Rogues and Scholars James Stourton, 2025-02-04 A colorful and fast moving account of how postwar London became the global center of the art market a story of Impressionist masterpieces dodgy dealers and ground breaking financial transactions On October 15 1958 Sotheby's of Bond Street staged an event sale of seven Impressionist paintings belonging to Erwin Goldschmidt three Manets two Cezannes one Van Gogh and a Renoir Kirk Douglas Anthony Quinn and Somerset Maugham were there as celebrity guests The seven lots went for 781 000 at the time the highest price for a single sale The event established London as the world center of the art market and Sotheby's as an international auction house It began a shift in power from the dealers to the auctioneers and paved the way for Impressionist paintings to dominate the market for the next forty years Sotheby's had pulled off a massive coup by capturing the Impressionist market from Paris and New York and now began its inexorable rise opening offices all over the world A huge expansion of the market followed accompanied by rocketing prices colorful scandals and legal dramas London transformed itself from a fusty place of old master painting sales to a revitalized center of contemporary art crowned by the opening of Tate Modern in 2000 The Tate Modern successfully united new and mostly foreign money in London with the art world offering its patrons a ready made sophisticated social milieu alongside dealers in contemporary art In a vibrant and briskly paced style James Stourton tells the story of the London art market from the immediate postwar period to the turn of the millennium While Sotheby's is the lynchpin of this story Stourton populates his narrative with a glorious rogue's gallery of eccentric scholars clever amateurs brilliant emigrants and stylish grandees with a flair for the deal **Analytical Psychology in Exile** C. G. Jung, Erich Neumann, 2025-07-22 Two giants of twentieth century psychology in dialogue C G Jung and Erich Neumann first met in 1933 at a seminar Jung was conducting in Berlin Jung was fifty seven years old and internationally acclaimed for his own brand of psychotherapy Neumann twenty eight had just finished his studies in medicine The two men struck up a correspondence that would

continue until Neumann's death in 1960. A lifelong Zionist, Neumann fled Nazi Germany with his family and settled in Palestine in 1934 where he would become the founding father of analytical psychology in the future state of Israel. Presented here in English for the first time are letters that provide a rare look at the development of Jung's psychological theories from the 1930s onward as well as the emerging self-confidence of another towering twentieth-century intellectual who was often described as Jung's most talented student. Neumann was one of the few correspondence partners of Jung's who was able to challenge him intellectually and personally. These letters shed light on not only Jung's political attitude toward Nazi Germany, his alleged anti-Semitism, and his psychological theory of fascism, but also his understanding of Jewish psychology and mysticism. They affirm Neumann's importance as a leading psychologist of his time and paint a fascinating picture of the psychological impact of immigration on the German Jewish intellectuals who settled in Palestine and helped to create the state of Israel. Featuring Martin Liebscher's authoritative introduction and annotations, this volume documents one of the most important intellectual relationships in the history of analytical psychology. **Holy Digital Grail** Michelle R.

Warren, 2022-03-29 Medieval books that survive today have been through a lot: singed by fire, mottled by mold, eaten by insects, annotated by readers, cut into fragments, or damaged through well-intentioned preservation efforts. In this book, Michelle Warren tells the story of one such manuscript: an Arthurian romance with textual origins in twelfth-century England, now diffused across the twenty-first-century internet. This trajectory has been propelled by a succession of technologies: from paper manufacture to printing to computers. Together, they have made literary history itself a cultural technology indebted to colonial capitalism. Bringing to bear media theory, medieval literary studies, and book history, Warren shows how digital infrastructures change texts and books, even very old ones. In the process, she uncovers a practice of tech medievalism that weaves through the history of computing since the mid-twentieth century: metaphors indebted to King Arthur and the Holy Grail are integral to some of the technologies that now sustain medieval books on the internet. This infrastructural approach to book history illuminates how the meaning of literature is made by many people besides canonical authors, translators, scribes, patrons, readers, collectors, librarians, cataloguers, editors, photographers, software programmers, and many more. Situated at the intersections of the digital humanities, library sciences, literary history, and book history, *Holy Digital Grail* offers new ways to conceptualize authorship, canon formation, and the definition of a book. Carl Gustav Jung J.

Sherry, 2010-10-25 Carl Gustav Jung has always been a popular but never a fashionable thinker. His ground-breaking theories about dream interpretation and psychological types have often been overshadowed by allegations that he was anti-Semitic and a Nazi sympathizer. Most accounts have unfortunately been marred by factual errors and quotes taken out of context. This has been due to the often partisan sympathies of those who have written about him. This book provides a more accurate and comprehensive account of Jung's controversial opinions about art, politics, and race. *Death of a Racehorse* Katie Bo
