Counterpoints Stephanie Tara Schwartz, May Telmissany, 2010-03-08 Revolving around the theme of counterpoint extensively used by Edward Said as the interplay of diverse ideas and discrepant experiences this book aims to explore Said s contribution to the fields of comparative literature literary criticism postcolonial theory exilic and transnational studies and socio political thought among many others Overshadowed by his legitimate political positions in support to the Palestinian cause and at odds with Islamophobic hostilities Said s intellectual achievements in the fields of humanities and philosophical thinking should equally be acknowledged and celebrated Said articulates his notion of counterpoints through a vivid description of the composition of Western classical music In the counterpoint of Western classical music various themes play off one another with only a provisional privilege being given to any particular one yet in the resulting polyphony there is concert and order an organized interplay that derives from the themes not from a rigorous melodic or formal principle outside the work This book pays tribute to Said s contrapuntal methodology as well as to his academic and humanistic legacy

Edward Said Adel Iskandar, Adel Iskander, Hakem Rustom, 2010 This indispensable volume a comprehensive and wide ranging resource on Edward Said s life and work spans his broad legacy both within and beyond the academy The book brings together contributions from 31 luminaries to engage

Said's provocative ideas **Postcolonial Theory and Autobiography** David Huddart, 2008-04-18 Cultural theory has often been criticized for covert Eurocentric and universalist tendencies. Its concepts and ideas are implicitly applicable to everyone, ironing over any individuality or cultural difference. Postcolonial theory has challenged these limitations of cultural theory, and Postcolonial Theory and Autobiography addresses the central challenge posed by its autobiographical turn. Despite the fact that autobiography is frequently dismissed for its Western masculine bias, David Huddart argues for its continued relevance as a central explanatory category in understanding postcolonial theory and its relation to subjectivity. Focusing on the influence of post-structuralist theory on postcolonial theory and vice versa, this study suggests that autobiography constitutes a general philosophical resistance to universal concepts and theories. Offering a fresh perspective on familiar critical figures like Edward W. Said and Gayatri Chakravorty Spivak by putting them in the context of readings of the work of Jacques Derrida, Gilles Deleuze, and Alain Badiou, this book relates the theory of autobiography to expressions of new universalisms that together with postcolonial theory rethink and extend norms of experience, investigation, and knowledge.

Critical Theory Amirhosein Khandizaji, Wolfgang Iser, 2025-07-01 Critical Theory: The Last Stand for Emancipation gathers leading voices in contemporary critical thought to reassert the enduring relevance of a tradition forged in resistance. From the early insights of the Frankfurt School to its intersections with decolonial, queer, ecological, and postcolonial critiques, this volume maps the evolving terrain of a radical project devoted to unveiling domination and envisioning emancipation. At a time when neoliberal orthodoxy undermines critical scholarship and authoritarian populism distorts public discourse, this book refuses resignation. It offers instead a lucid and urgent intervention: one that confronts the alienations of digital life, the legacies of colonial violence, and the manufactured chaos of late capitalism. With essays ranging from genealogy to praxis, from epistemology to affect, this collection insists that critical theory is not an academic relic but a living practice of resistance. Whether reckoning with the failures of progress or reclaiming hope as a political act, *Critical Theory: The Last Stand for Emancipation* is a call to think deeply, act ethically, and remember that critique remains a vital tool in the struggle for a more just world.

Sanctuary Nicole A. Waligora-Davis, 2011-03-01 In 2005, Hurricane Katrina and its aftermath starkly revealed the continued racial polarization of America. Disproportionately impacted by the ravages of the storm, displaced Black victims were often characterized by the media as refugees. The characterization was wrong-headed and yet deeply revealing. *Sanctuary: African Americans and Empire* traces the long history of this and related terms like alien and foreign, a rhetorical shorthand that has shortchanged Black America for over 250 years. In tracing the language and politics that have informed debates about African American citizenship, *Sanctuary* in effect illustrates the historical paradox of African American subjecthood while frequently the target of legislation: slave law, the Black Codes, and Jim Crow. Blacks seldom benefited from the actions of the state. Blackness helped to define social, cultural, and legal aspects of American citizenship in a manner that excluded Black people themselves. They have been treated rather as foreigners in their home.

country African American civil rights efforts worked to change this Activists and intellectuals demanded equality but they were often fighting for something even more fundamental the recognition that blacks were in fact human beings As citizenship forced acknowledgement of the humanity of African Americans it thus became a gateway to both civil and human rights Waligora Davis shows how artists like Langston Hughes underscored the power of language to define political realities how critics like W E B Du Bois imagined democratic political strategies and how they and other public figures have used their writing as a forum to challenge the bankruptcy of a social economy in which the value of human life is predicated on race and civil identity

In the Light of Medieval Spain S. Doubleday, D. Coleman, 2008-08-04 This volume brings together a team of leading scholars in Spanish studies to interrogate the contemporary significance of the medieval past offering a counterbalance to intellectual withdrawal from urgent public debates

Postcolonial Encounters in International Relations Alina Sajed, 2013-07-18 *Postcolonial Encounters in International Relations* examines the social and cultural aspects of the political violence that underpinned the French colonial project in the Maghreb and the multi layered postcolonial realities that ensued This book explores the reality of the lives of North African migrants in postcolonial France with a particular focus on their access to political entitlements such as citizenship and rights This reality is complicated even further by complex practices of memory undertaken by Franco Maghrebian intellectuals who negotiate in their writings between the violent memory of the French colonial project in the Maghreb and the contemporary conundrums of postcolonial migration The book pursues thus the politics of post colonial memory by tracing its representations in literary political and visual narratives belonging to various Franco Maghrebian intellectuals who see themselves as living and writing between France and the Maghreb By adopting a postcolonial perspective a perspective quite marginal in *International Relations* the book investigates a different international relations which emerges via narratives of migration A postcolonial standpoint is instrumental in understanding the relations between class gender and race which interrogate and reflect more generally on the shared post colonial violence between North Africa and France and on the politics of mediating violence through complex practices of memory

