Rediscovering The Past at Mexico's

Periphery Gilbert M. Joseph, 2003-09-29 Surveys major trends in Yucatán's currents in Mexican historiography and suggest new departures for regional and local level research Increasingly the modern era of Mexican history c 1750 to the present is attracting the attention of Mexican and international scholars Significant studies have appeared for most of the major regions and Yucatán in particular has generated an unusual appeal and an abundant scholarship This book surveys major trends in Yucatán's currents in Mexican historiography and suggest new departures for regional and local level research Rather than compiling lists of sources around given subject headings in the manner of many historiographies the author seeks common ground for analysis in the new literature's preoccupation with changing relations of land labor and capital and their impact on regional society and culture Joseph proposes a new periodization of Yucatán's modern history which he develops in a series of synthetic essays rooted in regional political economy Yucatan in an Era of Globalization Eric N. Baklanoff, Edward H. Moseley, 2008-03-18 This work describes the profound changes to Yucatán's society and economy following the 1982 debt crisis that prostrated Mexico's economy The editors have assembled contributions from seasoned Yucatecologists historians geographers cultural students and an economist to chart the accelerated change in Yucatán from a monocrop economy to a full beneficiary and victim of rampant globalization **The Cambridge History of the Native Peoples of the Americas** Bruce G. Trigger, Wilcomb E. Washburn, Richard E. W. Adams, Murdo J. MacLeod, Frank Salomon, Stuart B. Schwartz, 1996 Library holds volume 2 part 2 only **Reckoning with Change in Yucatán** Jason Ramsey, 2023-11-30 Reckoning with Change in Yucatán engages with how best to look upon and respond to change arguing that this debate is an important arena for negotiating local belonging and a force of transformation in its own right For residents of Chunchucmil a historic rural community in Yucatán Mexico history is anything but straightforward Living in what is both a defunct 19th century hacienda estate and a vibrant Catholic pilgrimage site Chunchucmileos reckon past present and future in radically different ways For example while some use the aging estate buildings to weave a history of economic decline and push for revitalization by hotel developers others highlight the growing fame of the Virgin of the Rosary in the attached church and vow to defend the site from developer interference By exploring how past and future are channeled through changing built environments landscapes sacred relics and legal documents this ethnographic study details how the politics of change provide Chunchucmileos with a common language for debating commitments to place and each another in the present Against Western notions of History as a relatively coherent account of change the book suggests we reframe it as an ongoing performance that is always fractured democratic and morally tinged **On the Periphery of the Periphery** Samuel Sweitz, 2011-11-17 This book examines from an archaeological perspective the social and economic changes that took place in Yucatán Mexico beginning in the 18th century as the region became increasingly articulated within global networks

of exchange Of particular interest is the formation and ultimate supremacy of the hacienda system in Yucatán and the effect that new forms of capitalist organized production had on native Maya social organization Household archaeology and spatial analysis conducted on the grounds of the former Hacienda San Juan Bautista Tabi provides the data for analyzing the results of this change on the daily lives and existence of those individuals incorporated within the hacienda system The use of archaeological excavation to place the lives of local individuals within the context of larger global processes makes this book a worthy contribution to the study of archaeology

Riot and Rebellion in Mexico Ana Sabau, 2022-02-08 2023 Best Book in the Humanities Latin American Studies Association Mexico Section Challenging conventional narratives of Mexican history this book establishes race making as a central instrument for the repression of social upheaval in nineteenth century Mexico rather than a relic of the colonial era caste system Many scholars assert that Mexico's complex racial hierarchy inherited from Spanish colonialism became obsolete by the turn of the nineteenth century as class based distinctions became more prominent and a largely mestizo population emerged But the residues of the colonial caste system did not simply dissolve after Mexico gained independence Rather Ana Sabau argues ever present fears of racial uprising among elites and authorities led to persistent governmental techniques and ideologies designed to separate and control people based on their perceived racial status as well as to the implementation of projects for development in fringe areas of the country Riot and Rebellion in Mexico traces this race based narrative through three historical flashpoints the Bajío riots the Haitian Revolution and the Yucatán's caste war Sabau shows how rebellions were treated as racially motivated events rather than political acts and how the racialization of popular and indigenous sectors coincided with the construction of whiteness in Mexico Drawing on diverse primary sources Sabau demonstrates how the race war paradigm was mobilized in foreign and domestic affairs and reveals the foundations of a racial state and racially stratified society that persist today

Rural Revolt in Mexico Daniel Nugent, 1998-06-12 A comprehensive overview by leading scholars of Mexican rural history before during and after the Revolution with an extensive chapter by Adolfo Gilly on the recent Chiapas rebellion

