Nash, Steven R. Holen, 2011-05-18 The hectic front of the Denver Museum of Nature Science hides an unseen back of the museum that is also bustling Less than 1 percent of the museum's collections are on display at any given time and the

Department of Anthropology alone cares for more than 50 000 objects from every corner of the globe not normally available to the public This lavishly illustrated book presents and celebrates the Denver Museum of Nature Science's exceptional anthropology collections for the first time The book presents 123 full color images to highlight the museum s cultural treasures Selected for their individual beauty historic value and cultural meaning these objects connect different places times and people From the mammoth hunters of the Plains to the first American pioneer settlers to the flourishing Hispanic and Asian diasporas in downtown Denver the Rocky Mountain region has been home to a breathtaking array of cultures Many objects tell this story of the Rocky Mountains fascinating and complex past whereas others serve to bring enigmatic corners of the globe to modern day Denver Crossroads of Culture serves as a behind the scenes tour of the museum s anthropology collections All the royalties from this publication will benefit the collections of the Denver Museum of Nature Science's Department of Anthropology The Paradox of Relevance Carol J. Greenhouse, 2011-05-05 Selected by Choice magazine as an Outstanding Academic Title Between 1990 and 1996 the U S Congress passed market based reforms in the areas of civil rights welfare and immigration in a series of major legislative initiatives. These were announced as curbs on excessive rights and as correctives to a culture of dependency among the urban poor stock images of racial and cultural minorities that circulated well beyond Congress But those images did not circulate unchallenged even after congressional opposition failed In The Paradox of Relevance Carol J Greenhouse provides a political and literary history of the anthropology of U S cities in the 1990s where below the radar New Deal liberalism with its iconic bond between society and security continued to thrive The Paradox of Relevance opens in the midst of anthropology s so called postmodern crisis and the appeal to relevance as a basis for reconciliation and renewal The search for relevance leads outward to the major federal legislation of the 1990s and the galvanic political tensions between rights and market based reforms Anthropologists efforts to inform those debates through relevant ethnography were highly patterned revealing the imprint of political tensions in shaping their works central questions and themes as well as their organization narrative techniques and descriptive practices In that sense federal discourse dominates the works demonstrations of ethnography s relevance however the authors simultaneously resist that dominance through innovations in their own literariness in particular drawing on diasporic fiction and sociolegal studies where these articulate more agentive meanings of identity and difference The paradox of relevance emerges with the realization that in the context of the times affirming the relevance of ethnography as value neutral science required the textual practices of advocacy and art Handbook of Research in the Social Foundations of Education Steven Tozer, Bernardo P. Gallegos, Annette Henry, Mary Bushnell Greiner, Paula Groves Price, 2011-07-05 This groundbreaking volume helps readers understand the history evolution and significance of this wide ranging often misunderstood and increasingly important field of study **Anthropology at the Edge** Ian Prattis, 1997 Symbolic process myth science postmodernism and the environment are skillfully woven together in 13 essays that reflect the timbre of the times in terms of

current issues in anthropology philosophy and religion The spectre of consciousness transformation provides a common underlying theme and Prattis provides a novel perspective on who we are where did we come from where are we going The current furor over the nature of science postmodernism and symbolic processes in society is the driving force behind this collection of essays Contents PART I Beyond Structuralism Man and Metaphor Parsifal and Semiotic Structuralism PART II The Poetic Turn and Postmodern Reflexivity Dialectics and Experience in Fieldwork Reflections as Myth Reflexive Anthropology with D Blair Opening Ourselves up to the Voyage of Anthropological Practice PART III Process and Form Celtic Festivals and Bilingualism Policy The Barra Feis Sacred Dance and Cultural Bridges Death Breaths and Drivers The Phenomenology of Shamanic Experiences Metaphor Vibration and Form PART IV Paradigms Science and Sages a Small Matter of Paradigms PART V Gaia and the Environment Two Essays Issues of Inner Ecology Myth Meditation and Transformation of Consciousness About the Author Author Index Transdisciplinary Ethnography in India Rosa Maria Perez, Lina M. Fruzzetti, 2021-08-18 This book familiarises readers with a new way to treat the subject of gender foregrounding the real voices of women their experiences doing ethnographic work and their courage in sharing their stories publicly for the first time in the context of India A useful companion to more theory based anthropological studies the book connects ethnographic data to what eventually becomes theories formed from the field Chapters by women from a variety of disciplines Anthropology Literary and Translation studies Political Sciences transcend the academic boundaries between social sciences and humanities The book shows how the researchers navigate in the field write in ways that defy their academic life and work and call into question their narrative voice The book presents a space for women to reflect on their individual themes of research and at partially filling the vacuum mentioned above the silences of women s voices and expressions The experiences described in the chapters differ both along the divide of a native and a non native fieldworker and along different disciplinary fields but they share the experience of a long term fieldwork in India and the need to self reflect on the impact of this experience on the way the field is represented on the people encountered in the field on the way the field impacted on the fieldworker The book is a useful presentation of how female researchers act in the field as women and scholars Filling a gap in the existing literature of ethnographic research methods the book will be of interest to students and researchers interested in the fields of Gender Studies Social Work Sociology Anthropology and Asian Studies

Debating Authenticity Thomas Fillitz,A. Jamie Saris,2012-12-01 The longing for authenticity on an individual or collective level connects the search for external expressions to internal orientations What is largely referred to as production of authenticity is a reformulation of cultural values and norms within the ongoing process of modernity impacted by globalization and contemporary transnational cultural flows This collection interrogates the notion of authenticity from an anthropological point of view and considers authenticity in terms of how meaning is produced in and through discourses about authenticity Incorporating case studies from four continents the topics reach from art and colonialism to exoticism

primitivism film ritual and wilderness Some contributors emphasise the dichotomy between the academic use of the term and the one deployed in public spaces and political projects All however consider authenticity as something that can only be understood ethnographically and not as a simple characteristic or category used to distinguish some behaviors experiences or material things from other less authentic versions Reader's Index and Guide ,1913 Oxford University Gazette Delivering Development Edward R.
