

A. FAMILY

Family for me is the most significant social institution that shapes an individual's social identity. Before a child becomes a citizen of the country, he/she will first become a member of a small community called family, where everything will start, where his/her first lessons will be taught, and his/her first roles will be portrayed. Majority of a person's identity is mold by this small community. That is why I believe that the actions and social behaviors of a person in the society reflect on the family he/she came from. How people act in a larger environment is always greatly affected by how they are being treated in a small environment. A micro action creates a macro effect. If the family teaches its members how to be responsible, then the society will be lived by a responsible one. Family influences its member's values and social identity that is why family should always be there all throughout the journey of every individual. However, it will always come to a time when each member, specifically the children, will leave the house, where this family lived and shared happy and sad moments, to look for opportunities, live by their own, and build their own family. But, are leaving house and living by their own also means forgetting the family and not minding anymore the values they taught?

After reading the article about Mrs. Maniago's Family, I realized that being a family will not stop from being a family once its members leave the house and chose to live on their own. In the case of Mrs. Maniago, she was able to make her family intact even though his husband passed away and her children reside and work far from her. Because no distance can break the relationship of a solid and a strong family. When the children of Mrs. Maniago left the house, was also the moment they brought with them the values of and the responsibility for their family. A family cannot only be defined as a group living in the same house or a group sharing the same surname rather a group of people sharing the same memories and sharing the

The Friend, 1879
Towards a Community of Antiracist Praxis in Higher Education
 Jie Y. Park, Laurie Ross, 2025-08-22
 Weaving together theory, research, and practice, this edited volume provides rich accounts of teaching from faculty at a predominantly white institution who participated in a community of antiracist praxis: a cycle of action and reflection on pedagogy. The chapters highlight the ways in which faculty can transform classrooms and colorblind discourses in higher education. They center the voices of faculty who are on the ground and grappling with their own positionality and academic training to present an antiracist pedagogy that emphasizes student agency and authority, exposes whiteness in course content and inquiry processes, and introduces students to new ways of knowing that are racially just. Each contributing author offers principles, teaching activities, and resources that readers can apply in their own disciplinary or interdisciplinary contexts. Written for faculty, graduate students, administrators, and pedagogy specialists in higher education, this book urges readers who work in higher education to action and paves a path forward through the creation of communities of antiracist praxis.
