Reflecting Fires Hc 2001:

Around the Sacred Fire J. Treat, 2016-04-30 Around the Sacred Fire is a compelling cultural history of intertribal activism centered on the Indian Ecumenical Conference an influential movement among native people in Canada and the U S during the Red Power era Founded in 1969 the Conference began as an attempt at organizing grassroots spiritual leaders who were concerned about the conflict between tribal and Christian traditions throughout Indian country By the mid seventies thousands of people were gathering each summer in the foothills of the Rockies where they participated in weeklong encampments promoting spiritual revitalization and religious self determination Most historical overviews of native affairs in the sixties and seventies emphasize the prominence of the American Indian Movement and the impact of highly publicized confrontations such as the Northwest Coast fish ins the Alcatraz occupation and events at Wounded Knee The Indian Ecumenical Conference played a central role in stimulating cultural revival among native people partly because Conference leaders strategized for social change in ways that differed from the militant groups Drawing on archival records published accounts oral histories and field research James Treat has written the first comprehensive study of this important but overlooked effort at postcolonial interreligious dialogue Coal and Peat Fires: A Global Perspective Glenn B.

Rubinstein, 2015-11-17 The international community increasingly responds to civil wars humanitarian crises and other intrastate conflicts through the instrument of UN peacekeeping Nearly all of these interventions take place in non Western areas and involve interactions among militaries and nongovernmental organizations from all around the globe In this wide ranging book Rubinstein draws on decades of his own research on peacekeeping and on other current and historical cases to develop a broad understanding of the roles that culture plays in peacekeeping s success or failure Peacekeeping under Fire shows that cultural considerations are key elements at all levels of peacekeeping operations Culture influences what happens between peacekeepers and local populations how military and nongovernmental organizations interact and even how missions are planned and authorized Peacekeeping under Fire analyzes how political symbolism and ritual are critical to peacekeeping and demonstrates how questions of power identity and political perception emerge from the cultural context of peacekeeping *Yearbook of International Humanitarian Law - 2001* Avril McDonald, John Dugard, William

Fenrick, Hans-Peter Gasser, Christopher Greenwood, Hortensia Gutierrez Posse, 2011-01-07 The defining moments of 2001 the terrorist attacks of September 11 against the United States of America marked a turning point in international law and relations. By their scale and audaciousness overnight they helped to propel the issue of international terrorism to the top of the international security agenda and particularly that of the USA with consequences for many branches of international law including the jus ad bellum, the jus in bello, international law relating to terrorism, international human rights law and international criminal law that were just beginning to be felt as the year closed. The September 11 attacks were immediately characterised by the United States as an act of war, an armed attack on such a scale as to constitute an armed conflict. Its immediate response was to declare a so-called Global War on Terrorism. Avowedly acting in self-defense, on 7 October the US launched armed attacks against Afghanistan, not because Afghanistan was considered to be legally responsible for the September 11 attacks but for harbouring and refusing to surrender members of Al Qaeda, including its leader Osama Bin Laden, and refusing to dismantle terrorist training camps. Although the main target of the attacks was Al Qaeda, the armed conflict that ensued was an international armed conflict between the US and its allies and the state of Afghanistan, notwithstanding that the US never recognised the Taliban as the government of Afghanistan. **Natural Areas Journal**, 2002 An Introduction to Fire
