Young, Christine N. Michael, Teresa Citro, 2018-01-08 From Floundering to Fluent Reaching and Teaching Struggling Readers was written for educational practitioners and specialists particularly classroom teachers and school administrators as well as family and community members who are firmly committed to the reading development and academic success of all students but particularly those who struggle with the act of reading This book primarily focuses on gaining a deeper understanding of the kinds of difficulties that can attend the reading process especially for at risk readers and those with reading disabilities **Implementing Evidence-Based Academic Interventions in School Settings** Sylvia Rosenfield, Virginia Wise Berninger, 2009-02-26 Designed for both researchers and practitioners this book is a guide to bridging the gap between the knowledge generated by scientific research and application of that knowledge to educational

practice With the emphasis on evidence based practice in the schools growing exponentially school practitioners must learn how to understand judge and make use of the research being produced to full effect Conversely researchers must understand what is being used in real world settings and what is still needed The editors of this book have outlined this process as a series of steps beginning with being a critical consumer of current research literature followed by concepts to consider in translating research into practice systems issues at local district and state levels the role of teachers in program implementation evaluation of implementation effectiveness and preservice and inservice professional development of teachers and psychologists Each chapter is written by leaders on the topic and contributors include both researchers and school based practitioners With contributing authors from a variety of disciplines this book is an invaluable treatise on current understanding of the complexities of translating research into educational practice *Handbook of Reading Disability Research* Anne McGill-Franzen, Richard L. Allington, 2010-09-17 Bringing together a wide range of research on reading disabilities this comprehensive Handbook extends current discussion and thinking beyond a narrowly defined psychometric perspective Emphasizing that learning to read proficiently is a long term developmental process involving many interventions of various kinds all keyed to individual developmental needs it addresses traditional questions What is the nature or causes of reading disabilities How are reading disabilities assessed How should reading disabilities be remediated To what extent is remediation possible but from multiple or alternative perspectives Taking incursions into the broader research literature represented by linguistic and anthropological paradigms as well as psychological and educational research the volume is on the front line in exploring the relation of reading disability to learning and language to poverty and prejudice and to instruction and schooling The editors and authors are distinguished scholars with extensive research experience and publication records and numerous honors and awards from professional organizations representing the range of disciplines in the field of reading disabilities Throughout their contributions are contextualized within the framework of educators struggling to develop concrete instructional practices that meet the learning needs of the lowest achieving readers

Handbook of Reading Research, Volume IV Michael L. Kamil, P. David Pearson, Elizabeth Birr Moje, Peter Afflerbach, 2011-03-17 The Handbook of Reading Research is the research Handbook for the field Each volume has come to define the field for the period of time it covers Volume IV follows in this tradition The editors extensively reviewed the reading research literature since the publication of Volume III in 2000 as portrayed in a wide array of research and practitioner based journals and books to identify the themes and topics covered As in previous volumes the focus is on reading research rather than a range of literate practices When taken as a set the four volumes provide a definitive history of reading research Volume IV brings the field authoritatively and comprehensively up to date *The Cognitive Foundations of Reading and Its Acquisition* Wesley A. Hoover, William E. Tunmer, 2020-06-09 This book serves as a succinct resource on the cognitive requirements of reading It provides a coherent overall view of reading and learning to read and does so in a

relatively sparse fashion that supports retention The initial sections of the book describe the cognitive structure of reading and the cognitive foundation upon which that structure is built This is followed by discussions of how an understanding of these cognitive requirements can be used in practice with standards assessments curriculum and instruction to advance the teaching of reading and the delivery of interventions for students who encounter difficulties along the way The book focuses on reading in English as its exemplar but shows how its framework can be adapted to understand the broad cognitive requirements for reading and learning to read in any phonologically based orthography It provides a way for reading professionals to think about reading and its development and gives them mechanisms that coupled with such understanding will help them link what children must know to become strong readers to what teaching can best provide through the competent use of available tools In this way the book will help reading professionals be both efficient and effective in what they provide all their students and be much better equipped to support those students who struggle to learn to read

Handbook of Emotional and Behavioural Difficulties Peter Clough, 2005 The book reveals itself to be both a scholarly and practical resource that will be indispensable to anyone seeking insight and direction for understanding and responding to EBD in the 21st century Professor Paul Cooper The University of Leicester **Evidence-Based Interventions for Students with Learning and Behavioral Challenges** Richard J. Morris, Nancy Mather, 2008-01-14 This book assembles into one volume summaries of school based intervention research that relates to those who deal on a regular basis with the growing body of students having high incidence learning disabilities and or behavior disorders special educators school psychologists and clinical child psychologists Chapter authors begin with an overview of their topic followed by a brief section on historical perspectives before moving on to the main section a critical discussion of empirically based intervention procedures In those instances where evidence based prescriptions can legitimately be made authors discuss best practices and the conditions e g classroom environment teacher expertise under which these practices are most effective A final section deals with policy issues
