## **Reed Town Japan A Study In Community Power Structure And Political Change:**

**Reed Town Japan** Yasumasa Kuroda, 1974      **Reed Town Japan** Yasumasa Kuroda, 2019-03-31 This book is a community study that in its own right illuminates various facets of political change and dynamics even in Japanese national life and points out various fruitful directions for further studies of Japanese town and urban politics The work was written for the dual purpose of developing a theory of community power structure and political change and of understanding and describing the politics of a small Japanese town      Political Change in the Metropolis Ronald Vogel, John Harrigan, 2015-10-05 This popular text has been thoroughly updated and revised to sharpen the focus on its bias and change theme include the latest data studies informing the field and cover important new topics e g flood disaster in New Orleans Political Change in the Metropolis Eighth Edition continues to focus on the political changes that have taken place in American cities and the reactions of urban scholars to them In addition to offering scholarly perspectives the text offers students a theoretical framework for interpreting these changing events for themselves This framework analyzes the patterns of bias inherent in the organization and operation of urban politics giving students an in depth look at the fascinating and constantly changing face of urban politics Features Accessible writing style engages students in the material Provides excellent coverage of the impact of immigrants and ethnic groups in the making of the American city An abundance of historical material helps students better understand the origins and development of urban politics and structures Case studies throughout the text give students an opportunity to apply important material The text exposes students to first rate discussions of political phenomena and empirical literature on those phenomena      *The Core of Japanese Democracy* Y. Kuroda, 2005-06-03 This book seeks to explain how politics actually operates in the Japanese Diet using the author's bilayer theory or dual power structure theory It is about how politics in Japan operates behind closed doors and how laws are actually made in the Diet While some parts of the process remain hidden subterfuge is inherently part of politics the author uses interviews with party officials current and former kokkai taisaku inkai committee members of all parties in the Diet to elucidate the process as much as possible      **Local Political Participation in Japan** Dani Daigle Kida, 2018-08-06 How Do Japanese Citizens Participate Politically Most Japanese citizens perhaps with a bit of a chuckle would answer that average Japanese do not participate in politics While political attitudes in other countries have fluctuated corresponding to social political and economic climates of the times in Japan a consistently negative view of politics has persisted since the late 1960s Japanese citizens perceive their government much more critically than citizens of neighboring countries While many Japanese citizens participate in specific political acts such as signing candidate support cards attending political rallies or directly contacting politicians they largely do not view these activities as political participation Kida examines why this is the case whether there is a connection between negative views of politics and how Japanese people self identify their political participation how Japanese citizens attempt to exact change or influence policy how the government engages citizens in

political participation and the relationship between citizens attitudes towards government and levels of political participation Kida explores political participation on the local level to better understand the sources of political attitudes While participation studies have been conducted in Japan most are centered in large urban areas focusing on either extreme forms of participation such as protests or concentrated on single issue participation such as the environmental or women s movements This book in contrast explores what every day regular in the system political participation looks like in a small traditional Japanese city using Oita a small city in Kyushu as a case study It focuses especially on the role local institutions and politicians play in influencing the kinds of participation available and subsequently the attitudes created about participation

Political Women in Japan Susan J. Pharr, 2023-04-28 Drawing on interviews with one hundred young Japanese women engaged in a spectrum of voluntary political groups Susan J Pharr explores how politically active women overcome the constraints that bar or limit the political participation of the average woman The book treats political volunteers as agents of social change in a process of role redefinition by which prevailing concepts of women s roles gradually adjust to accommodate political behavior Tracing developments that led to the grant of suffrage and other political rights to women during the Allied occupation Pharr sets the stage for an analysis of that process as it unfolds in the experience of individual women She uses women s images of self and society and issues of political and gender role socialization career and life expectations and political role and participation to develop a three fold typology for looking at political women in Japan She examines both the satisfactions of political volunteerism from the exhilaration of addressing a crowd from a sound truck to the pleasure of speaking men s language and the psychological and social costs associated with it This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1981

