Mission and Moral Reflection in Paul Michael D. Barram, 2006 The Apostle Paul sought to exert his influence and authority over the congregations he founded long after they had been established Such ongoing oversight by Christianity's prototypical evangelist has not been adequately understood In a brief 1987 article W Paul Bowers challenged John Knox's assertion that Paul's pastoral and administrative work irked him and that he wanted to be free of it This book confirms and significantly develops Bowers's little known thesis examining a wide range of passages in the apostle's undisputed letters and highlighting crucial implications of Paul's broadly conceived vocation for understanding his mission and moral reflection

The Drama of History Kristin Gjesdal, 2021 The Drama of History plumbs the rich relationship between drama and philosophy Kristin Gjesdal offers a lively and accessible discussion of the philosophical aspects of Henrik Ibsen's work She shows how well known nineteenth century

philosophers such as Hegel and Nietzsche develop their thoughts in interaction with the dramatic arts At the heart of this interaction is a shared interest in exploring the existential condition of human life as lived and experienced in history In this sense Gjesdal engages philosophy's capacity beyond its narrow academic confines *Experiencing ACT from the Inside Out* Dennis Tirsch, Laura R. Silberstein-Tirsch, R. Trent Codd, Martin J. Brock, M. Dahl** David Baldwin, Mark Haugaard, 2017-10-02 This book is devoted to the work of Robert A Dahl who passed away in 2014 Dahl was one of the most important American political scientists and normative democratic theorists of the post war era and he was also an influential teacher who mentored some of the most significant academics of the next two generations of American political science As an incredibly productive scholar he had a career that spanned more than half a century his first book was published in 1950 his last was in 2007 at the age of 92 As a political scientist he was respected even by those who were critical of his works This theoretical significance and profound influence is reflected in the collection of chapters in this volume which reads like a who's who of the contemporary US political science scene His co author Bruce Stinebrickner documents the evolution of his and Dahl's seminal text *Modern Political Analysis* and how it became the standard introduction to American political science for nearly fifty years Katharine MacKinnon's chapter is of significance for its insights upon Dahl and also represents a succinct statement of a feminist reading and critique of contemporary political science Steven Lukes contributes a highly concise statement of the difference between one dimensional and three dimensional power This work will be a standard reference work for any researchers or those interested in the work of Robert Dahl among both established academics and students This book was originally published as a special issue of the *Journal of Political Power* **Baltic Light** Catherine Johnston, Helmut Borsch-Supan, Helmut R. Leppien, National Gallery of Canada, Kasper Monrad, 1999-01-01 During the first half of the nineteenth century Danish and German artists studying in Paris and Rome brought back the concept of plein air painting and began to paint out of doors on their native soil They introduced a whole new aesthetic that was sensitive to the light and atmospheric conditions peculiar to the north especially during the long summer days This beautiful book focuses on the painters and paintings of this period particularly Caspar David Friedrich who produced many fine works before he developed the romantic style for which he is better known The book presents topographical landscapes panoramas and some group and individual portraits that often include a window from which light emanates Essays by eminent authorities discuss various aspects of the Danish and North German open air

