Reflections On Inequality:

Reflections on Inequality Stanislav Andreski, 2023-03-31 Originally published in 1975 this anthology of essays focusses on the historical dimension of class inequality which has long concerned both sociologists and social philosophers but has often been neglected in literature Although Marx is the first name to come to mind when social inequality and class struggles are mentioned most of the authors included here precede him Each analyses and discusses the problems of class conflict as they understood them in the light of their own times Taken together these writers treat stratification as essentially a pecking order where position is determined by relative power a notion which subsumes rather than contradicts the economic interpretation of social inequality because wealth is a form of power The relation between the views of these authors and the well known theory of Marx is discussed in the Introduction

Trekking through the Lens of Race: Uncovering the Intersections of Culture and Identity in a Universe Far, Far Away Pasquale De Marco, 2025-07-15 In a universe where humanity has boldly ventured into the final frontier Star Trek has emerged as a cultural phenomenon that has captivated audiences for decades Beyond its captivating storylines and iconic characters Star Trek has also been a mirror to society reflecting and shaping our understanding of race identity and the pursuit of a just and equitable future This book embarks on a journey through the Star Trek universe exploring the intricate tapestry of race and its profound impact on the show's narrative and cultural significance Through a critical and historical lens we delve into the portrayal of race in the original series subsequent spin offs feature films and the vibrant fan community We uncover the ways in which Star Trek has both challenged and reinforced societal norms examining how the

show s depiction of race has reflected and influenced cultural attitudes towards diversity inclusion and equality By analyzing iconic characters memorable episodes and significant moments in Star Trek history we shed light on the show s enduring legacy and its role in shaping our understanding of race This book is not merely an academic treatise it is an invitation to engage in a thoughtful and provocative dialogue about race identity and the power of storytelling Whether you are a lifelong Star Trek fan a student of cultural studies or simply someone interested in exploring the complexities of race in popular culture this book offers a captivating journey through the final frontier of racial representation Join us as we explore the intersections of race culture and identity in the Star Trek universe gaining a deeper understanding of how this iconic franchise has shaped our perceptions of race and the pursuit of a better future If you like this book write a review *Critical Reflection and the Foreign Language Classroom* Terry Osborn,2021-05-01 Twenty years ago this book introduced pre service and in service foreign language teachers to the basic concepts of critical educational study as applied to foreign language education in the United States Since its initial publication teachers now commonly known as world language educators are better prepared to understand issues of power in relation to for example language variety language status and language education Indeed much recent attention has been focused on critical approaches to language education including teaching for social justice The author addresses issues such as the supposed failure of foreign language education the educational filter role played by language classes the concept of foreignness as seen in national standards language curricula and textbooks and the implications of these issues in terms of power relationships and cultural mediation both in and out of the classroom The reader is encouraged to analyze the forms of cultural struggle that can be found within the world language classrooms of the United States including the likely impact those struggles have on members of the dominant and subordinate cultures Two decades later critical reflection continues to require these skills The Course Reflection Project Nicole Schonemann,Emily Metzgar,Andrew Libby,2015-05-01 Service learning is entering a post initiatory phase At tertiary institutions of all types and sizes service learning programs are common and service learning requirements for graduation are growing in popularity Taken together alongside continued faculty interest in effective teaching these factors have raised the visibility and popularity of service learning Now the greater need in service learning is not to prove the need for or efficacy of service learning but to turn the focus squarely back on practice Following established best practice is not enough instructors also need to reflect on how this fits within the specific context and application of each unique course and service learning partnership While there are many excellent resources that detail best practice and showcase exemplary service learning courses faculty reflection and course revision often goes unmentioned In response to the lack of attention on the role of reflection and course revision we convened groups of faculty from a variety of disciplines to reflect deeply on their courses paying specific attention to obstacles and challenges These conversations were converted to articles for this edited collection each chapter representing the process of reflection and revision and serving as a guide to develop effective

practice in varied curricular contexts This text contributes to the body of literature on service learning in a unique and practical manner Faculty teaching or interested in teaching service learning classes would benefit from this text as well as university administrators and community service directors involved in service learning at a programmatic and institutional level This book should be marketed to faculty teaching disciplinary service learning classes and service learning pedagogy classes and administrative offices involved in service learning This could be a supplementary text for graduate level pedagogy courses Higher education institutional libraries would benefit from this text as well as the national and state campus compact offices