Strange Pilgrimages Ingrid Elizabeth Fey, Karen Racine, 2000 This fascinating collection of essays and articles shows how Latin Americans travels and residency abroad helped them re-examine their own origins and perceptions of their homeland Latin Americans traveled both purposefully and frequently in the nineteenth and twentieth centuries Strange Pilgrimages reveals their experiences in Europe and the United States and explores their power to shape opinions and bring outside influence back to Latin America This new book analyzes Latin Americans longstanding attraction to and interest in other cultures as barometers of their own progress In addition Strange Pilgrimages examines the invention of tradition cultural practice and identity formation among nation states A combination of articles and primary sources provides readers with both informed analysis of the experiences of Latin American travellers and entertaining first hand accounts from the travellers and exiles themselves These travellers were a diverse group that included artists diplomats political exiles athletes dilettantes and more Readers will learn that

Latin Americans came to understand their homelands better and in fact helped to define their own countries identities through their experiences traveling and living abroad *Bound in Twine* Sterling D. Evans,2013-01-14 Before the invention of the combine the binder was an essential harvesting implement that cut grain and bound the stalks in bundles tied with twine that could then be hand gathered into shocks for threshing Hundreds of thousands of farmers across the United States and Canada relied on binders and the twine required for the machine s operation Implement manufacturers discovered that the best binder twine was made from henequen and sisal spiny fibrous plants native to the Yucatán Peninsula of Mexico The double dependency that subsequently developed between Mexico and the Great Plains of the United States and Canada affected the agriculture ecology and economy of all three nations in ways that have historically been little understood These interlocking dependencies identified by author Sterling Evans as the henequen wheat complex initiated or furthered major ecological social and political changes in each of these agricultural regions Drawing on extensive archival work as well as the existing secondary literature Evans has woven an intricate story that will change our understanding of the complex transnational history of the North American continent *Moral Ecology of a Forest* José E. Martínez-Reyes,2016-11-29 Conclusion Conservation Rebels Blocking Land Grabs Post Conservation and Decolonizing Coloniality Notes Bibliography Index **The Brink of Freedom** David Kazanjian,2016-05-19 In *The Brink of Freedom* David Kazanjian revises nineteenth century conceptions of freedom by examining the ways black settler colonists in Liberia and Mayan rebels in Yucatán imagined how to live freely Focusing on colonial and early national Liberia and the Caste War of Yucatán Kazanjian interprets letters from black settlers in apposition to letters and literature from Mayan rebels and their Creole antagonists He reads these overlooked multilingual archives not for their descriptive content but for how they unsettle and recast liberal forms of freedom within global systems of racial capitalism By juxtaposing two unheralded and seemingly unrelated Atlantic histories Kazanjian finds remarkably fresh nuanced and worldly conceptions of freedom thriving amidst the archived everyday *The Brink of Freedom* s speculative quotidian globalities ultimately ask us to improvise radical ways of living in the world

Outside the Hacienda Walls Allan Meyers,2012-03-01 The Mexican Revolution was a tumultuous struggle for social and political reform that ousted an autocrat and paved the way for a new national constitution The conflict however came late to Yucatán where a network of elite families with largely European roots held the reins of government This privileged group reaped spectacular wealth from haciendas cash crop plantations tended by debt ridden servants of Maya descent When a revolutionary army from central Mexico finally gained a foothold in Yucatán in 1915 the local custom of agrarian servitude met its demise Drawing on a dozen years of archaeological and historical investigation Allan Meyers breaks new ground in the study of Yucatán haciendas He explores a plantation village called San Juan Bautista Tabi which once stood at the heart of a vast sugar estate Occupied for only a few generations the village was abandoned during the revolutionary upheaval Its ruins now lie within a state owned ecological reserve Through oral histories archival records and physical remains Meyers

examines various facets of the plantation landscape He presents original data and fresh interpretations on settlement organization social stratification and spatial relationships His systematic approach to things underfoot small everyday objects that are now buried in the tropical forest offers views of the hacienda experience that are often missing in official written sources In this way he raises the voices of rural mostly illiterate Maya speakers who toiled as laborers What emerges is a portrait of hacienda social life that transcends depictions gleaned from historical methods alone Students researchers and travelers to Mexico will all find something of interest in Meyers s lively presentation Readers will see the old haciendas once forsaken but now experiencing a rebirth as tourist destinations in a new light These heritage sites not only testify to social conditions that prevailed before the Mexican Revolution but also remind us that the human geography of modern Yucatán is as much a product of plantation times as it is of more ancient periods

The Making of a Market Juliette Levy, 2015-11-04

During the nineteenth century Yucatán moved effectively from its colonial past into modernity transforming from a cattle ranching and subsistence farming economy to a booming export oriented agricultural economy Yucatán and its economy grew in response to increasing demand from the United States for henequen the local cordage fiber This henequen boom has often been seen as another regional and historical example of overdependence on foreign markets and extortionary local elites In **The Making of a Market** Juliette Levy argues instead that local social and economic dynamics are the root of the region s development She shows how credit markets contributed to the boom before banks and bank crises existed and how people borrowed before the creation of institutions designed specifically to lend As the intermediaries in this lending process notaries became unwitting catalysts of Yucatán s capitalist transformation By focusing attention on the notaries role in structuring the mortgage market rather than on formal institutions such as banks this study challenges the easy compartmentalization of local and global relationships and of economic and social relationships

