Reforging The Transatlantic Relationship:

Reforging the Trans-Atlantic Relationship Charles L. Barry, 1996 Atlantic is the key word in this collection of essays that examines the state of the Euro North American relationship Both European and American experts including Samuel Nelson Drew who lost his life in the search for peace in Bosnia discuss the major questions surrounding the future U S role in NATO The essays tackle the complex details of enlarging NATO to include members from the former Warsaw Pact without disturbing relationships with Russia or creating new problems for Slovakia Romania Bulgaria or the Baltic states The contributors are S Nelson Drew Jeffrey Simon Peter Schmidt Charles Barry Gebhard Schweigler Brian Sullivan Stuart Johnson Reinhardt Rummel and Christoph Royen The A to Z of NATO and Other International Security Organizations Marco Rimanelli, 2009-09-14 The North Atlantic Treaty Organization NATO is a military alliance established by the signing of the North Atlantic Treaty on April 4 1949 The treaty was signed by Belgium the Netherlands Luxemburg France United Kingdom United States Canada Portugal Italy Norway Denmark and Iceland Today there are a total of 26 countries that belong to NATO The A to Z of NATO and Other International Security Organizations covers the Atlantic Alliance s origins structure and organization through a chronology an introductory essay a bibliography and over 1 000 cross referenced dictionary entries on its Secretaries Generals its Supreme Allied Commanders Europe plus all affiliated organizations created to enhance NATO s reach in a broader Euro Atlantic security architecture e g North Atlantic Consultative Council Euro Atlantic Partnership Council NATO Russia Charter NATO Ukraine Charter and NATO Mediterranean Dialogue Partners This book also covers other related regional organizations with security responsibilities in Europe and worldwide where they interact with NATO either currently e g ANZUS ASEAN European Union Organization of African Unity Organization of American States Organization on Security and Cooperation in Europe and United Nations or in the past e g CENTO European Defence Community SEATO Warsaw Pact and Western European Union **Reforging European Security** Kurt Gottfried, Paul Bracken, 2019-06-26 This book provides some answers to the questions of how to pursue the build down of the East West military confrontation in Europe and of how to build up an enduring and effective security system for Europe It is the result of a three year study of European security affairs European Union and Strategy Kjell Engelbrekt, Jan Hallenberg, 2010-09-13 This edited volume sets out to explore the paradox that the European Union EU produces policies with strategic qualities but lacks the institutions and concepts to engage in strategic reasoning and action proper The book has a two fold agenda exploring current EU external policies that are or seem to be linked to strategic priorities and also studying the concept of strategy in the particular context of EU decision and policymaking The volume first examines the character of the Union as a strategic actor at this stage of its development It then explores the ability of the Union to act and otherwise influence both its periphery and the wider world focusing in particular on how it is perceived by other actors The final section comprises personal assessments by a group of contributors regarding the character of the union as a strategic

actor in the present and future When these are pieced together a picture emerges of a European strategy in the making albeit one that so far is modest and partial This book will be of interest to students of European Security European Politics and IR The Future of Transatlantic Security Relations Richard A. Chilcoat, Joseph R. Cerami, Patrick Baetjer, 2006

New Transatlantic Agenda and the Future Joerg Monar, 1998-12-18 This book presents the results of an international conference on the New Transatlantic Agenda organized in Brussels in July 1996 by the Centre for European Politics and Institutions CEPI of the University of Leicester in cooperation with the Directorate General I of the European Commission and Kluwer Law International While most of its chapters are revised versions of papers presented at the conference some were commissioned afterwards in order to address several relevant issues which could not be covered adequately within the time limited framework of the conference The book provides an analysis both of the innovative elements of the New Transatlantic Agenda and of the main challenges that EU US relations will have to face at the turn of this century While the main focus is on whether the New Transatlantic Agenda constitutes an adequate response to these challenges this volume also explores the necessary conditions for a successful long term implementation of the Agenda and asks what lessons can be drawn in this respect from previous experiences in transatlantic cooperation Emphasis has been given to the consideration of justice and home affairs as matters of EU US cooperation not only because this is undoubtedly one of the most innovative areas of the New Transatlantic Agenda but because it is an area in which both governments are confronted with rapidly increasing challenges This volume aims to make a significant contribution to the discussion of the future of the transatlantic relationship whose quality is likely to depend on the capability of both sides to respond with new approaches such as those laid out in the New Transatlantic Agenda to inevitable changes in both the bilateral and global contexts Transforming America's Military , **British Foreign Policy Under New Labour, 1997-2005** P. Williams, 2005-11-22 This important new study provides a critical analysis of the foreign policies conducted during the first two terms of Tony Blair's government It focuses upon the government's key foreign policy commitments three of its most important international relationships with the US the European Union and Africa and how Blair's government dealt with five fundamental policy issues political economy defence international development intervention and Iraq It argues that throughout this period Labour's foreign policies attempted to paper over some important contradictions *Russia Faces NATO Expansion* Joseph Laurence Black, 2000 The importance of Russian thinking about NATO expansion eastward has been badly underestimated in the West In this first comprehensive English language assessment of the Russian position Black seeks to remedy that oversight by a thorough examination of Russian official statements expert analysis party platforms and media commentary which show the degree to which NATO expansion has brought a rare unity to the otherwise fragmented and volatile Russian political arena Based entirely on Russian language sources this timely study provides invaluable insights into current Russian thinking on NATO expansion and projects the significance of such thinking for the Western Alliance into the future Partnership in

