Red Tram:

The Red Tram Christian Karlson Stead, 2004 From one of New Zealand's most celebrated writers comes this poetry collection that encompasses moving memories of childhood and ruminations on horses and cows Auckland and even the author's own legs These satirical poems take weapons from the writers of the past and skewer politicians of the present and reflect on a range of international writers including Allen Curnow Janet Frame and Denis Glover With sometimes biting and often humorous poems that reference both classical Latin poets and contemporary concerns this collection breathes with an incomparable sense of energy speed and force

The Rise of the Paris Red Belt Tyler Stovall, 2024-06-21 From 1920 until the present the working class suburbs of Paris known as the Red Belt have constituted the heart of French Communism providing the Party not only with its most solid electoral base but with much of its cultural identity as well Focusing on the northeastern suburb of Bobigny Tyler Stovall explores the nature of working class life and politicization as he skillfully documents how this unique region and political culture came into being The Rise of the Paris Red Belt reveals that the very process of urban development in metropolitan Paris and the suburbs provided the most important opportunities for the local establishment of Communist influence The rapid increase in Paris suburban population during the early twentieth century outstripped the development of the local urban infrastructure Consequently many of these suburbs often represented to their new residents as charming country villages soon degenerated into suburban slums Stovall argues that Communists forged a powerful political block by mobilizing the disillusionment and by improving some of the worst aspects of suburban life As a social history of twentieth century France The Rise of the Paris Red Belt calls into question traditional assumptions about the history of both French Communism and the French working class It suggests that those interested in working class politics should consider the significance of residential and consumer issues as well as those relating to the workplace It also suggests that urban history and urban development should not be considered autonomous phenomena but rather expressions of class relations The Rise of the Paris Red Belt brings to life a world whose citizens though often overlooked are nonetheless the history of modern France This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1990

The Miocene Arrow Sean McMullen, 2000-08-19 Sean McMullen is one of the hottest new writers working today He is a three time winner of the Ditmar Award in his native Australia and has also won that country's Aurealis Award His novel Souls in the Great Machine began the steampunk saga of Greatwinter and garnered him much critical acclaim The Miocene Arrow continues McMullen's story of a far future Earth flung back to its pre technological roots Ultra light American diesel gunwings can hold their own against Australian human powered battle computers and a tram based net But they are helpless against the

ultimate doomsday machine The Miocene Arrow In a fortieth century America of ancient kingdoms with opulent courts hereditary engineering guilds and rigid class distinction in warfare a centuries old balance of power is shattered by a few dozen Australian infiltrators Against a rich backdrop of war chivalry conspiracy and a diesel powered arms race a dangerous secret alliance has formed Now the unlikely trio of an air lord an abbess and a fugitive are joined together in a desperate race against time to stop the Miocene Arrow from being launched and save the world in the process At the Publisher s request this title is being sold without Digital Rights Management Software DRM applied **Carmageddon** Daniel Knowles, 2023-03-28 A high octane polemic against cars which are ruining the world while making us unhappy and unhealthy from a talented young writer at the Economist Briskly written well researched and with a knack for landing the significant statistic right after the crisply summarized argument The New Yorker The automobile was one of the most miraculous inventions of the 20th century It promised freedom style and utility But sometimes rather than improving our lives technology just makes everything worse Over the past century cars have filled the air with toxic pollutants and fueled climate change Cars have stolen public space and made our cities uglier dirtier less useful and more unequal Cars have caused tens of millions of deaths and injuries They have wasted our time and our money In Carmageddon journalist Daniel Knowles outlines the rise of the automobile and the costs we all bear as a result Weaving together history economics and reportage he traces the forces and decisions that normalized cars and cemented our reliance on them Knowles takes readers around the world to show the ways car use has impacted people s lives from Nairobi where few people own a car but the city is still cloaked in smog to Houston where the Katy Freeway has a mind boggling 26 lanes and there are 30 parking spaces for every resident enough land to fit Paris ten times With these negatives Knowles shows that there are better ways to live looking at Amsterdam Copenhagen Tokyo and New York City **The Last Tram** Nedim Gürsel, 2013-12-03 What I know about is absence the endless geography of yearning For Nedim Gürsel the state of exile isn t a static condition applying to a single person in a specific place but an entire landscape of longing through which he and countless other migr s must travel a mobile experience a moveable feast In these stories Gürsel crisscrosses modern Europe settling in some cities like Paris for many years visiting others several times decades apart But none of them quite constitutes home Nor is return to his native Turkey from which Gürsel was himself exiled for his political writings in the 70s ever really possible though through his stories dreams and memories he makes many attempts Art history architecture contemporary politics all these feed into the swirling palette of colours with which Gürsel paints the migrant experience Not to mention a host of unforgettable characters the lonely Mustafa who cares only for the fate of his beloved poplar tree back home on the Anatolian plain the tragic Madame Suslova recalling memories of a lover who squandered her money on the roulette tables of Istanbul or the Coci family making their desperate way through the Frjus Tunnel as re imagined by an eager documentary maker Indeed such is the poetry of Gürsel s writing it is little surprise that even in exile he is regarded as one of Turkey s greatest living writers **Journey**