Party Politics in Japan Ronald J. Hrebennar, Akira Nakamura, 2014-09-19 The Japanese political system is a parliamentary democracy and was the first western style government in Asia when the parliamentary system was adopted in the 1880s It has a multiparty system free elections and a parliament that functions much the same way that any other democratic parliament functions however for much of its existence the Japanese party system has been dominated by one party This fact is crucial to understanding contemporary politics in Japan especially since the long term ruling party the Liberal Democratic Party is once again back in power This book presents an up to date analysis of the political parties that make up the Japanese party system and their impact on Japanese politics and government Given that the executive branch is selected as a result of the pattern of party numbers in the parliament to understand Japanese politics and policy one must first know the nature of the ruling and opposition parties and their leaders Indeed in the past decade the quality of Japan s government has been closely associated with the strengths and weaknesses of Japan s prime ministers and

the dominant party in the system This book focuses on a central question why Japanese politics and government has been so dysfunctional in the past two decades With this question in mind the chapters provide key background information on Japanese politics and political parties discuss each of the major political parties that have governed Japan since 1955 and finally examine the December 2012 House of Representatives elections that returned the LDP to power and the differences between the First 1955 1993 and the Second Post War Party Systems 1993 Party Politics in Japan provides a comprehensive analysis of the past sixty years of Japanese party politics As such it will be of great interest to students and scholars of Japanese politics and Asian politics as well as to those interested in political parties and political systems more broadly

*Japanese Studies from Pre-History to 1990* Richard Perren,1992      *Democracy Without Competition in Japan* Ethan Scheiner,2006 This book explains why no opposition party has been able to offer itself as a sustained challenger in Japan

*The Japanese Party System* Ronald J Hrebennar,2019-07-09 This is a nuts and bolts textbook in the best sense of the term It is bound to be a great boon both to teachers and students of contemporary Japanese politics from the Foreword by Haruhiro Fukui This timely volume is the first book in nearly twenty five years to focus on the party system of Japan In the past two decades the Japanese political scene has undergone a dramatic transformation What had been a two party system proliferated during the 1960s and 1970s into a seven party system This book provides a comprehensive look at all of Japan s current major and minor national level parties For the first time in English detailed analyses are presented on the Democratic Socialists the Clean Government party Komeito and the New Liberal Club Thorough coverage is provided for parties in the 1955 System the ruling Liberal Democratic party and the two long term opposition parties the Socialists and the Communists Many of the new miniparties that have appeared in recent elections are also discussed Japanese Political Parties gives readers a solid understanding of party histories leadership and internal organization as well as a look at prospects for the future The party discussions are preceded by three chapters on the laws and political forces affecting Japanese politics Chapter 1 describes the basic characteristics of the Japanese party system since 1945 and provides an overview of Japanese voting behavior and political values Chapter 2 describes the rules of the game the electoral laws and discusses the ongoing political problem of malapportionment Chapter 3 interprets data on political finance in contemporary Japan Along with a wealth of information and interpretation the authors offer insight into the common patterns Japan shares with democracies around the world placing the Japanese system within the larger context of world party systems Designed for courses on Japanese politics this text should also prove useful to students of comparative politics and political parties

**National Integration and Local Power in Japan** Yasuo Takao,2019-07-09 First published in 1999 this book offers a new study of local government in Japan There is an enormous amount of information about Japanese local government that has not yet appeared in English With the author s local familiarity elected local officials and local residents have been extraordinarily open and forthcoming This allows a rethinking of the topic by mobilising a multitude of solid factual material

Japan has dealt with the dramatically increased public sector but has done so in a setting of institutional centralisation How has central authority sought to find ways of managing the continuous expansion of state activities How have local authorities responded to central government's initiative in integrating state administration The answers the book gives to these questions present an alternative understanding of Japanese local government

**The SAGE Handbook of Modern Japanese Studies** James D Babb, 2014-12-15 A welcome addition to any reading list for those interested in contemporary Japanese society Roger Goodman Nissan Professor of Modern Japanese Society University of Oxford I know no better book for an accessible and up to date introduction to this complex subject than The SAGE Handbook of Modern Japan Studies Hiroko Takeda Associate Professor Organization for Global Japanese Studies University of Tokyo Pioneering and nuanced in analysis yet highly accessible and engaging in style Yoshio Sugimoto Emeritus Professor La Trobe University The SAGE Handbook of Modern Japanese Studies includes outstanding contributions from a diverse group of leading academics from across the globe This volume is designed to serve as a major interdisciplinary reference work and a seminal text both rigorous and accessible to assist students and scholars in understanding one of the major nations of the world James D Babb is a Senior Lecturer in the School of Geography Politics and Sociology at Newcastle University

