

BLIND SPOTS: THE CASE OF THOMSON

Shady Nasserddin

Thomson is the Arab historian that has possibly contributed most significantly to what may either be described as modernist literatures, modern history, and indigenous movements in the Middle East. He applied, Africa, beyond even one of the military strongholds of the British Empire surrounded by partly settled societies under a British protectorate which, in contrast with modernized Africa, were prisoners of archaic forms of social and political life. Surprisingly, it was South Thomson that was referred to as a historian that sought the ability to write papers by the Movement of Arab Nationalism (MAN), one of the three groups of pan-Arab nationalists, along with Hashim and Ibrahim. The MAN consisted of a strictly clandestine political organization — the National Front — to trigger and lead a broad popular armed struggle for liberation.

A five-year armed struggle further enhanced the radicalization of the MAN that had originated a diverse set of political actors inspired by different ideologies and their consequences — Nasser's Egypt, Khatib's Sudan, the UGDA, the world war II inspired movements, revolutionary China, and the Algerian war of liberation. In numerous ways, Thomson's role in the MAN made the support based, mainly because it had received the most a broad power base in the international, where it had inspired many left and right movements in its various allied groups. The ideological spectrum, a few level of religious, the radicalizing influence of collective violence, and the political skills of the leaders of the left wing of the MAN participated in more surprising critical turn of the newly independent state — in Sudan.

Professor Fred Halliday, author of *Africa without Borders*, has written that "no one is better qualified to address this issue than Shady Nasserddin, a Sudanese specialist long resident in South Sudan and personally acquainted with many of its key actors. His account of South Sudan's politics in the 1960s draws extensively on interviews and Arabic sources, and sets the analysis in its social and regional context."

Professor Shady Nasserddin is a prominent Sudanese scholar who served his institutions in Africa and in Cairo and has lived for many years in the Arab world. His long conversations with many of the characters described in this book have allowed him great insight into this most surprising period in Thomson's history, inseparable by nature.

Red Wolves Of Yemen:

Red Wolves of Yemen Vitaliĭ Viacheslavovich Naumkin, 2004 *Yemen and the World* Laurent Bonnefoy, 2018-10-05
Winner of the Académie Française's Prix Eugène Colas Contemporary Yemen has an image problem. It has long fascinated travelers and artists and to many embodies both Arab and Muslim authenticity; it stands at important geostrategic and commercial crossroads. Yet strangely, global perceptions of Yemen are of an entity that is somehow both marginal and passive yet also dangerous and problematic. The Saudi offensive launched in 2015 has made Yemen a victim of regional power struggles while the global war on terror has labelled it a threat to international security. This perception has had disastrous effects without generating real interest in the country or its people. On the contrary, Yemen's complex political dynamics have been largely ignored by international observers, resulting in problematic if not counterproductive international policies. *Yemen and the World* offers a corrective to these misconceptions and omissions, putting aside the nature of the world's interest in Yemen to focus on Yemen's role on the global stage. Laurent Bonnefoy uses six areas of modern international exchange: globalization, diplomacy, trade, migration, culture, and militant Islamism to restore Yemen to its place at the heart of contemporary affairs. To understand Yemen, he argues, is to understand the Middle East as a whole. **The Cold War**

Spencer C. Tucker, 2020-10-27 This sweeping reference work covers every aspect of the Cold War from its ignition in the ashes of World War II through the Berlin Wall and the Cuban Missile Crisis to the collapse of the Soviet Union in 1991. The Cold War superpower face-off between the Soviet Union and the United States dominated international affairs in the second half of the 20th century and still reverberates around the world today. This comprehensive and insightful multivolume set provides authoritative entries on all aspects of this world-changing event, including wars, new military technologies, diplomatic initiatives, espionage activities, important individuals and organizations, economic developments, societal and cultural events, and more. This expansive coverage provides readers with the necessary context to understand the many facets of this complex conflict. The work begins with a preface and introduction and then offers illuminating introductory essays on the origins and course of the Cold War, which are followed by some 1,500 entries on key individuals, wars, battles, weapons systems, diplomacy, politics, economics, and art and culture. Each entry has cross-references and a list of books for further reading. The text includes more than 100 key primary source documents, a detailed chronology, a glossary, and a selective bibliography. Numerous illustrations and maps are inset throughout to provide additional context to the material.

Hadhramaut and its Diaspora Noel Brehony, 2017-06-30 The Hadhramis of Yemen have migrated for centuries in large numbers, establishing a diaspora that extends around the Indian Ocean, Saudi Arabia, and the other Gulf States. This migration has deeply affected the host countries as well as Hadhramaut itself. Yet the region has not been able to use its population size, capabilities, or resources to wield significant political influence in successive Yemeni regimes. This book examines the people of the Hadhrami diaspora who travelled as religious scholars, traders, labourers, and soldiers to understand their enduring

influence and identity In doing so the book explores key aspects of their history including the impact of Yemeni nationalist movements the significance of land reforms the importance of social and tribal origins and how the Hadhrami resisted European domination as a Muslim community Although a distinctive part of geographical Yemen Hadhramaut was not regarded as a Yemeni political entity until the twentieth century This research asks if the recent turmoil in Yemen following the Arab Spring the growth of Al Qaeda and ISIS and war involving a coalition led by Saudi Arabia will produce even greater instability in the region or perhaps lead to a united Yemen a restored South Yemen or even to Hadhramaut as an independent state

