Reflections On Biblical Histories A Revised Chron:

The Deuteronomistic History and the Book of Chronicles Raymond F. Person, Raymond F. Person (Jr.), 2010 This volume reexamines and reconstructs the relationship between the Deuteronomistic History and the book of Chronicles building on recent developments such as the Persian period dating of the Deuteronomistic History the contribution of oral traditional studies to understanding the production of biblical texts and the reassessment of Standard Biblical Hebrew and Late Biblical Hebrew These new perspectives challenge widely held understandings of the relationship between the two scribal works and strongly suggest that they were competing historiographies during the Persian period that nevertheless descended from a common source This new reconstruction leads to new readings of the literature Bible History Old Testament New Updated Edition Alfred Edersheim, 1994-09-01 In this enduring classic Alfred Edersheim explores the broad sweep of Old Testament history He brings to his work his immense learning and familiarity with Judaism as well as his love for Scripture and his desire for every Christian to know and understand the story of God's redemptive work in history This new edition of Edersheim's classic features the following improvements Entirely reset in a modern and easy to read typeface Complete and unabridged in one volume Arabic numbers replace roman numerals New maps to provide for richer understanding In writing it Bible History Old Testament I have primarily had in view those who teach and those who learn whether in the school or in the family But my scope has also been wider I have wished to furnish what may be useful for reading in the family what indeed may in some measure serve the place of a popular exposition of the sacred history More than this I hope it may likewise prove a book to put in the hands of students to show them what the Bible really teaches Alfred Edersheim **A history of the holy Bible, corrected and improved by G. Gleig** Thomas Stackhouse, 1817 **The Evangelical Magazine and Missionary Chronicle**, 1849 *Empirical Models Challenging Biblical Criticism* Raymond F. Person, Robert Rezetko, 2016-09-21 Cutting edge reflections on biblical text formation Empirical models based on ancient Near Eastern literature and variations between different textual traditions have been used to lend credibility to the identification of the sources behind biblical literature and the different editorial layers In this volume empirical models are used to critique the exaggerated results of identifying sources and editorial layers by demonstrating that even though much of ancient literature had such complex literary histories our methods are often inadequate for the task of precisely identifying sources and editorial layers The contributors are Maxine L Grossman Ben dicte Lemmelijn Alan Lenzi Sara J Milstein Raymond F Person Jr Robert Rezetko Stefan Schorch Julio Trebolle Barrera Ian Young and Joseph A Weeks Features Evidence that many ancient texts are composite texts with complex literary histories Ten essays and an introduction cover texts from Mesopotamia the Hebrew Bible the New Testament and the Dead Sea Scrolls The Religions of Ancient Israel Ziony Zevit, 2003-06-01 This is the most far reaching interdisciplinary investigation into the religion of ancient Israel ever attempted The author draws on textual readings archaeological and historical data and epigraphy to determine what is

known about the Israelite religions during the Iron Age 1200-586 BCE. The evidence is synthesized within the structure of an Israelite worldview and ethos involving kin, tribes, land, traditional ways and places of worship, and a national deity. Professor Zevit has originated this interpretive matrix through insights, ideas, and models developed in the academic study of religion and history within the context of the humanities. He is strikingly original, for instance, in his contention that much of the Psalter was composed in praise of deities other than Yahweh. Through his book, the author has set a precedent which should encourage dialogue and cooperative study between all ancient historians and archaeologists, but particularly between Iron Age archaeologists and biblical scholars. The work challenges many conclusions of previous scholarship about the nature of the Israelites' religion.

Reflection and Refraction Robert Rezetko, Timothy Henry Lim, W. Brian Aucker, 2007. This volume of thirty articles covering a wide range of subjects related to Old Testament study is written by colleagues, friends, and students of A. Graeme Auld to honour the occasion of his sixty-fifth birthday.

The Formation of the Hebrew Bible David M. Carr, 2011-10-12. In *The Formation of the Hebrew Bible* David Carr rethinks both the methods and historical orientation points for research into the growth of the Hebrew Bible into its present form. Building on his prior work *Writing on the Tablet of the Heart* (Oxford, 2005), he explores both the possibilities and limits of reconstruction of pre-stages of the Bible. The method he advocates is a methodologically modest investigation of those pre-stages utilizing criteria and models derived from his survey of documented examples of textual revision in the Ancient Near East. The result is a new picture of the formation of the Hebrew Bible with insights on the initial emergence of Hebrew literary textuality, the development of the first Hexateuch, and the final formation of the Hebrew Bible. Where some have advocated dating the bulk of the Hebrew Bible in a single period, whether relatively early Neo-Assyrian or late Persian or Hellenistic, Carr uncovers specific evidence that the Hebrew Bible contains texts dating across Israelite history, even the early pre-exilic period (10th-9th centuries). He traces the impact of Neo-Assyrian imperialism on eighth and seventh-century Israelite textuality. He uses studies of collective trauma to identify marks of the reshaping and collection of traditions in response to the destruction of Jerusalem and Babylonian exile. He develops a picture of varied Priestly reshaping of narrative and prophetic traditions in the Second Temple period, including the move toward eschatological and apocalyptic themes and genres. And he uses manuscript evidence from Qumran and the Septuagint to find clues to the final literary shaping of the proto-Masoretic text, likely under the Hasmonean monarchy.

The Legacy of Israel in Judah's Bible Daniel Fleming, 2012-07-30. This book offers a new way for biblical scholars and archaeologists to envision how the Bible's story

relates to history It presents a fresh case for the urgency and interest of biblical study in historical context embracing the complications of a text collection with the messy history of transmission and uncertain knowledge of the past Focusing on structures of politics and society the analysis is situated in the broad study of antiquity so that ancient Israel may contribute to understanding problems in the classical world and other domains outside the Near East *A Comprehensive History of India, Civil, Military, and Social, from the First Landing of the English to the Suppression of the Sepoy Revolt* Henry Beveridge, 1862 Six Old English Chronicles, of which Two are Now First Translated from the Monkish Latin Originals John Allen Giles, 1891 **Saturday Review**, 1862 *Catalogue of the Central Lending Department, Ratcliff Place. New Ed. 1906* Birmingham Public Libraries, 1906 The Chronicle, 1867 Jeremiah in History and Tradition Jim West, Niels Peter Lemche, 2019-10-08 Jeremiah in History and Tradition examines aspects of the Book of Jeremiah from a variety of perspectives including historical textual redaction and feminist criticism as well as the history of its reception The book looks afresh at the Book of Jeremiah through the lens of intertextuality and reception history in the broadest sense exploring Jeremiah in its historical context as well as the later history and interpretation of the text and also reconsidering aspects of the Book of Jeremiah's traditions This volume features essays from a unique assembly of scholars both seasoned and new It is divided into two parts Jeremiah in History which explores a variety of readings of Jeremiah from the point of view of classical historical criticism and Jeremiah in Tradition which discusses the portraits and use of both the book and the figure of Jeremiah in extra biblical traditions Offering challenging new theories Jeremiah in History and Tradition is invaluable to scholars and students in the field of Biblical Studies It is a useful resource for anyone working on the interpretation of the biblical text and the readings of the text of Jeremiah throughout history Athenæum and Literary Chronicle, 1888