*Japan's New Party System* Ronald J Hrebennar, 2019-08-15 The authors of this book have joined together for a third time to produce a book on Japanese political parties and elections The first two books under the title of The Japanese Party System were also published by Westview Press in 1986 and 1992 This book Japan's New Party System has a different purpose than the previous volumes The first two books had as their task the presentation of a vast amount of material on the various parties of the 1955 1993 party system Since 1955 Japanese politics and parties had been rather uneventful and predictable consequently many Japanese political scientists preferred to study other nations Decade after decade the Liberal Democratic Party LDP ruled Japan while the permanent opposition party the Japan Socialist Party JSP revolved around it but could never even come close to replacing it in power on the national level All of this changed in 1993 after the LDP split new parties emerged and formed a non LDP government and a new party system began This book is about the Second Party System and how Japanese politics has changed from the old LDP dominated First Party System

Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office, 1976

The Nature of the Japanese State Brian J. McVeigh, 2013-09-13 Brian J McVeigh uses a unique anthropological approach to step outside flawed stereotypes of Japanese society and really engage in the current debate over the role of bureaucracy in Japanese politics To many in the West Japan appears as a paradox a rational high tech economic superpower and yet at the same time a deeply ritualistic and ceremonial society This adventurous new study demonstrates how these nominally conflicting impressions of Japan can be reconciled and a greater understanding of the state achieved

Asian and African Studies, 1976

**The Renaissance of Taifu** Guven Peter Witteveen, 2004-05-05 This book tells the story of a citizen group through the example and results of their participation in local civic life The book draws

attention to the complicated conditions under which civic participation may succeed The story is about the individuals and organizations in the regional Japanese town of Takefu but these events are also placed in the context of the surrounding Japanese Sea region of west Japan and the wider currents of the Japanese nation state at the time Also includes maps

**Asian and African Studies** Slovenská akadémia vied. Kabinet orientalistiky, Ústav orientalistiky (Slovenská akadémia vied), 1976 **RLE: Japan Mini-Set E: Sociology and Anthropology** Various, 2021-07-14 Mini set E Sociology

Anthropology re issues 10 volumes originally published between 1931 and 1995 and covers topics such as Japanese whaling marriage in Japan and the Japanese health care system For institutional purchases for e book sets please contact online sales tandf.co.uk customers in the UK Europe and Rest of World *Difference & Modernity* John Clammer, 2012-10-12 First Published in 1995 The question of postmodernity that has swept Western academic and intellectual circles raises critical comparative questions Do societies that have not experienced the same historical development as the West pass inevitably through modernity into postmodernity or can they skip such stages altogether Japan the only non Western society to develop independently a fully fledged capitalist industrialist economy poses such fundamental questions to social theory Is Japan in fact unique and as such is it a society which escapes the net of conventional sociological abstractions The book questions how special Japanese society really is the limitations of Western social theory in grasping the fullness of this dynamic and a complex Asian society and inquires as to how Japan in turn may speak to social theory and deepen and broaden the principles on which social theory attempts to explore and categorize the social and cultural worlds

## The Enigmatic Realm of **Reed Town Japan A Study In Community Power Structure And Political Change**: Unleashing the Language is Inner Magic

In a fast-paced digital era where connections and knowledge intertwine, the enigmatic realm of language reveals its inherent magic. Its capacity to stir emotions, ignite contemplation, and catalyze profound transformations is nothing lacking extraordinary. Within the captivating pages of **Reed Town Japan A Study In Community Power Structure And Political Change** a literary masterpiece penned with a renowned author, readers embark on a transformative journey, unlocking the secrets and untapped potential embedded within each word. In this evaluation, we shall explore the book's core themes, assess its distinct writing style, and delve into its lasting effect on the hearts and minds of those who partake in its reading experience.
