*Music-Making in North-East England during the Eighteenth Century*, 2017-07-05 The north east of England in the eighteenth century was a region where many different kinds of musical activity thrived and where a wide range of documentation survives Such activities included concert giving teaching tuning and composition as well as music in the theatre and in church Dr Roz Southey examines the impulses behind such activities and the meanings that local people found inherent in them It is evident that music could be perceived or utilized for extremely diverse purposes as entertainment as a learned art as an aid to piety as a profession a social facilitator and a support to patriotism and nationalism Musical societies were established throughout the century and Southey illustrates the social make up of the members as well as the role of Gentlemen Amateurs in the organizing of concerts and the connections with London and other centres The book draws upon a rich selection of source material including local newspapers council and ecclesiastical records private papers and diaries and accounts of local tradesman as well as surviving examples of music composed in the area by Charles Avison Thomas Ebdon and John Garth of Durham amongst many others Charles Avison s importance is focused upon particularly and his Essay on Musical Expression is considered alongside other contemporary writings of lesser fame Southey provides a fascinating insight into the type and social class of audiences and their influence on the repertoire performed The book moves from a consideration of music being used as a fashion item evidenced by the patronage of big name soloists from London and abroad to fiddlers ballad singers music at weddings funerals public celebrations and music for marking the events of the American War of Independence and the French Revolutionary Wars It can be seen therefore that the north east was an area of important musical activity and that the music was always interwoven into the political economic religious and commercial fabric of eighteenth century life [The Hidden Musicians](#) Ruth Finnegan, Ruth H. Finnegan, 2007-08-30 A classic ethnography reveals the worlds of amateur musicians Back in print with a new preface A landmark in the study of music and culture this acclaimed volume documents the remarkable scope of amateur music making in the English town of Milton Keynes It presents in vivid detail the contrasting yet overlapping worlds of classical orchestras church choirs brass bands amateur operatic societies and amateur bands playing jazz rock folk and country Notable for its contribution to wider

theoretical debates and its influential challenge to long held assumptions about music and how to study it the book focuses on the practices rather than the texts or theory of music rejecting the idea that only selected musical traditions great names or professional musicians are worth studying This opens the door to the invisible work put in by thousands of local people of diverse backgrounds and how the pathways creatively trodden by amateur musicians have something to tell us about both urban living and what it is to be human Now with a new preface by the author this long awaited reissue of *The Hidden Musicians* will bring its insights and innovations to a new generation of students and scholars
