Bloom,2003 London 1921 The world s greatest wax sculptor watches in horror as flames consume his museum and melt his uncannily lifelike creations Twelve years later he opens a wax museum in New York Crippled disfigured and driven mad by the fire he resorts to body snatching and murder to populate his displays preserving the bodies in wax In a thousand years you will be as lovely as you are now he assures one victim In The Mystery of the Wax Museum 1933 director Michael Curtiz perfectly captures the macabre essence of realistic wax figures that have excited the darker aspects of the public s imagination ever since Madame Tussaud established her famous museum in London in 1802 Artists too have been fascinated by wax sculptures seeing in them and in the unique properties of wax itself an eerie metaphoric power with which to address sexual anxiety fears of mortality and other morbid subjects In Waxworks Michelle E Bloom explores the motif of the wax figure in European and American literature and art In particular she connects the myth of Pygmalion to the obsession with wax statues of women in the nineteenth century fetishization of prostitutes and female corpses and as depicted in such wax fictions as Dickens s The Old Curiosity Shop 1841 Filmmakers too have sought inspiration from wax museums and Bloom analyzes works from the silent era to such waxwork themed Hollywood horror films as Mad Love 1935 and House of Wax 1953 Bringing her discussion to the present Bloom examines the work of contemporary artists who use the medium of wax in ways never imagined by Madame Tussaud As extravagant new wax museums open in Las Vegas Times Square and Paris Waxworksoffers a provocative cultural history of this enduring and disturbing art form      *Interfaces with English Aspect* Debra Ziegeler,2006-01-01 The field of verbal aspect has been a focus for the derivation of a multiplicity of theoretical approaches ranging over decades of linguistic research From the point of view of recent studies though there has been

relatively little emphasis on the nature of the interaction of aspect with other categories and the ways in which our knowledge of aspect acts as a primary semantic contributor to the creation of other basic verbal parameters such as tense and modality This book aims to cross some of the categorial borders using a collection of studies on the interfaces of English aspect with other grammatical domains The studies in the book have been assembled in order to answer two central issues surrounding the nature of English aspect the possibility of the historical co existence of a perfective and imperfective grammatical distinction in English and the derivation of modality as an inference arising out of specific conflicts and combinations of lexical and grammatical aspect In answering these questions a data driven rather than a theory driven approach is favoured and the general principles of Gricean pragmatics and grammaticalisation are applied to a wide range of empirical sources to propose alternative explanations to some long established problems of English historical linguistics and semantics
