The Other Person in the Picture Philip Walker Jacobs, 2022-09-14 In this thought provoking and beautifully illustrated volume Jacobs invites us to reconsider the significance of Joseph of Nazareth and the role and influence he had in the life of Jesus Relying on a careful reading of Scripture and recent archaeological studies he challenges the historic and contemporary assumptions of those who have sought through their writing and art to marginalize Joseph and his importance in Christian history and the life of the church Recognizing that Joseph is often minimized or left out of religious and cultural representations of the holy family in plays and in Christmas cards he reminds us that like Mary Joseph was chosen by God to care teach and shape the one who would bring salvation and hope to the world In the process Jacobs encourages us to see Joseph as Scripture presents him as believer dreamer prayer protector teacher husband and father and as more than just the other person in the picture

Feelings Transformed Dominik Perler, 2018-09-21 What are emotions How do they arise How do they relate to other mental and bodily states And what is their specific structure The book discusses these questions focusing on medieval and early modern theories It looks at a great number of authors ranging from Aquinas to Spinoza and shows that they gave

sophisticated accounts of human emotions They were particularly interested in the way we cope with our emotions how we can change or perhaps even overcome them To answer this question medieval and early modern philosophers looked at the cognitive content of emotions for they were all convinced that we need to work on that content if we want to change them The book therefore pays particular attention to the intimate relationship between theories of emotions and theories of cognition Moreover the book emphasizes the importance of the metaphysical framework for medieval and early modern theories of emotions It was a transformation of this framework that made new theories possible Starting with an analysis of the Aristotelian framework the book then looks at skeptical dualist and monist frameworks and it examines how the nature of emotions was explained in each of them The discussion also takes the theological and scientific context into account for changes in this context quite often gave rise to new problems problems that concerned the love of God the joy of resurrected souls or the fear arising in a soul that is present in a body All of these problems are examined on the basis of close textual analysis
