Rethinking Leadership in a Complex, Multicultural, and Global Environment Adrianna J. Kezar, 2023-07-03 The complexity of the decisions that today's higher education leaders face as they engage with a diversifying student body globalization and technological advances requires embracing new ways of thinking about leadership This book examines the new theories and concepts of leadership that are described in the multidisciplinary literature on leadership and are being applied in other sectors from government to the non profit and business communities to explore the implications for leaders and leadership programs in higher education At a time when the heroic controlling and distant leader of the past has given way to a focus on teams collectives and social change the contributors to this book ask What new skills and competencies should leaders and programs be addressing The recognition of the interdependence of groups within organizations and between organizations of cultural and social differences and of how technology has sped up decision time and connected people across the globe have changed the nature of leadership as well as made the process more complex and diffuse This book is addressed to anyone developing institutional regional or national leadership development programs to aspiring leaders planning to participate in such programs and to campus leaders concerned with the development and pipeline of emerging leaders It will be particularly useful for administrators in faculty development offices who are planning and creating workshops in leadership training and for staff in human resource offices who offer similar training Contributors Laurel Beesmyer Rozana Carducci Pamela Eddy Tricia Bertram Gallant Lynn Gangone Cheryl Getz Jeni Hart Jerlando F L Jackson Lara Jaime Adrianna Kezar Bridget R McCurtis Sharon McDade Robert J Nash Elizabeth M O Callahan Sue V Rosser Lara Scott

Urban Education Karen Symms Gallagher, Rodney Goodyear, Dominic Brewer, Robert Rueda, 2013-03-19 Many factors complicate the education of urban students Among them have been issues related to population density racial ethnic cultural and linguistic diversity poverty racism individual and institutional and funding levels Although urban educators have been addressing these issues for decades placing them under the umbrella of urban education and treating them as a specific area of practice and inquiry is relatively recent Despite the wide adoption of the term a consensus about its meaning exists at only the broadest of levels In short urban education remains an ill defined concept This comprehensive volume addresses this definitional challenge and provides a 3 part conceptual model in which

the achievement of equity for all regardless of race gender or ethnicity is an ideal that is central to urban education The model also posits that effective urban education requires attention to the three central issues that confronts all education systems a accountability of individuals and the institutions in which they work b leadership which occurs in multiple ways and at multiple levels and c learning which is the raison d tre of education Just as a three legged stool would fall if any one leg were weak or missing each of these areas is essential to effective urban education and affects the others **The**

Handbook of Student Affairs Administration George S. McClellan,Jeremy Stringer,2011-01-11 What issues and trends affect higher education and student affairs today In this fully updated handbook leading experts discuss the answer to this and other essential questions They provide a definitive reference for student affairs professionals at all levels of administration and management The handbook offers specific practical advice as well as broad approaches to planning and problem solving It contains modernized discussions on such critical topics as institutional mission institutional governance understanding campus environments finance and budgeting assessment program planning staff selection training and evaluation and much more **Enhancing Campus Capacity for Leadership** Adrianna Kezar,Jaime Lester,2011-07-26

Enhancing Campus Capacity for Leadership explores a mostly untapped resource on college campuses the leadership potential of staff and faculty at all levels This book contributes to the growing tradition of giving voice to grassroots leaders offering a unique contribution by honing in on leadership in educational settings In an increasingly corporatized environment grassroots leadership can provide a balance to the prestige and revenue seeking impulses of campus leaders act as a conscience for institutional operations with greater integrity create changes related to the teaching and learning core build greater equity improve relationships among campus stakeholders and enhance the student experience The text documents the stories of grassroots leaders including the motivation and background of these bottom up beacons the tactics and strategies that they use the obstacles they overcome and the ways that they navigate power and join with formal authority This investigation also showcases how grassroots leaders in institutional settings particularly more marginalized groups can face significant backlash While we like to believe that organizations are civil and humane the stories in this book demonstrate a dark side with which we must reckon The book ends with a discussion of the future of leadership on college campuses examining the possibilities for shared and collaborative forms of leadership and governance Applying College Change

Theories to Student Affairs Practice C. Casey Ozaki,Robin L. Spaid,2016-06-14 Student affairs professionals are critical to the efforts to improve students experiences and outcomes especially in two year institutions This volume explores the history of student development and college impact theories and models in relation to two year institutions Topics covered include analysis of the applicability of the literature for diverse and current community colleges and student populations implications for practitioners and presentation of alternative models and lenses This is the 174th volume of this Jossey Bass quarterly report series Essential to the professional libraries of presidents vice presidents deans and other leaders in today s open door

institutions New Directions for Community Colleges provides expert guidance in meeting the challenges of their distinctive and expanding educational mission *Challenge and Opportunity* John D. Dennison, 2011-11-01 This book provides a critical analysis of the most significant developments in the college systems in every province and territory since 1895 With contributions by leading scholars it addresses such topics as leadership entrepreneurship new forms of organization accountability instructional methodology the emergence of a college culture and education of First Nations students Key questions are explored How are differences in collective and individual interests to be managed How can social economic and demographic realities be taken into account in managing the intangible capital of education What are the best ways of ensuring opportunities for education training flexibility and varied access and mobility within higher education systems