Crisis Paul Cornish,1997-01-01 Focuses on the inner workings of NATO during the period 1996 97 After a summary of theoretical reflections on military alliances chapters describe four paths to compromise US British French and German without which the goals and complex formulae devised in 1996 and 1997 could not have been agreed upon and analyze the international adaptation of NATO and its strength of consensus on both sides of the Atlantic Distributed by Books International Annotation copyrighted by Book News Inc Portland OR

EU Enlargement and the Transatlantic Alliance Sven Biscop,Johan Lembke,2008 What is the interplay between EU enlargement and a fluctuating transatlantic security partnership Will the accession of new EU members reinforce this partnership or instead increase the EU s assertiveness as an independent foreign policy actor The authors of EU Enlargement and Transatlantic Security find answers in an examination of broader EU security strategies the foreign and security policies of the newer and potential EU members and changing US priorities Their perceptive analysis offers a sharp lens through which to understand the current and future state of transatlantic security

Arming the Western Front Roger Lloyd-Jones,M.J. Lewis,2016-06-10 The First World War was above all a war of logistics Whilst the conflict will forever be remembered for the mud and slaughter of the Western Front it was a war won on the factory floor as much as the battlefield Examining the war from an industrial perspective Arming the Western Front examines how the British between 1900 and 1920 set about mobilising economic and human resources to meet the challenge of industrial war Beginning with an assessment of the run up to war the book examines Edwardian business state relations in terms of armament supply It then outlines events during the first year of the war taking a critical view of competing constructs of the war and considering how these influenced decision makers in both the private and public domains This sets the framework for an examination of the response of business firms to the demand for shells more shells and their varying ability to innovate and manage changing methods of production and organisation The outcome a central theme of the book was a complex and evolving trade off between the quantity and quality of munitions supply an issue that became particularly acute during the Battle of the Somme in 1916 This deepened the economic and political tensions between the military the Ministry of Munitions and private engineering contractors as the pressure to increase output accelerated markedly in the search for victory on the western front The Great War created a dual army one in the field the other at home producing munitions and the final section of the book examines the tensions between the two as the country strove for final victory and faced the challenges of the transition to the peace time economy

Handbook of Defence Politics Isaiah "Ike" Wilson III,James J.F. Forrest,2011-03-28 Issues of defence politics and policy have long been at the forefront of political agendas and defining of international affairs However the dramatic changes to the global system that have taken place since the end of the Cold War and particularly since the terror attacks on the USA on 11 September 2001 have amplified the world s attention toward political and policy issues of national regional and global security The focus of this volume is on examining the fundamental

causes of and defence policy responses to this new post 9 11 security environment Edited by Isaiah Ike Wilson III and James J F Forest of the US Military Academy West Point USA this volume is international in scope with pieces written by experts in the field offering a collection of up to date and balanced insights on key contemporary issues of concern to defence policymakers The book will be an invaluable reference tool for academics and students researchers in international relations policymakers media professionals and government officials

A Special Relationship John Dumbrell, 2017-09-16 In the comprehensively revised and updated new edition of this highly acclaimed text John Dumbrell assesses how and why the Anglo American special relationship found a new lease of life under Blair as Britain repeatedly chose the US in its evolving foreign policy orientation rather than Europe

The European Union and Strategy Kjell Engelbrekt, Jan Hallenberg, 2008 This edited volume looks into the nature of the European Union as a strategic actor setting out to explore the paradox that the EU produces policies with strategic qualities but lacks the institutions and concepts to engage in strategic reasoning and action proper

Hospitality and the Transatlantic Imagination, 1815-1835 Cynthia Schoolar Williams, 2014-05-13 Hospitality and the Transatlantic Imagination 1815 1835 argues that a select group of late Romantic English and American writers disrupted national tropes by reclaiming their countries shared historical identification with hospitality In doing so they reimagined the spaces of encounter the city the coast of England and the Atlantic itself

African Roots, Brazilian Rites C. Sterling, 2012-09-06 This text explores how Afro Brazilians define their Africanness through Candomblé and Quilombo models and construct paradigms of blackness with influences from US based perspectives through the vectors of public rituals carnival drama poetry and hip hop
