political System fifth edition provides students with an informed and accessible overview of a difficult subject matter The Power of the Presidency Robert S. Hirschfield,2017-07-05 The American presidency is the most powerful political office in the world But this impressive statement serves only to raise a whole series of fundamental questions What is the scope of presidential powers and what are its limits Can the president use all the authority of his office or is that authority more formal than effective Does the presidency have sufficient power to meet today s needs or do the problems of the modern age demand a more powerful

executive Is there a danger of dictatorship in the growth of political authority or will the presidency remain an office of constitutional democratic leadership This book explores such questions by presenting a wide range of views on presidential power from a variety of sources original supporters and opponents of the office presidents themselves Supreme Court decisions and professional students of the presidency **Supreme Court Jurisprudence in Times of National Crisis, Terrorism, and War** Arthur H. Garrison, 2011-04-16

From the foundation of the American Republic presidents have had to deal with both internal and external national security threats From President Washington and his policy of neutrality during the wars between Great Britain and France in the eighteenth century to President Lincoln and the war to save the union to President Wilson during the war to end all wars to President Roosevelt and war of the Greatest Generation to President Truman and his steel during the forgotten war and most recently to President Bush and the War on Terror presidents have had to use their power as commander in chief to meet the challenges of national crisis and war The judiciary specifically the Supreme Court has also played an integral part in the historical development and defining of the commander in chief power in times of war and national crisis from the earliest days of the republic How these powers have grown is a consequence of how the presidents have viewed the office of the presidency and how the judiciary has interpreted the commander in chief and executive power clauses of the U S Constitution over time **Supreme Court Jurisprudence in Times of National Crisis Terrorism and War** provides a chronological review of the major national security and war events in American history Garrison reviews the great debates between Hamilton and Madison and Chief Justice Roger Taney and Attorney General Edward Bates on presidential executive power and how subsequent presidents have adopted the Hamiltonian view of the presidency He also examines how Article III courts specifically the Supreme Court have defined expanded and established boundaries on the commander in chief power With this historical backdrop Garrison reveals how for over two centuries the judiciary has defended the rule of law and maintained the principle that under the U S Constitution neither the guns of war nor threats to safety have silenced the rule of law **American Government** Scott F. Abernathy, 2023-04-17

In **American Government** Fourth Edition author Scott F Abernathy tunes in to the voices of all Americans showing how our diverse ideas shape the way we behave the laws we live by and the challenges we face Each chapter features personal narratives that illustrate how the American political system is the product of strategies calculations and miscalculations of individuals **The Politics of War Powers** Sarah Burns, 2019-11-15 The Constitution of the United States divides war powers between the executive and legislative branches to guard against ill advised or unnecessary military action This division of powers compels both branches to hold each other accountable and work in tandem And yet since the Cold War congressional ambition has waned on this front Even when Congress does provide initial authorization for larger operations they do not provide strict parameters or clear end dates As a result one president after another has initiated and carried out poorly developed and poorly executed military policy **The Politics of War Powers** offers a measured deeply informed look at how the

American constitutional system broke down how it impacts decision making today and how we might find our way out of this unhealthy power division Sarah Burns starts with a nuanced account of the theoretical and historical development of war powers in the United States Where discussions of presidential power often lean on the concept of the Lockean Prerogative Burns locates a more constructive source in Montesquieu Unlike Locke Montesquieu combines universal normative prescriptions with an emphasis on tailoring the structure to the unique needs of a society In doing so the separation of powers can be customized while maintaining the moderation needed to create a healthy institutional balance He demonstrates the importance of forcing the branches into dialogue putting them as he says in a position to resist each other Burns s conclusion after tracing changes through Franklin Delano Roosevelt s administration the Cold War and the War on Terror is that presidents now command a dangerous degree of unilateral power Burns s work ranges across Montesquieu s theory the debate over the creation of the Constitution historical precedent and the current crisis Through her analysis both a fuller picture of the alterations to the constitutional system and ideas on how to address the resulting imbalance of power emerge

The American Presidency James W. Davis, 1995-08-18 This is a thoroughly revised in depth analysis of the American presidency by a major scholar in the field The main goal of the text is to explain how the president s ability to implement policy is circumscribed by several major factors the Madisonian separation of powers the decentralized power structure in Congress the number of cross party coalitions needed to pass legislation a slow moving federal bureaucracy and the powerful influence of special interest groups opposed to many presidential initiatives Included in this second edition is coverage of the first two years of the Clinton presidency and a special chapter on the emergence of the presidential branch the White House staff and its displacement of the cabinet and the executive departments as the foremost decision making agents in the federal government a unique chapter not found in other texts Since highly unstable relations between the president and congress have become the hallmark of our national government especially in this era of divided government a new chapter on the president and congress has been added to the text The growing role of the vice president an original chapter in the first edition has been expanded and updated to include the Gore vice presidency The chapter on proposed reforms of the presidency received wide approval in the first edition In the second edition special attention is devoted to the proposal to abolish the Electoral College and replace it with direct election of the president This edition focuses heavily on the activist presidential leadership of the modern presidency but notes its perishable nature High presidential approval ratings as George Bush demonstrated cannot be stockpiled or deposited in the bank to be drawn upon later Along the way the author makes several major points 1 the excessive demands that the American public imposes on its presidents threaten to turn the nation s highest office into a series of one term presidents 2 the decline of political parties as vehicles for mobilizing presidential support has forced the nation s chief executive to go over the heads of congress and directly to the public to solicit support for his policies and 3 the emerging dangers of electronic democracy and national referenda and the

