*Stopping Child Maltreatment Before it Starts* Neil B. Guterman,2001 Early prevention of child maltreatment is most commonly delivered through home visitation services with the goal of promoting a positive start in parenting to avert potential child abuse and neglect *Stopping Child Maltreatment Before It Starts* introduces best practice principles for early home visiting examining the contexts from which these strategies arise Beginning with a discussion of the nature and etiology of physical child abuse and neglect Guterman then examines the mechanisms by which child protective and early home visitation services have traditionally operated The book explores best practice principles by providing a detailed inside tour of those practices that have been empirically linked with positive outcomes in serviced families Guterman also discusses in detail ways how home visitation may more adequately address the problem of family substance abuse in reducing child maltreatment risk and ways visitation can attend to social network and community influences and increase parent empowerment An essential text for child welfare courses *Stopping Child Maltreatment Before It Starts* will also appeal to practitioners and policy makers in the child abuse and neglect field

Child Sexual Exploitation: Why Theory Matters Jenny Pearce, 2019-12-02

The issue of Child Sexual Exploitation (CSE) is firmly in the public spotlight internationally and in the UK, but just how well is it understood? To date, many CSE-related services have been developed in reaction to high-profile cases rather than being designed more strategically. This much-needed book breaks new ground by considering how psychosocial, feminist and geo-environmental theories, amongst others, can improve practice, understanding and interventions. Edited by one of the leading scholars in the field, this is an essential text for students and those planning strategic interventions and practice activities in social youth and therapeutic work with young people, as it supports understanding of how CSE arises and how to challenge the nature of the abuse. *Helping to Prevent Child Abuse and Future Criminal Consequences* Ralph B. Earle, 1995

*The Child Welfare Challenge* Peter J. Pecora, James K. Whittaker, Richard P. Barth, Sharon Borja, William Vesneski, 2018-09-03

Using both historical and contemporary contexts, *The Child Welfare Challenge* examines major policy, practice and research issues as they jointly shape child welfare practice and its future. This text focuses on families and children whose primary recourse to services has been through publicly funded child welfare agencies and considers historical areas of service: foster care and adoptions, in-home, family-centered services, child protective services and residential treatment services, where social work has an important role. This fourth edition features new content on child maltreatment and prevention that is informed by key conceptual frameworks, informed by brain science, public health and other research. This edition uses cross-sector data and more sophisticated predictive and other analytical processes to enhance planning and practice design. The authors have streamlined content on child protective services (CPS) to allow for new chapters on juvenile justice, cross-over youth and international innovations, as well as more content on biology and brain science. The fourth edition includes a glossary of terms as well as instructor and student resource papers available online. *Defining and Classifying Children in Need* Nick Axford, 2017-03-02

Need is a popular but controversial concept in social policy. Needs-led has become a mantra in children's services in recent years, yet theorists still argue about the meaning and value of the concept of need. There are lots of needs assessments at the individual child and population levels, but case files vary enormously in quality and reports of need.

analyses frequently gather dust on shelves How then should we define and measure children s needs and how should this influence the design of services This edited collection answers these questions in order to help policy makers managers practitioners and researchers with identifying and serving children in need It offers a critical appraisal of the state of play regarding the theory of need the needs that children have methods for assessing children s needs at the individual and group levels and approaches to designing services to meet identified needs Handbook of Child Maltreatment Jill E.

Korbin,Richard D. Krugman,2013-11-26 This Handbook examines core questions still remaining in the field of child maltreatment It addresses major challenges in child maltreatment work starting with the question of what child abuse and neglect is exactly It then goes on to examine why maltreatment occurs and what its consequences are Next it turns to prevention treatment and intervention as well as legal perspectives The book studies the issue from the perspective of the broader international and cross cultural human experience Its aim is to review what is known but even more importantly to examine what remains to be known to make progress in helping abused children their families and their communities
