Multidisciplinary Approach to Information Technology in Library and Information Science Holland, Barbara, Sinha, Keshav, 2024-02-14. In the ever evolving landscape of information technology within library and information science, scholars often find themselves navigating a complex web of diverse research areas. The broad spectrum of topics ranging from digital libraries to artificial intelligence poses a significant challenge for academic scholars seeking a comprehensive understanding of the field's intricacies. The absence of a consolidated resource tailored to the specific needs of graduate students, professors, and practitioners further exacerbates this issue. *Multidisciplinary Approach to Information Technology in Library and Information Science* addresses the pressing challenges faced by scholars in the realm of library and information science. This reference handbook serves as a beacon illuminating the multifaceted interactions and impacts of technologies on information resources. This book delves into the ethical, legal, and social implications of information technology across diverse contexts: libraries, information centers, archives, museums, education, business, government, and healthcare.

Educational Media and Technology Yearbook Robert Maribe Branch, Hyewon Lee, Sheng Shiang Tseng, 2019-11-06. This is Volume 42 of the *Educational Media and Technology Yearbook*. For the past 40 years, our Yearbook has contributed to the field of Educational Technology in presenting contemporary topics, ideas, and developments regarding diverse technology tools for educational purposes. Our Yearbook has inspired researchers, practitioners, and teachers to consider how to develop technological designs and develop curricula and instruction integrating technology to enhance student learning, teach diverse populations across levels with effective technology integration, and apply technology in interactive ways to motivate students to engage in course content. In addition, Volume 42 features the Virtual Reality (VR) and Augmented Reality (AR) research and educational use cases organized and coordinated by Vivienne and David. This section provides evidence that the affordances of AR, VR, and mixed reality, defined as an immersive multiplatform experience, reality XR, have begun to make indelible changes in teaching and learning in the United States. XR's recent developments stimulated the editors to propose a special edition to mark the interoperability of immersive technology to push the boundaries of human curiosity, creativity, and problem solving. After years of incremental development, XR has reached a critical level of investment, infrastructure, and emerging production. The chapters included in this section illustrate how XR can push user inquiry, engagement, learning, and interactivity to new levels within physical and digital contexts.