movement They note for example that the paintings reflect a direct view of nature devoid of the intellectual and moral overtones of the neoclassical paintings that preceded them They also discuss the fact that Schleswig Holstein was closely allied with Denmark until 1848 and this favored many Hamburg and north German artists studying at the Academy in Copenhagen where painting out of doors was encouraged In addition to the essays the book presents 108 works by twenty three artists catalogue entries for each work and a biography of each artist The Confidence Game Alex Berg,2023-02-18 She s a thief He s a grifter Game on For Natalia Levin life as a professional art thief is everything she hoped it would be She travels the world the pay is fantastic and she gets to work in sweet sweet solitude But when a rival crew reaches out about joining forces to steal the one painting she s always dreamed of that s an invitation she can t resist Natalia figures it ll be easy to keep the new crew at arm s length but her plans hit a snag when she meets their leader smooth talking grifter Diego Cabrera He s a liar a con man and too slick for his own good but he s beguiling and handsome and one hell of a storyteller Too bad she s going to screw him over anyway But as Diego cranks up the charm Natalia s finding it harder and harder to keep up her charade Not because she can t outwit him but because she s starting to do the one thing she told herself she d never do trust him With passions igniting Natalia is starting to realize she s made a terrible mistake she put her heart on the line while playing a confidence game The Stark family. The Grove Encyclopedia of Medieval Art and Architecture Colum Hourihane,2012 This volume offers unparalleled coverage of all aspects of art and architecture from medieval Western Europe from the 6th century to the early 16th century Drawing upon the expansive scholarship in the celebrated Grove Dictionary of Art and adding hundreds of new entries it offers students researchers and the general public a reliable up to date and convenient resource covering this field of major importance in the development of Western history and international art and architecture *Landscape* Ny Carlsberg Glyptotek,2005 **Clothes and Monasticism in Ancient Christian Egypt** Ingvild Sælid Gilhus,2021-03-08 This book is an exploration of the ideals and values of the ascetic and monastic life as expressed through clothes Clothes are often seen as an extension of us as humans a determinant of who we are and how we experience and interact with the world In this way they can play a significant role in the embodied and material aspects of religious practice The focus of this book is on clothing and garments among ancient monastics and ascetics in Egypt but with a broader outlook to the general meaning and function of clothes in religion The garments of the Egyptian ascetics and monastics are important because they belong to a period of transition in the history of Christianity and very much represent this way of living This study combines a cognitive perspective on clothes with an attempt to grasp the embodied experiences of being clothed as well as viewing clothes as potential actors Using sources such as travelogues biographies letters contracts images and garments from monastic burials the role of clothes is brought into conversation with material religion more generally This unique study builds links between ancient and contemporary uses of religious clothing It will therefore be of interest to any scholar of religious studies religious

history religion in antiquity and material religion **The Moonlight Doctor** Jaan Valsiner,2024-03-22 This is the very first authoritative book on the role of Carl Gustav Carus 1789 1869 in the history of psychology Carus was the initiator of the notions of development unconscious and archetype in psychology The book emphasizes the interdisciplinary focus of Carus work as it was based on the literature and art of his time and is closely related with medicine and Naturphilosophie The readership of the book will get access to the life course of a key figure of science of the 19th century Goulder and the Gospels Mark S. Goodacre,Mark Goodacre,1996-12-01 Goulder and the Gospels is the first comprehensive response to the radical challenge Michael Goulder has posed for New Testament scholarship Goulder dispenses with all hypothetical sources Q M and L and postulates highly creative evangelists who write in the light of the liturgy In this penetrating critique Goodacre provides a critical overview of Goulder s work focusing on several key areas the vocabulary of Q the language of the Minor Agreements the creativity of Luke and the lectionary theory He does not simply assess the plausibility of Goulder s ideas but also develops new ways to test them The theories are sometimes found to be wanting but at the same time Goulder is reaffirmed as one of the most important and stimulating Biblical scholars of this generation Anti-Judaism and the Gospel of John Mirosław Stanisław Wróbel,2023-12-04 In the light of the research undertaken in this book the author concludes that the so called anti Jewish texts in Johannine Gospel are not directed against the Jews being an ethnic or religious community The object of the polemic and attacks is not the entire Jewish nation across the span of all the ages but a group of the Jewish leaders or opponents to Jesus in the First Century AD Looking through the prism of the aposynagagal polemics one can notice that the state of tension between the Johannine community and the rabbinic Judaism is inter Jewish not anti Jewish in character The source of the polemical language of the Fourth Gospel is the Christological discussion in the historical and sociological context the Messianic confession the excommunication from the Synagogue the presence of Samaritans in the Johannine community the struggle for the preservation of the identity **Essays on Evolutions in the Study of Political Power** Giulio M. Gallarotti,2021-11-24 This book deals with the most important developments in the study of political power over the last four decades From the writings of the great Greek philosophers of antiquity to the present the idea of power has been the major subject in the study of politics Indeed some would say it defines the very field of politics itself as a social science Penned by the leading scholars in the field this collection gives a broad overview of the most important issues in the study of political power tracing the evolution of scholarly thinking about them and in doing so revealing crucial innovations therein This will be a major contribution in the understanding of the concepts and practices of how power manifests itself across social and political contexts This book will be of great interest to scholars students and individuals who wish to understand the very foundations of social and political life The chapters in this book were originally published as a special issue of the Journal of Political Power volume 14 issue 1 2021 *Nordic Perspectives on Nature-based Tourism* Peter Fredman,2021-02-26 Nature based tourism NBT is a sector where entrepreneurial success is
