Rethinking California Matthew Cahn, David Shafie, H. Eric Schockman, 2016-12-05 This book explores the state of California viewing the state as a holistic political culture that reflects the influence of multiple cultures ethnic groups and communities of interest It starts with a broad historical foundation and travels through cultural analyses and institutional discussions The evaluation of specific policy issues affecting the state is an important stop along the way and the crossroads that bring together the variety of analytic paths This book is suited for individuals interested in California policy work and gaining a better understanding of that state's unique political culture

La Nueva California David E Hayes-Bautista, 2004-11 This is a comprehensive overview of the Latino experience in California over a hundred years

La Nueva California David E Hayes-Bautista, 2017-02-07 Since late 2001 more than fifty percent of the babies born in California have been Latino When these babies reach adulthood they will by sheer force of numbers influence the course of the Golden State This essential study based on decades of data paints a vivid and energetic portrait of Latino society in California by providing a wealth of details about work ethic family strengths

business establishments and the surprisingly robust health profile that yields an average life expectancy for Latinos five years longer than that of the general population. Spanning one hundred years, this complex, fascinating analysis suggests that the future of Latinos in California will be neither complete assimilation nor unyielding separatism. Instead, the development of a distinctive regional identity will be based on Latino definitions of what it means to be American. This updated edition now provides trend lines through the 2010 Census as well as information on the 1849 California Constitutional Convention and the ethnogenesis of how Latinos created the society of Latinos de Estados Unidos Latinos in the US. In addition, two new chapters focus on Latino Post Millennials: the first focusing on what it's like to grow up in a digital world and the second describing the contestation of Latinos at a national level and the dynamics that transnational relationships have on Latino Post Millennials in Mexico and Central America.

Redefining Families Adele Eskeles Gottfried, Allen W. Gottfried, 2013-06-29

Families are undergoing dramatic changes in our society. Our traditional views are being challenged by new family arrangements. These new family arrangements are forcing redefinitions of what constitutes a family and raising significant issues regarding the potential developmental consequences for children in these families if such exist. Moreover, the ramifications of redefined families and their bearing on children's development extend into the legal, political, and societal arenas. This book focuses on the relationships between diverse family arrangements and children's development as well as on legal and social implications. Our interest in this area emanates from our experience in directing the Fullerton Longitudinal Study. In the course of this investigation, we observed families undergoing transformation most commonly in maternal employment and marital status. Our initial research on the role of maternal employment in children's development provided the scientific foundation for our interest. Just as we feel that maternal employment and dual earner families should be comprehensively researched regarding their relationships to children's development, we also believe that other contemporary family arrangements should receive extensive attention in the developmental literature. Hence, the idea for this book emerged.

The Latino Big Bang in California David E. Hayes-Bautista, Cynthia L. Chamberlin, Gray Bryan Paul, 2025-04-29

The Latino Big Bang in California presents a Spanish transcription and English translation of a diary written by Forty Niner Justo Veytia, a Mexican immigrant seeking riches during California's Gold Rush. Veytia's diary offers insights into the dilemmas and choices of an adventurous and ambitious young Mexican and provides a detailed glimpse into the life of Latinos who participated in this tumultuous moment in California history. In doing so, Veytia's diary demonstrates that the US-Mexico War together with the Gold Rush constituted a Latino big bang in California that attracted large swaths of fortune seekers from across the Spanish-speaking world throughout the latter half of the nineteenth century. Combining archival research with quantitative methods to extrapolate demographic information about the persistent presence of Latino communities in California from the mid-nineteenth century to today, The Latino Big Bang in California shows how Latino migration and labor forever changed the course of California history.

The Catholic Social Imagination Joseph M.

Palacios,2008-11-15 The reach of the Catholic Church is arguably greater than that of any other religion extending across diverse political ethnic class and cultural boundaries But what is it about Catholicism that resonates so profoundly with followers who live under disparate conditions What is it for instance that binds parishioners in America with those in Mexico For Joseph M Palacios what unites Catholics is a sense of being Catholic a social imagination that motivates them to promote justice and build a better world In *The Catholic Social Imagination* Palacios gives readers a feeling for what it means to be Catholic and put one's faith into action Tracing the practices of a group of parishioners in Oakland California and another in Guadalajara Mexico Palacios reveals parallels and contrasts in the ways these ordinary Catholics receive and act on a church doctrine that emphasizes social justice Whether they are building a supermarket for the low income elderly or waging protests to promote school reform these parishioners provide important insights into the construction of the Catholic social imagination Throughout Palacios also offers important new cultural and sociological interpretations of Catholic doctrine on issues such as poverty civil and human rights political participation and the natural law

Rethinking Los Angeles Michael J. Dear,H. Eric Schockman,Greg Hise,1996-08-20 The Los Angeles region is increasingly being held up as a prototype for the collective urban future of the United States Yet it is probably the least understood most under studied major city in the US Very few people beyond the boundaries of Southern California have an accurate appreciation of what the region is who lives there and what it does This groundbreaking collection of essays brings together well respected contributors to dispel the myths about Southern California and to begin the process of rethinking Los Angeles

Engendering Psychology Florence Denmark,Vita Carulli Rabinowitz,Jeri A. Sechzer,2016-01-08 *Engendering Psychology's* treatment of issues is based solidly on scientific evidence and presented in a balanced manner The text combines a developmental and topical approach Denmark Rabinowitz and Sechzer explore the concept of gender as a social construction across the lines of race ethnicity class age and sexual orientation pulling from the exciting new scholarship that has emerged over the last few years Thoughtful discussion questions emphasize critical thinking skills as well as encourage students to open a dialogue with both their professors and

their peers This text will help readers understand the concept of gender as a social construct in contrast to the concept of sex which denotes biological differences Upon completing this text readers will have a deeper understanding of women and the knowledge that woman is a diverse and multifaceted category
