**Redesigning Teacher Education** Alan R. Tom, 1997-01-01 Explores the shortcomings of teacher education and proposes design principles for rethinking teacher preparation Establishes a reform agenda for teacher education faculties Alan Tom is among the best at relating important issues in teacher education and a critical reading of the literature with his own professional experience This book is ambitious It lives up to the claim of examining political and institutional problems along with conceptual and intellectual ones This is something few teacher educators attempt and is a critical area to open up for sustained analysis Drawing upon events from his career as a teacher educator Alan R Tom candidly analyzes the predominant criticisms of teacher education and rejects the common tendency to infer the teacher education curriculum from such ideas as metaphors for teaching or knowledge He proposes eleven design principles to serve as a reform agenda including creating programs capable of self renewal having faculty model the desired image and skills of teaching and rethinking the sequence of practice and theory Each principle identifies a differing dimension for the conceptual and structural redesign of teacher preparation Four specific change strategies are evaluated as well task force top down piloting and family style The low status of teacher educators and the excessive regulation of teacher education are also examined as is the failure to give adequate attention to the administrative organization for teacher education Redesigning Teaching

William A. Firestone, Beth D. Bader, 1992-01-01 Redesigning Teaching provides concrete case studies of school districts implementing teacher reforms The cases describe the changes give the history and dynamics of each project examine how teachers respond to new policies and procedures and tell how state policy affects local efforts to change teaching The book also suggests that while short term improvements can be accomplished through bureaucracy serious reform requires professionalization The authors identify challenges that state governments school administrators and teachers associations must face if they really want to professionalize teaching **Resources in Education**, 2001-10 **Developing**