Shakespeare and the Cultural Colonization of Ireland Robin Bates, 2008-01-11 Focusing on plays *Richard II* *Henry V* and *Hamlet* which appear prominently in the writing of the Irish nationalist movement of the early twentieth century this study explores how Irish writers such as Sean O Casey Samuel Beckett W B Yeats G B Shaw James Joyce and Seamus Heaney resisted English cultural colonization through a combination of reappropriation and critique of Shakespeare's work

Paradoxical Citizenship Silvia Nagy-Zekmi, 2008-01-01 In a collection of intriguing essays on the work of Edward Said internationally recognized scholars pay homage to the late critic by addressing many aspects of his oeuvre including his breakthrough *Orientalism* the role of the intellectual the Question of Palestine and finally his dramatic memoir *Out of Place* This volume is a useful contribution for classroom use as well as recreational reading for those interested in the work of this controversial thinker

Democratic Multiplicity James Tully, Keith Cherry, Fonna Forman, Jeanne Morefield, Joshua

Nichols, Pablo Ouziel, David Owen, Oliver Schmidtke, 2022-08-04 Discloses the radical diversity of the field of democracy that is overlooked by mainstream political science

The New Yoder Peter Dula, Chris K. Huebner, 2010-01-01 The work of John Howard Yoder has become increasingly influential in recent years Moreover it is gaining influence in some surprising places No longer restricted to the world of theological ethicists and Mennonites Yoder has been discovered as a refreshing voice by scholars working in many other fields For thirty five years Yoder was known primarily as an articulate defender of Christian pacifism against a theological ethics guild dominated by the Troeltschian assumptions reflected in the work of Walter Rauschenbusch and Reinhold and Richard Niebuhr But in the last decade there has been a clearly identifiable shift in direction A new generation of scholars has begun reading Yoder alongside figures most often associated with post structuralism neo Nietzscheanism and post colonialism resulting in original and productive new readings of his work At the same time scholars from outside of theology and ethics departments indeed outside of Christianity itself like Romand Coles and Daniel Boyarin have discovered in Yoder a significant conversation partner for their own work This volume collects some of the best of those essays in hope of encouraging more such work from readers of Yoder and in hopes of attracting others to his important work

Writing Diaspora in the West P. McCarthy, 2009-02-17 In this bold intervention into the understanding of the diasporic experience within cultural studies McCarthy challenges a critical position emergent over the last thirty years what he calls the new marginalism He confronts the liberal orthodoxies that prevail in this area exposing contradictions in the thinking of its major theorists

Muslim Identities and Modernity Maha Habib, 2016-03-16 What have the concepts of modernity and secularization meant for Islamic tradition culture and society How have the discourses which surround all of these issues influenced Muslim self perception and individual identity There have been many attempts to describe and analyse the encounter between Islam and modernity in the Middle East but few have been able so effectively to explore the impact this has on the idea and reality of religious identity and individual religiosity Maha F Habib examines modernity from this angle offering socio cultural philosophical and literary perspectives She assesses how this is played out in Egypt analysing cultural changes in the country through its intellectual thought and literature from the nineteenth century to the present day Her references to the works of Muhammad Abdu Muhammad Husayn Haykal Abbas Mahmud al Aqqad Naguib Mahfouz Alaa al Aswany and Salwa Bakr reveal contemporary issues and concerns which will interest those researching the cultural and social milieu of modern Egypt

Asian American Literature in Transition, 1965-1996: Volume 3 Asha Nadkarni, Cathy J. Schlund-Vials, 2021-06-17 Asian American Literature in Transition Volume Three 1965 1996 offers a multidisciplinary perspective on the political and aesthetic stakes of what is now recognizable as an Asian American literary canon It takes as its central focus the connections among literature history and migration exploring how the formation of Asian American literary studies is necessarily inflected by demographic changes student activism the institutionalization of Asian American studies within the U S academy U S foreign policy specifically the Cold War and

conflicts in Southeast Asia and the emergence of diaspora and transnationalism as important critical frames Moving through sections that consider migration and identity aesthetics and politics canon formation and transnationalism and diaspora this volume tracks predominant themes within Asian American literature to interrogate an ever evolving field It features nineteen original essays by leading scholars and is accessible to beginners in the field and more advanced researchers alike

Ethnic Literatures and Transnationalism Aparajita Nanda, 2014-11-13 As new comparative perspectives on race and ethnicity open up scholars are identifying and exploring fresh topics and questions in an effort to reconceptualize ethnic studies and draw attention to nation based approaches that may have previously been ignored This volume by recognizing the complexity of cultural production in both its diasporic and national contexts seeks a nuanced critical approach in order to look ahead to the future of transnational literary studies The majority of the chapters written by literary and ethnic studies scholars analyze ethnic literatures of the United States which given the nation's history of slavery and immigration form an integral part of mainstream American literature today While the primary focus is literary the chapters analyze their specific topics from perspectives drawn from several disciplines including cultural studies and history This book is an exciting and insightful resource for scholars with interests in transnationalism American literature and ethnic studies *Geographies of Liberation* Alex Lubin, 2014 *Geographies of Liberation* The Making of an Afro Arab Political Imaginary