The Mexican

Revolution's Wake Sarah Osten, 2018-02-22 Throughout the 1920s Mexico was rocked by attempted coups assassinations and popular revolts Yet by the mid 1930s the country boasted one of the most stable and durable political systems in Latin America In the first book on party formation conducted at the regional level after the Mexican Revolution Sarah Osten examines processes of political and social change that eventually gave rise to the Institutional Revolutionary Party PRI which dominated Mexico s politics for the rest of the twentieth century In analyzing the history of socialist parties in the southeastern states of Campeche Chiapas Tabasco and Yucatán Osten demonstrates that these laboratories of revolution constituted a highly influential testing ground for new political traditions and institutional structures **The Mexican Revolution's Wake** shows how the southeastern socialists provided a blueprint for a new kind of party that struck calculated balances between the objectives of elite and popular forces and between centralized authority and local autonomy

Murder in

Mérida, 1792 Mark W. Lentz, 2018-06-01 During the summer of 1792 a man wearing the rough garb of a vaquero stepped out of the night shadows of Mérida Yucatan and murdered the province s top royal official don Lucas de Gálvez This book recounts

the mystery of the G lvez murder and its resolution an event that captured contemporaries imaginations throughout the Hispanic world and caused consternation on the part of authorities in both Mexico and Madrid In this work Lentz further provides a readable introduction to the Bourbon Reforms as well as new insights on late colonial Yucatecan society through the vast depictions of the cross section of Yucatecan people questioned during the decade it took to uncover the assassin s identity These suspects and witnesses from all walks of life reveal the interconnected layers found in colonial Yucatecan society and the social networks of M rida s urban underclass as well as their unexpected ties to the creole elites and rural Mayas that have previously been unexplored Unbecoming Modern Saurabh Dube,Ishita Banerjee-Dube,2019-06-14 In this volume well known scholars from India and Latin America Enrique Dussel Madhu Dubey Walter D Mignolo and Sudipta Sen to name a few discuss the concepts of modernity and colonialism and describe how the two relate to each other This second edition to the volume comes with a new introduction which extends and critically supplements the discussion in the earlier introduction to the volume It explores the vital impact of the colonial pasts of India Mexico China and even the Unites States on the processes through which these countries have become modern The collection is unique as it brings together a range of disciplines and perspectives The topics discussed include the Zapatista movement in Southern Mexico the image of the South in recent African American literature the theories of Andre Gunder Frank about the early modernization of Asian countries and the contradictions of the colonial state in India *The Colonizing Trick* David Kazanjian,2003 An illuminating look at the concepts of race nation and equality in eighteenth and nineteenth century America The idea that all men are created equal is as close to a universal tenet as exists in American history In this hard hitting book David Kazanjian interrogates this tenet exploring transformative flash points in early America when the belief in equality came into contact with seemingly contrary ideas about race and nation The Colonizing Trick depicts early America as a white settler colony in the process of becoming an empire one deeply integrated with Euro American political economy imperial ventures in North America and Africa and pan American racial formations Kazanjian traces tensions between universal equality and racial or national particularity through theoretically informed critical readings of a wide range of texts the political writings of David Walker and Maria Stewart the narratives of black mariners economic treatises the personal letters of Thomas Jefferson and Phillis Wheatley Charles Brockden Brown s fiction congressional tariff debates international treaties and popular novelettes about the U S Mexico War and the Yucatan s Caste War Kazanjian shows how emergent racial and national formations do not contradict universalist egalitarianism rather they rearticulate it making equality at once restricted formal abstract and materially embodied Mayan People Within and Beyond Boundaries Peter Hervik,2013-12-02 Mayan People Within and Beyond Boundaries explores the Maya of Yucatan the Maya of academic institutions and the Maya of the tourist industry It examines the interplay between the local and the external academic categories of the Maya and seeks to transcend the paradoxical and incongruent relationship between the social spaces that breathe life into the categories The notion of shared social

experience is introduced to embody a focus on reflexivity that goes beyond the subjective position of the author and helps demystify the coexisting subjectivities characteristic of ethnographic fieldwork. It provides a basis for overcoming the exclusive focus on author text and discourse in contemporary postmodernist ethnography while still conveying important ethnographic information. *From Silver to Cocaine* Steven Topik, Carlos Marichal, Zephyr Frank, 2006-07-18. Claims that the history of commodities in Latin America or anywhere cannot be understood without considering their global context often from a long term perspective.
