Murder, Courts, and the Press Peter E. Kane, 1992 When murder is the crime the clash in the courts is likely to be between two constitutionally enshrined rights freedom of speech and the right to a fair trial Peter E Kane shows what happened in seven famous court cases when First Amendment rights concerning freedom of speech conflicted with Sixth Amendment rights concerning fair trial He reports the circumstances of each crime the court proceedings and the conduct of the press in the trials of Sam Sheppard Charles Manson and his followers John Paul Stevenson Claus von B low and Arthur Shawcross and the cases involving the Kellie family and the Wayne Clapp murders Kane s narrative and analytical approach illuminates legal principles and shows the roles of actual human beings underlying the abstractions of court opinions In this revised and expanded edition Kane considers two new topics stemming from recent court cases cameras in the courtroom and a code of ethics for crime reporting Kane explores the issue of cameras through the famous Claus von B low retrial which featured live television broadcasts regarding a journalistic code Kane examines the massive pretrial reporting of the serial murders of Arthur Shawcross Kane notes that sensational crime stories serve the interests of many people the public wants to read them journalists want to write them because they can make a reporter s fortune and reputation and editors and publishers want to sell papers The sensational crime story serves everyone s purpose except that of the accused In addition to exploring journalistic ethics and the proper procedures for trial judges in guaranteeing a fair trial these cases also provide an introduction to the operation of the courts in criminal justice The trial court is the arena in which the conflicts between a free press and a fair trial are played out Kane writes This play is described here as are the subsequent evaluations of that play by the appellate courts Thus the legal process is considered from its beginning with the original crime to the final resolution of the case in the United States Supreme Court

The Culture of Crime Boaz Ganor, 2018-01-18 There is no journalistic work more deserving of the designation story than news of crime From antiquity the culture of crime has been about the human condition and whether information comes from Homer Hollywood or the city desk it is a bottom about the human capacity for cruelty and suffering about desperation and fear about sex race and public morals Facts are important to the telling of a crime story but ultimately less so than the often apocryphal narratives we

derive from them The Culture of Crime is hence about the most common and least studied staple of news Its prominence dates at least to the 1830s when the urban penny press employed violence sex and scandal to build dizzying high levels of circulation and begin the modern age of mass media In its coverage of crime in particular the popular press represented a new kind of journalism if not a new definition of news that made available for public consumption whole areas of social and private life that the mercantile elite and political press earlier ignored This legacy has continued unabated for 150 years The book explores new wrinkles in the study of crime and as a mass cultural activity from exploring the private lives of public officials to dangers posed by constraints to a free press The volume is prepared with the rigor of a scholarly brief but also the excitement of actual crime stories as such Throughout the reader is reminded that crime stories are both news and drama and to ignore either is to diminish the other The work delves deeply into current problems without either sentimental or trivial pursuits It will be a volume of great interest to people in communications research the social sciences criminologists and not least the broad public which must endure the punishment of crime and the thrill of the crime story alike
