Bowdoin Van Riper, 2017-02-23 Divided into four thematic sections What s Eating You explores the deeper significance of food on screen the ways in which they reflect or challenge our deepest fears about consuming and being consumed Among the questions it asks are How do these films mock our taboos and unsettle our notions about the human condition How do they critique our increasing focus on consumption In what ways do they hold a mirror to our taken for granted about food and humanity asking if what we eat truly matters Horror narratives routinely grasp those questions and spin them into nightmares Monstrous others dine on forbidden fare the tables of consumption are turned and the consumer becomes the consumed Overindulgence as *Le Grande Bouffe* 1973 and *Street Trash* 1987 warn can kill us and occasionally as films like *The Stuff* 1985 and *Poultrygeist* 2006 illustrate our food fights back From *Blood Feast* 1963 to *Sweeney Todd* 2007 motion pictures have reminded us that it is an eat or be eaten world

**Dining with Madmen** Thomas Fahy, 2019-02-13 In *Dining with Madmen* Fat Food and the Environment in 1980s Horror author Thomas Fahy explores America s preoccupation with body weight processed foods and pollution through the lens of horror Conspicuous consumption may have communicated success in the eighties but only if it did not become visible on the body American society had come to view fatness as a horrifying transformation it exposed the potential harm of junk food gave life to the promises of workout and diet culture and

represented the country's worst consumer impulses inviting questions about the personal and environmental consequences of excess. While changing into a vampire or a zombie often represented widespread fears about addiction and overeating, it also played into concerns about pollution. Ozone depletion, acid rain, and toxic waste already demonstrated the irrevocable harm being done to the planet. The horror genre, from *A Nightmare on Elm Street* to *American Psycho*, responded by presenting this damage as an urgent problem, and through the sudden violence of killers, vampires, and zombies, it depicted the consequences of inaction as terrifying. Whether through Hannibal Lecter's cannibalism, a vampire's thirst for blood in *The Queen of the Damned* and *The Lost Boys*, or an overwhelming number of zombies in George Romero's *Day of the Dead*, 1980s horror uses out of control hunger to capture deep-seated concerns about the physical and material consequences of unchecked consumption. Its presentation of American appetites resonated powerfully for audiences preoccupied with body size, food choices, and pollution. And its use of bodily change alongside the bloodlust of killers and the desolate landscapes of apocalyptic fiction demanded a recognition of the potentially horrifying impact of consumerism on nature, society, and the self.

**Understanding Tracy Letts** Thomas Fahy, 2020-09-04 Winner of the Pulitzer Prize in drama as well as Tony Awards for best play and best actor, Tracy Letts has emerged as one of the greatest playwrights of the twenty-first century. *Understanding Tracy Letts*, the first book dedicated to his writing, is an introduction to his plays and an invitation to engage more deeply with his work, both for its emotional power and cultural commentary. Experiencing a Tracy Letts play often feels akin to reading a Cormac McCarthy novel, watching a Cohen Brothers film, and seeing an episode of *Breaking Bad* at the same time. His characters can be ruthlessly cruel and funny, selfish and generous, delusional and incisive, and deceptive and painfully honest. They keep secrets, they harbor biases and misconceptions, and in their quest to find love and understanding, they often end up being the greatest impediments to their own happiness. As a writer, Letts can move seamlessly from the milieu of a Texas trailer park to the pulsating nightlife of London's countercultural scene, the stifling quiet of small-town Ohio to the racial tensions of urban Chicago. He thrives in the one-act format in plays like *Mary Page Marlow* and *The Minutes*, as well as the epic scope of *August: Osage County* and *Linda Vista*. With a musician's sense of timing, Letts shifts between humor and heartache, silence and sound, the mundane and the poetic. And he fearlessly tackles issues such as gender bias, racism, homophobia, and disability rights. Contemporary American life thus becomes a way to comment on the country's troubled history, from Native American genocide to the civil rights movement. The personal narratives of his characters become gateways to the political. *Understanding Tracy Letts* celebrates the range of Letts's writing in part by applying different critical approaches to his works. Whether through the lens of disability studies, the conspiracy genre, food studies, the feminist politics of quilting, or masculinity studies, these readings help bring out the thematic richness and sociopolitical dimensions of Letts's work.

**One Continuous Picnic** Symons, Michael, 2016-10-17 2007 marks the twenty fifth anniversary of the first publication of *One Continuous Picnic* a frequently acclaimed Australian classic on the history of eating in Australia The text remains gratifyingly accurate and prescient and has helped to shape subsequent developments in food in Australia Until recently historians have tended to overlook eating and yet through meat pies and lamingtons Symons tells the history of Australia gastronomically He challenges myths such as that Australia is too young for a national cuisine and that immigration caused

the restaurant boom Symons shows us that Australia is unique because its citizens have not developed a true contact with the land have not had a peasant society Australians have enjoyed plenty to eat but food had to be portable witness the weekly rations of mutton flour tea and sugar that made early settlers a mobile army clearing a whole continent and the tins of jam condensed milk camp pie and bottles of tomato sauce and beer that turned its citizens into early suburbanites By the time of screw top riesling takeaway chicken and frozen puff pastry Australians were hypnotised consumers on one continuous picnic But good food has never come from factory farms process lines supermarkets and fast food chains Only when we enjoy a diet of fresh local produce treated with proper respect when we learn from peasants might we at last have found a national cuisine and cultivated a continent
