Reef Pilots The History Of The Queensland Coast And Torres Strait Pilot Service:

Reef Pilots John C. H. Foley, 1982 *The Future of Ocean Regime-Building* Aldo E. Chircop, Ted L. McDorman, Susan J. Rolston, 2009 One of the most creative innovations of the international diplomatic community in the 20th century was its invention of the international regime a wrote Douglas M Johnston in his last major work published posthumously *The Historical Foundations of World Order The Tower and the Arena* Nijhoff 2008 While regimes often provide order and certainty and a consequent reduction in disputes and misunderstandings regimes are driven by specific concerns With diverse disciplinary backgrounds and perspectives the distinguished contributors to this tribute follow a long tradition of scholarly inquiry into the governance creation operation viability and maintenance of international regimes Their contributions on ocean and environmental regimes as diverse as fisheries ocean dumping maritime security seafarers a TM rights or enhancement of marine environmental protection attest to the depth to which modern international law and the underlying international relations have been transformed into an international law of structured cooperation This book includes biographical and bibliographic notes on Douglas M Johnston **Navigational Rights and Freedoms and the New Law of the Sea** Donald R. Rothwell, Sam Bateman, 2021-10-18 Navigational rights and freedoms have been central to the development of the law of the sea since the original debates over whether the seas were open or closed to maritime traffic The 1982 UN Convention on the Law of the Sea recognises the legitimate rights of coastal states to proclaim sovereignty and assert jurisdiction over vast areas of maritime space In return maritime states are given a range of navigational rights over waters ranging from the territorial sea through to the high sea The new regime of the law of the sea created by the Convention presents an opportunity to review developments in the law of navigational rights and freedoms This book assesses the navigational regime established by the 1982 Convention with emphasis given to the continuing importance of the freedom of the seas Navigation in the territorial sea and international straits is reviewed especially in the Straits of Malacca and Singapore and the Torres Strait Archipelagic navigation from the perspective of two claimant states Indonesia and the Philippines and a user state South Korea is also considered The interaction of environmental concerns with navigational rights is an important feature of the current law of the sea regime with relevant conventions assessed and the role of the International Maritime Organization in developing navigational standards considered Both European and Canadian practice in the protection of sensitive marine environments and the impact upon navigational rights is also considered Finally the roles of the International Tribunal for the Law of the Sea and the International Maritime Organization in dispute resolution are reviewed before a concluding consideration of the future for navigational rights and freedoms in the twenty first century *The Great Barrier Reef* James Bowen, Margarita Bowen, 2004-12-20 This 2002 book provides a cultural and ecological history of European impact on the Great Barrier Reef **To the Islands** Paul Battersby, 2007-08-21 *To the Islands* offers a unique perspective on the evolution of economic social and political interconnections between

Australia and its island region spanning two centuries from the early years of British colonization to the present day The book advances the argument that globalizing processes are drawing Australia incrementally closer to modern day South East Asia and the wider Asia Pacific While globalization is a term commonly associated with the twentieth century world this study traces the history of Australia s regionalisation back to the nineteenth century to the lived experiences of Australian travelers tourists prospectors mining entrepreneurs in the Netherlands Indies Malaya and Siam or Thailand as it is known today To the Islands challenges the orthodox view that Australia s relations with its regional neighbors were insignificant before the outbreak of war in the Pacific in 1941 By the early 1900s Java was a popular tourist destination for Australians while Malaya and Siam were emerging as major Australian foreign investment destinations In placing economic and social interactions ahead of political and security concerns in the analysis of Australia s regional relations the book highlights the role of non state actors and people to people connections in shaping the contours of Australian diplomatic engagement with South East Asia and the South West Pacific To the Islands is an essential book for advanced students and researchers of the history and politics of the Asia Pacific and Australia

Hospital Ships Rupert Goodman,2016-01-08 The story of hospital ships is a fascinating one indeed about which little has

been written except for isolated tragedies such as the sinking of the Centaur off the Australian coast in 1943 *Merciful Journey* Marsden Hordern, 2017-04-20 In 1939 Marsden Hordern's mother refused to sign the paper allowing her seventeen year old son to fight overseas with the Royal Australian Air Force I did not rear you to be killed in an aeroplane she said Join the navy He took her advice and in doing so determined his future In small patrol boats Fairmiles and a Harbour Defence Motor Launch he patrolled the shores of Japanese held territory assisted beleaguered commandos in Timor and was finally caught up in the drama of collecting Japanese prisoners of war from the islands A *Merciful Journey* presents a vivid and compelling account of Hordern's life from a happy childhood growing up in Sydney during the Great Depression to his years serving in the Royal Australian Navy from 1942 to 1947 Drawing on the letters and journals he wrote at the time Hordern engagingly recounts his triumphs and disasters as a naval officer detailing his rise from a young and callow sub lieutenant to a lieutenant in command of his own ship He recalls his hopes and fears and in the face of the horrors of war reveals an appealing enthusiasm for new experiences and a growing love of the sea A *Merciful Journey* is a delightful memoir of a young man's coming of age in wartime Memoirs of the Queensland Museum Queensland Museum, 1993 Australian Transport Literature Information System , 1983 Vessel-Source Pollution and Coastal State Jurisdiction Erik Franckx, 2021-09-06 After seven years of work the Committee on Coastal State Jurisdiction Relating to Marine Pollution of the International Law Association concluded its work by submitting its final report for discussion at the occasion of the London conference July 25 29 2000 This book brings together the different official reports submitted by this Committee at the 1996 Helsinki 1998 Taipei and 2000 London conferences as well as some preparatory documents necessary for the correct understanding of these just mentioned reports The Committee concentrated its work on vessel source pollution and made it a central objective of its work to produce results which could facilitate the interpretation of the 1982 United Nations Convention on the Law of the Sea During its work it became moreover apparent that an accurate assessment of state practice proved more than once problematic either because of problems relating to interpretation or simply because the basic information was missing For that reason the present book contains a special section where different members of the Committee prepared detailed national reports written according to a strict outline worked out for this purpose in order to shed additional light on the specific issues dealt with by the Committee Together with the conclusions arrived at by the Committee these additional national reports represent a valuable statement of the present day status iuris questionis Managing Marine Environments R. A. Kenchington, 1990 This text introduces readers to contemporary issues of multiple use planning and management of marine environments and natural resources It draws heavily on the experience of the first ten years of Australia's Great Barrier Reef Marine Park Key issues of marine environment and resource management are discussed The author points out the advantages and limitations of the multiple use management approach to marine environment issues Requirements for implementation and co ordination of national regional and international marine approaches to multiple use management are
