#### **Reflected Passion:**

Reflected Passion Erica Lawson, 2015 Where passion reality and destiny combine Dale Wincott is a 27 year old woman born into Bostonian wealth and groomed to marry into the social hierarchy Her mother is a hard hearted society matriarch but her father feels for his daughter and helps Dale find a life on her own as a furniture restorer Françoise Marie Aurelie de Villerey is a 28 year old Countess born into the French aristocracy and forced to marry a count much older than herself For ten years she was his trophy wife forced to endure his perverted desires until the day he finally died He had broken her emotionally and she no longer cared for what life had to offer slipping from one sexual partner to another as often as she changed her clothes Until that one night when Francoise looked up during a sexual encounter and saw Dale watching her from the mirror A veritable angel full of innocence and curiosity who touched her very soul Through the mirror Francoise embraces life anew while for Dale it is a powerful awakening forcing her to discover not only her sensual nature but the inner strength she possesses **Politics and History** Louis Althusser, 2020-05-05 In the first two essays of this book Louis Althusser analyses the work of two of the greatest thinkers of the Enlightenment Montesquieu and Rousseau He shows that although they made considerable advances towards establishing a science of politics particularly in comparison with the theorists of natural law they nevertheless remained the victims of the ideologies of their day and class Montesquieu accepted as given the political notions current in French absolutism Rousseau attempted to impose by moral conversion an already outdated mode of production The third essay examines Marx s relationship to Hegel and elaborates on the discussions of this theme in Althusser's earlier books For Marx and Lenin and Philosophy Althusser argues that Marx was able to establish a theory of historical materialism and the possibility of a Marxist philosophy of dialectical materialism not simply by turning his back on Hegel but by extracting and converting certain categories from Hegel's Logic and applying them to English political economy and French socialist political theory Adam Smith and the Economy of the Passions Jan Horst Keppler, 2010-07-14 The fertility of Adam Smith's work stems from a paradoxical structure where the pursuit of economic self interest and wealth accumulation serve wider social objectives The incentive for this wealth accumulation comes from a desire for social recognition or sympathy the need to recognise ourselves in our peers which is the primary incentive for moderating and transforming our violent and egotistical passions Adam Smith thus examines in detail the subliminal emotional structure underlying market behaviour This new book by Professor Jan Horst Keppler presents an Adam Smith for the 21st century more sceptical searching and daring than he has ever been portrayed before Without disputing its benefits Professor Keppler's original contribution explores the anarchic passions constantly threatening to destroy all social bounds and how the overarching desire for love and social recognition provides the Smithian individual with the incentive to transform his unsocial passions into a desire for social advancement and economic wealth with the view to gaining the vital approbation of his peers One of the most striking results of this new reading of Adam Smith is the latter s insistence on the

primacy of exchange value over use value In other words the quest for wealth is exclusively driven by the value it represents in the eyes of others rather than by any value in individual use At a moment of crisis where the link between true economic values and virtual financial values is more fragile than ever Adam Smith's work is a profoundly contemporary reminder that in the absence of personal ethical groundings our economic actions are only grounded in the game of mirrors we play with our peers This book will be of interest to postgraduate students and researchers in the History of Economics or indeed any reader with an interest in the psychological foundations of a market economy and its theoretical representations as developed by Adam Smith Fiction, Famine, and the Rise of Economics in Victorian Britain and Ireland Gordon Bigelow, 2003-11-20 We think of economic theory as a scientific speciality accessible only to experts but Victorian writers commented on economic subjects with great interest Gordon Bigelow focuses on novelists Charles Dickens and Elizabeth Gaskell and compares their work with commentaries on the Irish famine 1845 1852 Bigelow argues that at this moment of crisis the rise of economics depended substantially on concepts developed in literature These works all criticized the systematized approach to economic life that the prevailing political economy proposed Gradually the romantic views of human subjectivity described in the novels provided the foundation for a new theory of capitalism based on the desires of the individual consumer Bigelow's argument stands out by showing how the discussion of capitalism in these works had significant influence not just on public opinion but on the rise of economic theory itself Intimate Strangers Vanessa Smith, 2010-10-28 When Louis Antoine de Bougainville reached Tahiti in 1768 he was struck by the way in which All these people came crying out tayo which means friend and gave a thousand signs of friendship they all asked nails and ear rings of us Reading the archive of early contact in Oceania against European traditions of thinking about intimacy and exchange Vanessa Smith illuminates the traditions and desires that led Bougainville and other European voyagers to believe that the first word they heard in the Pacific was the word for friend Her book encompasses forty years of encounters from the arrival of the Dolphin in Tahiti in June 1767 through Cook s and Bligh's voyages to early missionary and beachcomber settlement in the Marquesas It unpacks both the political and emotional significances of ideas of friendship for late eighteenth century European and particularly British explorations of Oceania The Adam Smith Problem Dogan Göcmen, 2007-06-29 This is the first scholarly work to deal solely with the Adam Smith problem namely the apparent contradiction between Adam Smith s most famous works The Theory of Moral Sentiments and The Nature and Causes of the Wealth of Nations Since the 1840s scholars have puzzled over and attempted to explain the fact that these works offer two fundamentally different and contradictory concepts of human nature In this radical new approach Do an Gocmen argues that there are indeed two different concepts of human nature in The Theory of Moral Sentiments Smith advocates a broad synchronization of human intention and behaviour under a beneficent providence in a system of mutual sympathy whereas Wealth of Nations is a critical account of the human situation of the individual and is an egoistic description of human beings in commercial society

