The Glocalization of Early Childhood Curriculum Philip Hui Li,Jennifer J. Chen,2023-02-03 With empirical evidence and theoretical critique this book unveils the myths and debates e g child centeredness versus teacher directedness about early childhood curricula revealing their unique social cultural and historical roots Analyzing globally advocated early childhood curricula and ideologies such as the developmentally appropriate practice the child centered approach constructivism and globalized childhood this book argues that the direct adoption of these contextually bound approaches in local environments may be inappropriate if social and cultural compatibility is lacking The authors then examine how early childhood curricula may be implemented in a hybrid form Featuring case studies from American and Chinese contexts this book offers insights and recommendations for the future development and redeployment of early childhood curriculum studies and practices in a post truth era This volume serves as a valuable resource for scholars and students of early childhood education and comparative education as well as for key education stakeholders

Gender and Schooling in the Early Years Janice Koch,Beverly Irby,2005-09-01 In this volume gender and schooling in the early years addresses a broad range of issues including but not limited to gender equity in education We explore for example the complex world of play in Fromberg s chapter and are reminded that for young children play involves issues of power and hierarchy in ways that

parallel the role of gender in society Miletta's study of preschool children in northern Italy at Reggio Emilia reveals a story of classroom interactions where gender differences are not part of the equation for the youngsters Her chapter begs the question How does this environment empower all children regardless of gender Two chapters provide a lens to the Montessori setting for young children Wilgus studies the gendered patterns of young women teaching at a Montessori school while Irby Rodriguez and Lara Alecio explore the intersections of culture and gender at a bilingual Montessori public school Further examining the preschool years Plaster and Schiller address the current brain research and examine the ways in which the adults that staff early child care programs and the environments that they offer play an important role in the development of our children *Early Childhood Education* Moncrieff Cochran, Rebecca S. New, 2007-01-30 Early childhood education has reached a level of unprecedented national and international focus Parents policy makers and politicians have opinions as well as new questions about what how when and where young children should learn Teachers and program administrators now find curriculum discussions linked to dramatic new understandings about children's early learning and brain development Early childhood education is also a major topic of concern internationally as social policy analysts point to its role in a nation's future economic outlook As a groundbreaking contribution to its field this four volume handbook discusses key historical and contemporary issues research theoretical perspectives national policies and practices