South Yemen's Independence Struggle Anne-Linda Amira Augustin, 2021-11-30 A bold firsthand account of one of the persistent Arab uprisings in Yemen At its beginning in 2007 the Southern Movement in South Yemen was a loose merger of different people most of them former army personnel and state employees of the People's Democratic Republic of Yemen PDRY who were forced from their jobs after the war in 1994 only four years after the unification between the PDRY and the Yemen Arab Republic This bold ethnographic account of a persistent Arab uprising in a rarely studied corner of the Middle East explores why the Southern Movement has grown so tremendously during the last decade and how it developed from a primarily social movement demanding social rights into a mass protest movement claiming independence for a state that had long vanished from the world map Anne Linda Amira Augustin asks why so many young people born after 1990 joined the movement and demanded the re-establishment of a state that they had never themselves experienced At the core of South Yemeni resistance lies the transmission from generation to generation of a dominant counternarrative which may be seen as the continuation and rehabilitation of the PDRY's national narrative This narrative amplified through everyday communication in families and neighborhoods but also by media makers journalists school and university teachers civil society actors and by the movement's activists opposes the national unity narrative of the Republic of Yemen and intensifies the demands for an independent state

Willis, Rory McCarthy, Timothy Garton Ash, 2016-01-08 Civil resistance especially in the form of massive peaceful demonstrations was at the heart of the Arab Spring the chain of events in the Middle East and North Africa that erupted in December 2010 It won some notable victories popular movements helped to bring about the fall of authoritarian governments in Tunisia Egypt Libya and Yemen Yet these apparent triumphs of non violent action were followed by disasters wars in Syria anarchy in Libya and Yemen reversion to authoritarian rule in Egypt and counter revolution backed by external intervention in Bahrain Looming over these events was the enduring divide between the Sunni and Shi a branches of Islam Why did so much go wrong Was the problem the methods leadership and aims of the popular movements or the conditions of their societies In this book experts on these countries and on the techniques of civil resistance set the events in their historical social and political contexts They describe how governments and outside powers including the US and EU responded how Arab monarchies in Jordan and Morocco undertook to introduce reforms to avert revolution and why the Arab Spring failed to spark a Palestinian one They indicate how and why Tunisia remained precariously the country that experienced the most political change for the lowest cost in bloodshed This book provides a vivid illustrated account and rigorous scholarly analysis of the course and fate the strengths and the weaknesses of the Arab Spring The authors draw clear and challenging conclusions from these tumultuous events Above all they show how civil resistance aiming at regime change is not enough building the institutions and the trust necessary for reforms to be implemented and democracy to develop is a more difficult but equally crucial task The Middle East , 2004 **Keystone of 22 SAS** Alan Hoe, 2019-03-30 This British military biography tells the full story

of the Lieutenant Colonel who helped turn the 22nd SAS into the world's leading special forces unit. Despite its successes during World War II, the future of the British Army's Special Air Service was uncertain for years afterward. In the 1950s it was resurrected as the 22nd SAS Regiment to take part in the Malayan Emergency and over time evolved into one of the British military's most important units. This renaissance was brought about by a small group of highly motivated officers. Of these, Lieutenant Colonel John Woodhouse stood out for his energy, expertise, and courage. Written by an SAS insider, this biography demonstrates how Woodhouse played a pivotal role in transforming the 22nd SAS into an elite fighting force. Woodhouse led the regiment through campaigns in Oman, Borneo, Radfan, and South Arabia as it built its unrivaled reputation. After leaving the Army, Woodhouse became a sought-after counter-terrorist consultant, taking an advisory and active role in operations worldwide. While Colonel Sir David Stirling publicly acknowledged Woodhouse as a cofounder of the 22nd SAS, the full story of his role has not been widely recognized. As this fascinating book reveals, without his efforts, there would probably be no 22nd SAS today.

Without Glory in Arabia Peter Hinchcliffe, John T. Ducker, Maria Holt, 2006-08-25

So we left without glory but without disaster. Sir Humphrey Trevelyan, the last High Commissioner of the Federation of South Arabia. In 1967, 139 years after their arrival in Aden, the British withdrew from the southern tip of the Arabian Peninsula. Their departure was abrupt, messy, and controversial. Using important, previously unpublished material and original interviews with a range of individuals, both British and Yemeni, who lived through this defining period of colonial history, *Without Glory in Arabia* tells the story of the final few years of British rule in Aden and the neighbouring Eastern and Western Aden Protectorates. While some view British rule on the whole as beneficial to the local population, others insist that very little was achieved. Worse, Britain did not provide a structure of government constitution which met the conflicting needs of Aden and the Protectorate. This illuminating book brilliantly sets the scuttle as the episode came to be known in context with a thorough re-examination of the background against which the events of the 1960s unfolded in this obscure backwater of the British Empire.