Gocmen argues that Smith does indeed put forward two different and varied ideas arguing that the ethical position articulated in The Theory of Moral Sentiments can be and was intended by Smith to be applied as a basis for criticising the commercial society analysed in the Wealth of Nations Gocmen argues that this ethical position points to the character of its ideal future replacement that of Adam Smith s Utopia Gocmen therefore dismisses as short sighted and oversimple the common assumption that Adam Smith s Utopia consists merely of the invisible hand the idea that markets would regulate everything if left to their own dynamics This book challenges the traditional approach to Adam Smith and is the first contribution to the solution of a long standing debate making it essential reading for anyone wanting to understand the moral philosophy political economy and utopian thought of Adam Smith The Theosophist ,1900 The Bookman ,1892

immediacy is the main theme of Immediacy and Reflection in Kierkegaard's Thought The book contains contributions authored by a number of well known Kierkegaard scholars Kierkegaard s theory of the existence spheres of life provides a first viewpoint on the interplay of immediacy and reflection Here the philosophical and pseudonymous writings are the main subject of research If on the other hand one pays a closer look at the significance of a second immediacy for a religious attitude to life The religious discourses come into play when the possibility of a second immediacy is taken into consideration In conclusion the theme of immediacy and reflection is connected to some important trends in the modern and contemporary era On the one hand it is linked to the philosophical influences Kierkegaard underwent e g from Hegel on the other hand Kierkegaard is confronted with later thinkers Heidegger in particular Adam Smith Eric Schliesser, 2017 Adam Smith was a famous economist and moral philosopher This book treats Smith also as a systematic philosopher with a distinct epistemology an original theory of the passions and a surprising philosophy mind The book argues that there is a close moral connection between Smith's systematic thought and his policy recommendations Representations of Emotions Jürgen The Psychology of Gratitude Robert A. Emmons, Michael E. McCullough, 2004-02-26 Gratitude like other positive emotions has inspired many theological and philosophical writings but it has inspired very little vigorous empirical research In an effort to remedy this oversight this volume brings together prominent scientists from various disciplines to examine what has become known as the most neglected emotion The volume begins with the historical philosophical and theoretical foundations of gratitude then presents the current research perspectives from social personality and developmental psychology as well as from primatology anthropology and biology The volume also includes a comprehensive annotated bibliography of research on gratitude This work contributes a great deal to the growing positive psychology initiative and to the scientific investigation of positive human emotions It will be an invaluable resource for researchers and students in social personality and developmental clinical and health psychology as well as to sociologists and cultural anthropologists History of Ethics Daniel Star, Roger Crisp, 2019-04-08 Is there an objective moral standard that applies to all our actions To what extent should I sacrifice my own interests for the sake of others How might philosophers of the past help us think about contemporary ethical problems As the most recent addition to the Blackwell Readings in Philosophy series History of Ethics Essential Readings with Commentary brings together rich and varied excerpts of canonical work and contemporary scholarship to span the history of Western moral philosophy in one volume Editors Star and Crisp noted scholars in their fields expertly introduce the readings to illuminate the main philosophical ideas and arguments in each selection and connect them to broader themes These detailed and incisive editorial commentaries make the primary source texts accessible to students while guiding them chronologically through the history of Western ethics Structured around a thematic table of contents divided into three distinct sections History of Ethics charts patterns in the development of ethical thought across time to highlight connections between intellectual movements Selections range from the work of well known

figures such as Plato Aristotle Nietzsche and Mill to the work of philosophers often overlooked by such anthologies including Butler Smith Sidgwick Anscombe Foot and Frankena Star and Crisp skillfully arrange the collection to connect readings to contemporary issues and interests by featuring examples such as Aquinas on self defense and the doctrine of double effect Kant on virtue and Mill s The Subjection of Women Written for students and scholars of ethics History of Ethics is a comprehensive collection of readings with expert editorial commentary that curates the most important and influential work in the history of ethics in the Western world
