Reflections Of New York:

Theological Reflections at the Boundaries Paul O. Ingram, 2011-11-04 The interdependence of boundary questions and the experience of cognitive dissonance reveal that knowledge in all fields of inquiry is always incomplete and tentative. The issues are particularly acute for Christian theological reflection. Ingram illustrates the importance of boundary questions and cognitive dissonance as a means of creatively transforming contemporary Christian theological reflection through dialogue with the natural sciences and the world's religions, particularly Buddhism, filtered through the lenses of Whiteheadian process philosophy. *Theological Reflections* Elaine Graham, 2013-01-08 Following the same topics as the *Methods* volume, this reader is aimed at postgraduates and academics interested in the expanding volume of work and research surrounding theological reflection. Brought together in this second volume are materials relating to the same topics and dealt with by the same divisions, descriptions and features. The identified models being: The Living Human Document, Constructive Narrative Theology, Canonical Narrative Theology, Corporate Theological Reflection, The Correlative Method, Performative or Praxis Theological Reflection, and Theology in the Vernacular or local theologies. Volume one described and identified the various models, whilst this new second volume fleshes out these descriptions by allowing the reader access to a variety of sources and examples of writings within these models. **Practicing Critical Reflection in Social Care**

Organisations Jan Fook, 2021-09-09 This book explores concrete examples of different strategies and activities aimed at creating and embedding critically reflective learning and working environments within organisations whose prime function is social care. Critical reflection has long been recommended as a general professional skill and is a core component of the practice capabilities in social work in countries across the Western world. However, despite unequivocal support for it in social work education, sustaining critical reflection within organisations as both an individual and collective practice, supported by organisational cultures, is problematic. With contributions from social work practitioners and educators who have sought to embed critical reflection into broader activities and cultures within their organizations, the book addresses common features of critical reflection and challenges and benefits in specific case studies. This book will inspire and develop new thinking and vision about being critically reflective in organisations and facilitate efforts to improve the learning and working experience in addition to that of service quality and delivery. It will be required reading for all undergraduate and postgraduate social work modules focusing on management, leadership, organizational change, and professional education.

politically neutralize especially the victims of abuse in need of reconciliation and repair in the first place Drawing on a wide range of case studies from South Africa to Northern Ireland Bosnia Rwanda and Australia the authors argue for an alternative approach to post conflict thought In so doing they find inspiration in the vision of politics rendered by new pluralist new realist and especially agonistic political theory Featuring contributions from both up and coming and well established scholars this work is essential reading for all those with an interest in restorative justice conflict resolution and peace studies

Divine Violence James Martel, 2013-03-01 Divine Violence looks at the question of political theology and its connection to sovereignty It argues that the practice of sovereignty reflects a Christian eschatology one that proves very hard to overcome even by left thinkers such as Arendt and Derrida who are very critical of it These authors fall into a trap described by Carl Schmitt whereby one is given a false choice between anarchy and sovereignty both of which are bound within and return us to the same eschatological envelope In Divine Violence the author argues that Benjamin supplies the correct political theology to help these thinkers He shows how to avoid trying to get rid of sovereignty the anarchist move that Schmitt tells us forces us to decide against the decision and instead to seek to de center and dislocate sovereignty so that its mythological function is disturbed He does this with the aid of divine violence a messianic force that comes into the world to undo its own mythology leaving nothing in its wake Such a move clears the myths of sovereignty away turning us to our own responsibility in the process In that way the author argues Benjamin succeeds in producing an anarchism that is not bound by Schmitt's trap but which is sustained even while we remain dazzled by the myths of sovereignty that structure our world Divine Violence will be of interest to students of political theory to those with an interest in political theology philosophy and deconstruction and to those who are interested in thinking about some of the dilemmas that the left finds itself in today

Maps of Empire Kyle Wanberg, 2020-07-09 During the political upheavals of the mid twentieth century as imperialism was unraveling on a grand scale writers from colonized and occupied spaces questioned the necessity and ethics of their histories As empire wrote back to the self ordained centres of the world modes of representation underwent a transformation Exploring novels and diverse forms of literature from regions in West Africa the Middle East and Indigenous America Maps of Empire considers how writers struggle with the unstable boundaries generated by colonial projects and their dissolution The literary spaces covered in the

book form imaginary states or reimagine actual cartographies and identities sanctioned under empire The works examined in Maps of Empire through their inner representations and their outer histories of reception inspire and provoke us to reconsider boundaries
