Why? Mario Livio,2017-07-11 Astrophysicist and author Mario Livio investigates perhaps the most human of all our characteristics curiosity in this lively expert and definitely not dumbed down account Kirkus Reviews as he explores our innate desire to know why Experiments demonstrate that people are more distracted when they overhear a phone conversation where they can know only one side of the dialogue than when they overhear two people talking and know both sides Why does half a conversation make us more curious than a whole conversation Have you ever wondered why we wonder why Mario Livio has and he takes you on a fascinating quest to understand the origin and mechanisms of our curiosity I thoroughly recommend it Adam Riess Nobel Prize Winner in Physics 2011 Curiosity is not only at the heart of mystery and suspense novels it is also essential to other creative endeavors from painting to sculpture to music It is the principal driver of basic scientific research Even so there is still no definitive scientific consensus about why we humans are so curious or about the mechanisms in our brain that are responsible for curiosity In the ever fascinating Why Livio interviewed scientists in several fields to explore the nature of curiosity He examined the lives of two of history's most curious geniuses Leonardo da Vinci and Richard Feynman He also talked to people with boundless curiosity a superstar rock guitarist who is also an astrophysicist an astronaut with degrees in computer science biology

literature and medicine What drives these people to be curious about so many subjects An astrophysicist who has written about mathematics biology and now psychology and neuroscience Livio has firsthand knowledge of his subject which he explores in a lucid entertaining way that will captivate anyone who is curious about curiosity *Locating Renaissance Art* Carol M. Richardson, 2007-01-01 Renaissance art history is traditionally identified with Italian centers of production and Florence in particular Instead this book explores the dynamic interchange between European artistic centers and artists and the trade in works of art It also considers the impact of differing locations on art and artists and some of the economic political and cultural factors crucial to the emergence of an artistic center During c 1420 1520 no city or court could succeed in isolation and so artists operated within a network of interests and local and international identities The case studies presented in this book portray the Renaissance as an exciting international phenomenon with cities and courts inextricably bound together in a web of economic and political interests *Aperture* ,2005 Face to Face Hans-Michael Herzog, Daros Collection (Art), 2008 Since its emergence in the 1980s and 90s the Daros Collection in Zurich has accumulated about 280 works by 30 outstanding North American and European artists It possesses one of the finest collections of early Warhol and major works by Sigmar Polke Barbara Kruger Alfredo Jaar and Louise Bourgeois among many others In 2000 when the strength and integrity of this collection had been established the museum boldly struck off in a new direction and the Daros Latin America Collection was founded Already comprising roughly 1 000 works by around 100 artists including Carlos Amorales Jos Bedia Alfredo Jaar Gego Guillermo Kuitca Vik Muniz among others it is now the largest collection of Latin American art in Europe an exciting new resource that will doubtless have interesting long term ramifications for contemporary European art Face to Face is the first volume to bring the two Daros Collections together thereby engaging these works created in different media and of various cultural origin in a dynamic dialogue that disrupts ordinary canon oriented perspectives Face to Face thus not only deepens our knowledge of the respective qualities of the two collections but also explores the common characteristics of their cultural backgrounds **Art Nexus** ,2007 Aperture 176 Aperture Foundation, Incorporated, 2004 **Implications of the image** Universidad Nacional Autónoma de México.
