Krakoff, 1976-08-06      **The Mechanization, Automation, and Increased Effectiveness of the Clinical Laboratory** National Institute of General Medical Sciences (U.S.). Automation in the Medical Laboratory Sciences Review Committee, 1971      The Mechanization, Automation and Increased Effectiveness of the Clinical Laboratory National Institute of General Medical Sciences (U.S.), 1971      **Current Catalog** National Library of Medicine (U.S.), 1969 Includes subject section name section and 1968 1970 technical reports      **National Library of Medicine Current Catalog** National Library of Medicine (U.S.), 1965      Published Scientific Papers of the National Institutes of Health National Institutes of Health (U.S.), 1970 Each issue lists papers published during the preceding year      **Epidemiology of Chronic Disease: Global Perspectives** Randall E. Harris, 2019-04-11 Epidemiology of Chronic Disease Global Perspectives is the most current and authoritative resource on the epidemiology etiology pathogenesis risk factors and preventive factors of over 50 major chronic diseases and conditions This comprehensive text provides readers with an excellent basis for examining current hypotheses regarding chronic disease epidemiology      **Current Catalog** , 1965 First multi year cumulation covers six years 1965 70      **Data Quality in Longitudinal Research** David Magnusson, Lars R. Bergman, 1990 This overview of the central issues of data quality in longitudinal research focuses on data relevant for studying individual development The topics covered include reliability validity sampling aggregation and the correspondence between theory and method More specific practical issues in longitudinal research such as the drop out problem and issues of confidentiality are also addressed The volume is the result of an interdisciplinary endeavor by leading European scientists to discuss appropriate ways of handling various types of longitudinal data including psychiatric data alcohol data and criminal data      **The Framingham Study** , 1968      *Health Status, Medical Care Utilization, and Outcome* National Center for Health Services Research, 1980      *The Doctor Who Wasn't There* Jeremy A. Greene, 2022-10-26 This gripping history shows how the electronic devices we use to access care influence the kind of care we receive The Doctor Who Wasn't There traces the long arc of enthusiasm for and skepticism of electronic media in health and medicine Over the past century a series of new technologies promised to democratize access to healthcare From the humble telephone to the connected smartphone from FM radio to wireless wearables from cable television to the electronic brains of networked mainframe computers each new platform has promised a radical reformation of the healthcare landscape With equal attention to the history of technology the history of medicine and the politics and economics of American healthcare physician and historian Jeremy A Greene explores the role that electronic media play for better and for worse in the past present and future of our health Today's telehealth devices are far more sophisticated than the hook and ringer telephones of the 1920s the radios that broadcasted health data in the 1940s the

closed circuit televisions that enabled telemedicine in the 1950s or the online systems that created electronic medical records in the 1960s But the ethical economic and logistical concerns they raise are prefigured in the past as are the gaps between what was promised and what was delivered Each of these platforms also produced subtle transformations in health and healthcare that we have learned to forget displaced by promises of ever newer forms of communication that took their place Illuminating the social and technical contexts in which electronic medicine has been conceived and put into practice Greene s history shows the urgent stakes then and now for those who would seek in new media the means to build a more equitable future for American healthcare      **Atherosclerosis III** G. Schettler,A. Weizel,2012-12-06      **Occupational**

**Health Practice** R. S. F. Schilling,2013-10-22 Occupational Health Practice is a comprehensive account of the practice of protecting and improving the health of people at work with some emphasis on the special needs of workers in developing countries Topics covered by this book include the functions of an occupational health service special examinations in occupational medicine uses and methods of epidemiology and ergonomics The mental health of people at work prevention of occupational disease and ethics in occupational health practice are also discussed This book is comprised of 22 chapters and begins by outlining national developments in occupational medicine along with the different forms of service provided by private enterprise and the state The factors that influence a nation or an industrial organization to pay attention to the health of people at work are also considered The discussion then turns to the importance of health to one s work the functions of an occupational health service and prevention of accidents and occupational disease Methods used in the study of groups of workers are described in sections on epidemiology field surveys and the collection and handling of sickness absence data The text also looks at ergonomics occupational hygiene and ethics and education in occupational health This monograph will be useful to physicians hygienists nurses and safety officers working in the field of occupational health to those whose interests encompass occupational health but cannot attend a course and to medical and non medical specialists in related fields
