Corporate Disclosure and Corporate Governance in China Jane Fu, 2010-01-01 Rapid economic development has focused attention from around the world upon China's corporate governance regime particularly as during the past few years some of China's companies mainly large state owned companies have been aggressively buying foreign businesses overseas China's huge capital injection and aggressive foreign investments have raised increasing and deep concerns among the target countries governments their business communities and the global public It is clearly of great importance that the people's Republic of China's business partner countries understand corporate governance of many Chinese state owned companies calls for a closer look at China's corporate governance theory and practice The corporate disclosure regime plays a critical role in this regard This timely and highly informative book provides for the first time comprehensive research on corporate governance in China with detailed attention to the formation and reform of its corporate disclosure laws and regulations Among the many factors analyzed are the following the role of the government in the management of state owned companies the legal and regulatory environment majority shareholders infringement of listed companies interests the increasing independence of the boards of directors the role of institutional investor the shareholding structure law enforcement and shareholders legal actions unmonitored insiders

control of corporate affairs the external governance structure and the absence of fiduciary duty The author describes the nature of the many breaches of disclosure laws and rules in the two decades or so of the history of China's securities market and the pressures within the relevant government agencies confronting the problem As a detailed analysis of the Chinese corporate disclosure regime that has emerged during the period of China's economic transition since the 1990s this incomparable book will be of great interest to legal researchers policymakers and legal practitioners working with business investments in China

The Chinese Economy in the 1990s J. Ma, 1999-09-20 This book provides a comprehensive overview and some economic analysis of China's economic reform experiences particularly those since the late 1980s It covers many institutional details of key aspects of the Chinese economy including fiscal and monetary management financial sector development state enterprise reform international trade foreign investment decentralization and regional development It is argued that while China has achieved a spectacular growth record over the past twenty years and its reform efforts have successfully laid the foundation of a market based economic management system the country continues to face major challenges in sustaining its growth performance

Foreign Participation in China's Banking and Securities Markets Francis Lees, K. Thomas Liaw, 1996-01-19 The authors consider the opportunities for foreign participants in the rapidly evolving People's Republic of China across all sectors of economic activity banking securities markets infrastructure and business investment In each case government regulation legal structure market organization and recent trends are analyzed Consideration is given to central government strategies to modify policies to achieve particular goals The foreign participant must be aware of these policy changes and the strategies that guide them Special attention is given to the foreign exchange system as it affects the foreign participant and the several reforms undertaken in the foreign exchange sector

The Trading Crowd Ellen Hertz, 1998-06-18 In 1992 there was an explosion of stock fever in Shanghai From the moment I set foot in Shanghai until my last day there people from all walks of life wanted to talk to me about the market Ellen Hertz writes Her 1998 study sets the stock market and its players in the context of Shanghai society and it probes the dominant role played by the state which has yielded a stock market very different from those of the West A trained anthropologist she explains the way in which investors and officials construct a moral storyline to make sense of this great structural innovation identifying a struggle between three groups of actors the big investors the little investors and the state to control the market

Shanghai in Transition Jos Gamble, 2005-07-27 In the decades following the introduction of Communist Party rule in Shanghai in 1949 the city's economy infrastructure and links with the world all atrophied However the past decade has seen far reaching economic reforms implemented to recreate Shanghai as a cosmopolitan world financial and trade centre This book focuses on the lives of local residents and their perceptions of their changing city and presents an evocative series of ethnographic perspectives of the city's shifting sociological landscape in this period of transition

China Superpower F. Lees, 1996-11-28 This volume analyzes the economic achievements of China since the opening in 1979 and the measures

taken by the government to spur international trade investment and technology transfer China's extraordinarily high economic growth rate is examined and broken down into several parts Prospects for continued high growth are evaluated This evaluation looks to the future to weigh the possibility for maintaining high growth into the next century A concluding chapter examines China's changing role in the world economy and politics East Asia's Reemergence Philip S. Golub, 2016-03-01 East Asia has re-emerged after a long eclipse as a centre of world wealth creation and growth Over the past four decades the region's share of world GDP has risen from less than 10 to 30 percent a ratio that is set to rise to 40 percent by 2030 What has made East Asia's remarkable ascent possible and what does this economic rebalancing between East and West mean for world politics In this insightful and provocative book Philip Golub addresses these questions tracing the region's rise from the early modern European Asian encounter to the imperial confrontations of the nineteenth century and China's state capitalist turn in the latter half of the twentieth century Together he argues the dynamics of imperialism war and revolution led to the constitution of developmental states that made possible East Asia's return to a central position in the global economy Combining rich historical narrative and social theory this book is an invaluable guide to one of the core issues in world politics today
