the previous theory of evolution speak out The theory fits the changes within the species but it can no longer be reconciled with the inner workings of the cell Some other influence that has so far escaped us is affecting evolution It is called Intelligent Design Intelligent planning is suspected behind this Anyone or anything a spirit of the universe Aliens could be behind this planning Erich von D niken uses countless examples to demonstrate the impossibility of the previous evolutionary idea He quotes scientists who argue against the previous teaching but also those who defend it Unfortunately established science still refuses to look at discrepancies and holes in the theory of evolution even though it is quite obvious that there is more going on with regard to the development of all species as well as human culture than could be explained by the theory of evolution alone