potential rise of a plebiscitary president all pose more imminent threats to our shared powers system than most presidential watchers have been willing to concede *Debating the Presidency* Richard J. Ellis, Michael Nelson, 2019-12-20 The study of the presidency the power of the office the evolution of the executive as an institution the men who have served has generated a great body of research and scholarship What better way to get students to grapple with the ideas of the literature than through conflicting perspectives on some of the most pivotal issues facing the modern presidency Richard Ellis and Michael Nelson have once again assembled a cadre of top scholars to offer a series of pro con essays that will inspire spirited debate beyond the pages of the book Each essay written in the form of a debate resolution offers a compelling yet concise view on the American executive **The Politics of the Presidency** Joseph A. Pika, John Anthony Maltese, Andrew Rudalevige, 2019-12-20 The most up to date coverage and analysis of the presidency Never losing sight of the foundations of the political office *The Politics of the Presidency* maintains a balance between historical context and contemporary scholarship on the executive branch providing a solid foundation for any presidency course In the highly anticipated Tenth Edition of this bestseller Pika Maltese and Rudalevige thoroughly analyze the change and continuity in the presidency during President Trump's first term his relations with Congress and the judiciary the outcomes of the 2018 midterm election and the competitive setting for the 2020 presidential race *The American Legal System* Albert P. Melone, Allan Karnes, 2008 Firmly anchored in social science concepts the second edition of *The American Legal System* demonstrates the relationships among private law the business legal environment and public law issues as well as related subjects of interest This fifteen chapter book is divided into three parts Part I places the legal system in a political perspective centering on the origins of the law schools of jurisprudence branches and functions of law legitimacy of law how the judiciary functions in the federal system of government and judicial interpretation and decision making Part II contrasts legal processes civil suits for money damages criminal processes equity justice administrative processes and alternative dispute resolution Part III centers on the legal norms or rules governing both civil and criminal conduct property law family law contract law and government regulation of business Throughout the text features edited court opinions many new to this edition illustrating lively and thought provoking controversies that are certain to spark student interest Among the many compelling issues addressed are the legal and constitutional controversies surrounding the Bush Administration's War on Terror and the socially explosive developments concerning same sex marriage In addition each chapter includes at least three comparative notes showing how other legal cultures in different nation states treat legal matters A wealth of pedagogical features chapter opening objectives key terms names and concepts a glossary discussion questions and appendices are included to aid student comprehension The authors have prepared an Instructor's Manual and Test Bank to facilitate the book's use in the classroom

Encyclopedia of Legal Information Sources Paul Wasserman, Gary McCann, Patricia Tobin, 1988 *The President and American Capitalism since 1945* Mark H. Rose, Roger Biles, 2017-11-14 The book examines the development of the U S

presidency since 1945 and describes the many ways some of which are unknown or greatly underappreciated in which the president's actions affect the daily lives of the American people *Keeping the Republic* Christine Barbour, Gerald C. Wright, 2020-12-10 *Keeping the Republic* gives students the power to examine the narrative of what's going on in American politics distinguish fact from fiction and balance from bias and influence the message through informed citizenship *Keeping the Republic Brief Edition* draws students into the study of American politics showing them how to think critically about who gets what and how while exploring the twin themes of power and citizenship The thoroughly updated Ninth Edition analyzes not only the 2020 election results and Supreme Court rulings but also examines the activism of the Black Lives Matter movement political outsiders in campaigns and party nominations the federal government's response to the COVID 19 pandemic and the presidency of Donald Trump With students living through one of the most challenging periods in American life *Keeping the Republic Brief Edition* is there to be a much needed resource to help them make sense of politics in America today and become savvy consumers of political information Carefully condensed from the full 10th edition by authors Christine Barbour and Gerald C Wright *Keeping the Republic Brief Edition* gives your students the same continuity and crucial content in a more concise value oriented package This title is accompanied by a complete teaching and learning package Digital Option Courseware SAGE Vantage is an intuitive digital platform that delivers this text's content and course materials in a learning experience that offers auto graded assignments and interactive multimedia tools all carefully designed to ignite student engagement and drive critical thinking Built with you and your students in mind it offers simple course set up and enables students to better prepare for class Assignable Video with Assessment Assignable video available with SAGE Vantage is tied to learning objectives and curated exclusively for this text to bring concepts to life LMS Cartridge Import this title's instructor resources into your school's learning management system LMS and save time Don't use an LMS You can still access all of the same online resources for this title via the password protected Instructor Resource Site CQ Press Lecture Spark Designed to save you time and ignite student engagement these free weekly lecture launchers focus on current event topics tied to key concepts in American Government li **Keeping the Republic: Power and Citizenship in American Politics, 6th Edition The Essentials** Christine Barbour, Gerald C. Wright, 2013-01-15 Every section and every feature in the book has one goal in mind to get students to think critically and be skeptical of received wisdom Serving as a true aid to teachers each chapter is designed to build students analytical abilities By introducing them to the seminal work in the field and showing them how to employ the themes of power and citizenship this proven text builds confidence in students who want to take an active part in their communities and government to play their part in keeping the republic and to consider the consequences of that engagement Executive Orders United States. Congress. House. Committee on Rules. Subcommittee on Legislative and Budget Process, 2000
