Rediscovering the Classics Ruth Townsend, Marcia Lubell, 1999 **Women Re-Creating Classics** Emily Hauser, Helena Taylor, 2025-06-12 In the last few years there has been a major and unmissable surge in women's retellings and re-creations of ancient myths and texts that has put women's re-creations of Classics centre stage Drawing together an interdisciplinary range of creative and scholarly voices this volume asks why classical creative retellings by women are so popular now and considers what creativity can do to foster new ways of thinking and writing about Classics thus blurring the boundary between the creative and the critical Contributors engage with debates on how to make Classics more accessible through the medium of creative works so that it is not just a discipline for the select few This second volume in a two volume set brings together original creative work by some of the many women writers who are pushing forward changes in the landscape of re-creating Classics from Madeline Miller to Jennifer Saint Emily Hauser Caroline Lawrence Roz Kaveney Nikita Gill Fiona Benson Anne Carson and many more These are set alongside discussions and interviews between writers and academics roundtable conversations among poets and critics and reflections on creative and inclusive pedagogy thus offering a cutting edge collaboration between practitioners and researchers and underlining the centrality of women's re-creations of Classics to the contemporary shaping of the field **Resources in Education** ,1998 **English Journal** ,2000 **American Book Publishing Record** ,2000

The Origins of Neoliberalism Giandomenica Becchio, Giovanni Leghissa, 2016-11-25 Neoliberalism is a doctrine that adopts a free market policy in a deregulated political framework In recent years neoliberalism has become increasingly prominent as a doctrine in Western society and has been heavily discussed in both academia and the media In *The Origins of Neoliberalism* the joint effort of an economist and a philosopher offers a theoretical overview of both neoliberalism's genesis within economic theory and social studies as well as its development outside academia Tracing the sources of neoliberalism within the history of economic thought the book explores the differences between neoliberalism and classical liberalism This book's aim is to make clear that neoliberalism is not a natural development of the old classical liberalism but rather that it represents a dramatic alteration of its original nature and meaning Also it fights against the current idea according to which neoliberalism would coincide with the triumph of free market economy In its use of both history of economics and philosophy this book takes a highly original approach to the concept of neoliberalism The analysis presented here will be of great interest to scholars and students of history of economics political economy and philosophy of social science *Jesus, Skepticism, and the Problem of History* Zondervan, 2019-10-08 In recent years a number of New Testament scholars engaged in academic historical Jesus studies have concluded that such scholarship cannot yield secure and illuminating conclusions about its subject arguing that the search for a historically authentic Jesus has run aground *Jesus Skepticism and the Problem of History* brings together a stellar lineup of New Testament scholars who contend that historical Jesus scholarship is far from dead These scholars all

find value in using the tools of contemporary historical methods in the study of Jesus and Christian origins While the skeptical use of criteria to fashion a Jesus contrary to the one portrayed in the Gospels is methodologically unsound and theologically unacceptable these criteria properly formulated and applied yield positive results that support the Gospel accounts and the historical narrative in Acts This book presents a nuanced and vitally needed alternative to the skeptical extremes of revisionist Jesus scholarship that on the one hand uses historical methods to call into question the Jesus of the Gospels and on the other denies the possibility of using historical methods to learn about Jesus **The New Criminology**