Resources in Education , 1993-07 **Shaping the College Curriculum** Lisa R. Lattuca, Joan S. Stark, 2011-01-11

Shaping the College Curriculum focuses on curriculum development as an important decision making process in colleges and universities The authors define curriculum as an academic plan developed in a historical social and political context They identify eight curricular elements that are addressed intentionally or unintentionally in developing all college courses and programs By exploring the interaction of these elements in context they use the academic plan model to clarify the processes of course and program planning enabling instructors and administrators to ask crucial questions about improving teaching and optimizing student learning This revised edition continues to stress research based educational practices The new edition consolidates and focuses discussion of institutional and sociocultural factors that influence curricular decisions All chapters have been updated with recent research findings relevant to curriculum leadership accreditation assessment and the influence of academic fields while two new chapters focus directly on learning research and its implications for instructional practice A new chapter drawn from research on organizational change provides practical guidance to assist faculty members and administrators who are engaged in extensive program improvements Streamlined yet still comprehensive and detailed this revised volume will continue to serve as an invaluable resource for individuals and groups whose work includes planning designing delivering evaluating and studying curricula in higher education This is an extraordinary book that offers not a particular curriculum or structure but a comprehensive approach for thinking about the curriculum ensuring that important considerations are not overlooked in its revision or development and increasing the likelihood that students will learn and develop in ways institutions hope they will The book brings coherence and intention to what is typically an unstructured haphazard and only partially rational process guided more by beliefs than by empirically grounded substantive information Lattuca and Stark present their material in ways that are accessible and applicable across planning levels course program department and institution local settings and academic disciplines It s an admirable and informative marriage of scholarship and practice and an insightful guide to both Anyone who cares seriously about how we can make our colleges and universities more educationally effective should read this book Patrick T Terenzini distinguished

professor and senior scientist Center for the Study of Higher Education The Pennsylvania State University *Connecting Learning Across the Institution* Pamela L. Eddy, 2014-03-25 Most research on learning tends to occur in silos based on stakeholder perspective This volume seeks to break down these silos and draw together scholars who research learning from different perspectives to highlight commonalities in learning for students faculty and institutions When we understand how learning is experienced across the institution we can develop strategies that help support enhance and reinforce learning for all Exploring what it means to bridge learning across the institution this volume provides a roadmap to improve learning for all Both scholarly and practical it advances the knowledge about the ways we investigate and study learning across and for various groups of learners It also Collects thinking about learning in its various formats in one location Provides a platform for synthesis Outlines key questions for thinking more deeply about learning on campus Instead of thinking of learning as discrete depending on the stakeholder group this volume highlights the commonalities across all types of learners

Building Organizational Capacity J. Douglas Toma, 2010-11-15 Every university or college president envisions bold initiatives big projects intended to change the nature of an institution with significant implications across all sectors How can leaders and senior managers charged with implementing reforms effectively frame their work and anticipate potential pitfalls No organization can maximize its capacity defined as the administrative foundation essential for establishing and sustaining initiatives without considering its core elements individually and in concert according to J Douglas Toma This book examines eight essential organizational elements purposes structure governance policies processes information infrastructure and culture and illuminates their influence in strategic management through case studies at eight institutions Building Organizational Capacity situates strategic management within the context of higher education providing practitioners with the tools to better understand institutional challenges in accomplishing its missions and realizing its aspirations Toma s clear and well integrated review of the latest research as well as his advice for decision makers applying the book s lessons in practice ensures this volume s place in the growing literature on strategy and management in higher education

Redesigning America's Community Colleges Thomas R. Bailey, Shanna Smith Jaggars, Davis Jenkins, 2015-04-09 In the United States 1 200 community colleges enroll over ten million students each year nearly half of the nation s undergraduates Yet fewer than 40 percent of entrants complete an undergraduate degree within six years This fact has put pressure on community colleges to improve academic outcomes for their students Redesigning America s Community Colleges is a concise evidence based guide for educational leaders whose institutions typically receive short shrift in academic and policy discussions It makes a compelling case that two year colleges can substantially increase their rates of student success if they are willing to rethink the ways in which they organize programs of study support services and instruction Community colleges were originally designed to expand college enrollments at low cost not to maximize completion of high quality programs of study The result was a cafeteria style model in which students pick courses from a bewildering array of choices

with little guidance The authors urge administrators and faculty to reject this traditional model in favor of guided pathways clearer more educationally coherent programs of study that simplify students choices without limiting their options and that enable them to complete credentials and advance to further education and the labor market more quickly and at less cost Distilling a wealth of data amassed from the Community College Research Center Teachers College Columbia University Redesigning America s Community Colleges offers a fundamental redesign of the way two year colleges operate stressing the integration of services and instruction into more clearly structured programs of study that support every student s goals
