Rediscovering Values Coming To Terms With Postmodernism:

Rediscovering Values Hugh Mercer Curtler, 2016-06-16 The author's primary purpose in this short book is to clearly define the nature of value and restore it to a central place in discussions of ethical and aesthetic problems. He begins the book with a broad cultural perspective on the issue of postmodernism in general then takes a closer look at recent attempts to reduce values to evaluation to deny their objectivity. The central chapter focuses on the question What Is Value after which Curtler discusses values in the fine arts and literature concluding with the question of values in education. Rediscovering Values Hugh Mercer Curtler, 1997 Now that we have rejected the set of values inherited from our imperialist past Curtler says we must distil from the common social world a new set that can command our approval regardless of cultural and personal tastes. He mounts an attack on proponents of relativity as any cost and argues for the objectivity of values in ethics literature and art. His treatment is accessible to lay readers. Engendering Realism and Postmodernism, 2021-11-01 This volume assembles critical essays on and excerpts from works of contemporary women writers in Britain. Its focus is the interaction of aesthetic play and ethical commitment in the fictional work of women writers whose interest in testing and transgressing textual boundaries is rooted in a specific awareness of a gendered multicultural reality. This position calls for a distinctly critical impetus of their writing involving the interaction of the political and the literary as expressed in innovative combinations of realist and postmodern techniques in works by A S Byatt Maureen Duffy Zoe Fairbairns Eva Figes Penelope Lively Sara Maitland Suniti Namjoshi Ravinder Randhawa Joan Riley Michele Roberts Emma Tennant Fay Weldon Jeanette Winterson. All contributions to this volume address aspects of these writers' positions and techniques with a clear focus on their interest in transgressing boundaries of genre gender and post colonial identity. The special quality of these interpretations first given in the presence of writers at a symposium in Potsdam derives from the creative and prosperous interactions between authors and critics. The volume concludes with excerpts from the works of the participating writers which exemplify the range of concrete concerns and technical accomplishments discussed in the essays. They are taken from fictional works by Debjani Chatterjee Maureen Duffy Zoe Fairbairns Eva Figes Sara Maitland and Ravinder Randhawa. They also include the creative interactions of Suniti Namjoshi and Gillian Hanscombe in their joint writing and Paul Magrs' critical engagement with Sara Maitland. *The Library Journal*, 1998 Includes beginning Sept 15 1954 and on the 15th of each month Sept May a special section School library journal ISSN 0000 0035 called Junior libraries 1954 May 1961 Also issued separately **A Philosophy of Music Education** Bennett Reimer, 2022-11-01 Bennett Reimer's *A Philosophy of Music Education* asserts that the nature and value of music education are determined primarily by the nature and value of music. Originally published in 1970 with the third edition originally published in 2003 this text relates findings in the field of aesthetics to their implications for the practice of music education thus emphasizing practical applications that students and future educators can employ in their teaching and

learning It addresses an increasingly diverse world in which music is viewed not as a singular practice but as a multitude of related practices Reimer believes that music has characteristics that make it recognizably and distinctively a practice or an art that these characteristics can be identified to a reasonable and useful degree but no doubt never definitively that music is of value to humans and their communities in a variety of ways related to these characteristics and that the primary mission of music education is to make musical values widely and deeply available Each chapter includes case studies Riffs and questions for discussion exploration Etudes that enhance student learning This reprint edition includes a new introduction by Peter R Webster that sets Reimer s work in the context of the development of music education pedagogy and illuminates why this remains an important text for today s students An excellent introductory text for undergraduate or more advanced music education students A Philosophy of Music Education remains the best single introduction to this important and growing field

Spirituality in Higher Education Sherry L. Hoppe, Bruce W. Speck, 2005 This issue looks at spirituality in higher education through a number of lenses examining what many view as trend towards incorporating spirituality back into the lives of students faculty and administrators Questions about meaning and purpose are as old as humans and in the earliest days of higher education the search for truth was the ultimate journey of the student Over the decades though the academy has often shunned the spiritual aspect of a student's education Whether that is to avoid controversy or to protect from acknowledging that all is not known there is a predisposition to avoid talking about spirituality in the academy Regardless the result is the creation of what T S Eliot called hallow men who live in this world but do not know why they are here and thus do not know how to live their lives This book is responding to a reawakening of desire to avoid such creatures The issue's purpose at least in a cursory way is to look at spirituality in academe through a number of lenses Composed of chapters from both faculty and administrators this volume offers insight into the critical need for spirituality in educating the whole student while recognizing that how spirituality is viewed and taught and experienced is intensely personal The goal is not to prescribe how spirituality should be integrated but to offer multiple options and perspectives Not only will readers learn about the complex and vital role of spirituality they will also be reminded that the quest for truth and meaning not the destination is what is vitally important in shaping discussions about spirituality This is the 104th issue of the Jossey-Bass quarterly support series New Directions for Teaching and Learning
